Air stripping
Removal of Mercury from Low-Concentration Aqueous Streams Using Chemical Reduction and Air Stripping. — Brian B. Looney, Miles E. Denham, Jr., Karen M. Vangelas, and Nicolas S. Bloom; 129(9), 819-25 (2003).
Counterflow Method for Measurement of Henry's Law Constants. — Julie P. Caires, Michiya Suzuki, and Tohren C. G. Kibbey; 129(12), 1169-75 (2003).

Aircraft
Propylene Glycol Deicer Biodegradation Kinetics: Anaerobic Complete-Mix Stirred Tank Reactors, Filter, and Fluidized Bed. — Daniel Harris Zitomer and Gulseven Ubay Tonuk; 129(2), 123-9 (2003).

Algae
Modeling Approach to Periphyton and Nutrient Interaction in a Stream. — Duong Hong Son and Takeshi Fujino; 129(9), 834-43 (2003).

Anaerobic digestion
Granular Bed Baffled Reactor (Grabbr): Solution to a Two-Phase Anaerobic Digestion System. —M. I. Baloch and J. C. Akunna; 129(11), 1015-21 (2003).
Use of an Anaerobic Sludge Digestion Process to Treat Pentachlorophenol-(PCP-) Contaminated Soil. — Shyi-Tien Chen and P. M. Berthouex; 129(12), 1112-9 (2003).

Anaerobic filters
Anaerobic Treatment of High Sulfate Wastewater with Oxygenation to Control Sulfide Toxicity. —Samir Kumar Khanal and Ju-Chang Huang; 129(12), 1104-11 (2003).

Anaerobic processes
Biodegradation of Mixtures of Phenolic Compounds in an Upward-Flow Anaerobic Sludge Blanket Reactor. —Elías Razo-Flores, Margarita Iniestra-González, Jim A. Field, Patricia Olguín-Lora, and Laura Puig-Grajales; 129(11), 999-1006 (2003).
Anaerobic Treatment of High Sulfate Wastewater with Oxygenation to Control Sulfide Toxicity. —Samır Kumar Khanal and Ju-Chang Huang; 129(12), 1104-11 (2003).

Aquifers
Secondary Benefits of Aquifer Storage and Recovery: Disinfection By-Product Control. —James P. McQuarrie and Kenneth Carlson; 129(5), 412-8 (2003).
Aerobic Biodegradation of Methyl Tert-Butyl Ether in Gasoline-Contaminated Aquifer Sediments. —Jeff R. Zoeckler, Mark A. Widdowson, and John T. Novak; 129(7), 642-50 (2003).

Aromatic hydrocarbons
Retention and Distribution of 1-Naphthol and Naphthol Polymerization Products on Surface Soils. — Fangxiang Xu and Alok Bhandari; 129(11), 1041-50 (2003).

Arsenic
Arsenic Removal from Groundwater by Iron Impregnated Sand. —Rakesh Chandra Vaishya and Sudhir Kumar Gupta; 129(1), 89-92 (2003).
Design and Operation of Point-of-Use Treatment System for Arsenic Removal. —Bruce M. Thomson, T. Jeffrey Cotter, and Joseph D. Chwirka; 129(6), 561-4 (2003).
Evaluation of Leaching Tests for Cement Based Immobilization of Hazardous Compounds. — M. Leist, R. J. Casey, and D. Caridi; 129(7), 637-41 (2003).

Ashes
Effects of Kiln Ash on the Compressibility of Residual Lateritic Soils. — T. C. de Brito Galvão, A. A. de Mendonça, and G. F. Simões; 129(10), 948-51 (2003).
Simulation of Municipal Solid Waste Incinerator Ash/Cement Systems by Means of Factorial Experiments. — Alessandra Polettini, Raffaella Pomi, and Gemma Morelli; 129(11), 1051-60 (2003).

Asphalts
Engineering Properties of Fiber Reinforced Cold Asphalt Mixes. — Benedito de S. Bueno, Wander R. da Silva, Dario C. de Lima, and Enivaldo Minete; 129(10), 952-5 (2003).

Assessments
Dissolved Oxygen-Stat Titration Respirometry: Principle of Operation and Validation. — Alberto Rozzi, Elena Ficara, and Andrea Rocco; 129(7), 602-9 (2003).

Attenuation
Aerobic Biodegradation of Methyl Tert-Butyl Ether in Gasoline-Contaminated Aquifer Sediments. —Jeff R. Zoeckler, Mark A. Widdowson, and John T. Novak; 129(7), 642-50 (2003).

Australia
Evaluation of Leaching Tests for Cement Based Immobilization of Hazardous Compounds. —M. Leist, R. J. Casey, and D. Caridi; 129(7), 637-41 (2003).
Lagoon Effluent Treatment Using Grass Filtration. —F. Ibrahimi, B. J. C. Perera, P. Lechte, and A. K. Takyi; 129(11), 1022-9 (2003).

Backfills
Use of Waste Materials for Control of Acid Mine Drainage and Subsidence. —Hema J. Siriwardane, R. S. S. Kannan, and Paul F. Ziemkiewicz; 129(10), 910-5 (2003).

Bacteria
Airborne Bacteria Control Under Chamber and Test-Home Conditions. —Meng-Hui Lai, Demetrios J. Moschandreas, and Krishna R. Pagilla; 129(3), 202-8 (2003).
Comparative Study of Two Bioassays for Applications in Influent Wastewater Toxicity Monitoring. — S. Ren and P. D. Frymier; 129(3), 216-21 (2003).
Toxicity Estimation of Phenolic Compounds by Bioluminescent Bacterium. —S. Ren and P. D. Frymier; 129(4), 328-35 (2003).
Bacterial Leaching of Metals from Tannery Sludge by Indigenous Sulphur-Oxidizing Bacteria—Effect of Sludge Solids Concentration. —S. B. Shen, R. D. Tyagi, J. F. Blais, and R. Y. Surampalli; 129(6), 513-9 (2003).

Biodegradation
Propylene Glycol Deicer Biodegradation Kinetics: Anaerobic Complete-Mix Stirred Tank Reactors, Filter, and Fluidized Bed. —Daniel Harris Zitomer and Gulseven Ubay Tonuk; 129(2), 123-9 (2003).
Rate Parameters for Methyl *tert*-Butyl Ether Biodegradation via a Radial Diffusion Model. —Hakan Başağaoğlu, Esther E. Chung, Deepa Gandhi, Kate M. Scow, Benjamin J. McCoy, and Timothy R. Ginn; 129(6), 565-70 (2003).
Aerobic Biodegradation of Methyl Tert-Butyl Ether in Gasoline-Contaminated Aquifer Sediments. — Jeff R. Zoeckler, Mark A. Widdowson, and John T. Novak; 129(7), 642-50 (2003).
Biodegradation of Mixtures of Phenolic Compounds in an Upward-Flow Anaerobic Sludge Blanket Reactor. — Elías Razo-Flores, Margarita Iniestra-González, Jim A. Field, Patricia Olguín-Lora, and Laura Puig-Grajales; 129(11), 999-1006 (2003).

Biofilm
Efficacy of Biofilms under Toxic Conditions. — Shabbir H. Gheewala and Ajit P. Annachhatre; 129(6), 576-9 (2003).
Instability of Hydrocarbon Films over Mineral Surfaces: Microscale Experimental Studies. — Franco M. Francisca, Victor A. Rinaldi, and Juan C. Santamarina; 129(12), 1120-8 (2003).

Biological treatment
Excess Sludge Production in Membrane Bioreactors: A Theoretical Investigation. — Chuan-Hong Xing, Wei-Zhong Wu, Yi Qian, and Eric Tardieu; 129(4), 291-7 (2003).
Combined System for Biological Removal of Nitrogen and Carbon from a Fish Cannery Wastewater. — A. Mosquera-Corral, J. L. Campos, M. Sánchez, R. Méndez, and J. M. Lema; 129(9), 826-33 (2003).
Comparison of Bacterial Bioluminescence with Activated Sludge Oxygen Uptake Rates during Zinc Toxic Shock Loads in a Wastewater Treatment System. —C. A. Lajoie, S.-C. Lin, and C. J. Kelly; 129(9), 879-83 (2003).

Biomass
Dissolved Oxygen-Stat Titration Respirometry: Principle of Operation and Validation. —Alberto Rozzi, Elena Ficara, and Andrea Rocco; 129(7), 602-9 (2003).

Boilers
Influence of Different Cleaning Conditions on Cleaning Performance of Pilot-Scale Pulse-Jet Baghouse. — Hsin-Chung Lu and Chuen-Jinn Tsai; 129(9), 811-8 (2003).

Bottom ash
Thermal Treatment for Incinerator Ash: Evaporation and Leaching Rates of Metals. —Zhen-Shu Liu, Ming-Yen Wey, and Shu-Jen Lu; 129(3), 258-66 (2003).

Boundary conditions
Bed Shear Stress Boundary Condition for Storage Tank Sedimentation. —Åsa Adamsson, Virginia Stovin, and Lars Bergdahl; 129(7), 651-8 (2003).

Boundary layer
Periodic Diffusional Mass Transfer near Sediment/Water Interface: Theory. —Makoto Higashino, Heinz G. Stefan, and Charles J. Gantzer; 129(5), 447-55 (2003).

Brazil
Effects of Kiln Ash on the Compressibility of Residual Lateritic Soils. —T. C. de Brito Galvão, A. A. de Mendonça, and G. F. Simões; 129(10), 948-51 (2003).

Buildings, residential
Airborne Bacteria Control Under Chamber and Test-Home Conditions. —Meng-Hui Lai, Demetrios J. Moschandreas, and Krishna R. Pagilla; 129(3), 202-8 (2003).
Use of Residential Construction Waste and Resi-

dues from Red Ceramic Industry in Alternative Mortars. — L. V. Amorim, H. L. Lira, and H. C. Ferreira; 129(10), 916-20 (2003).

Cadmium

Investigation of Cadmium Desorption from Different-Sized Sediments. — Sui Liang Huang; 129(3), 241-7 (2003).

Calcium carbonate

Biogeochemical Evaluation of Mechanisms Controlling $CaCO_{3(s)}$ Precipitation in Landfill Leachate-Collection Systems. — Bruce E. Rittmann, James E. Banaszak, Andrew Cooke, and R. Kerry Rowe; 129(8), 723-30 (2003).

California

Modeling Storm Water Mass Emissions to the Southern California Bight. — Drew Ackerman and Kenneth Schiff; 129(4), 308-17 (2003).

Reconstructing Contaminant Deposition in a San Francisco Bay Marina, California. — Adam H. Love, Bradley K. Esser, and James R. Hunt; 129(7), 659-66 (2003).

Regression Model for Daily Maximum Stream Temperature. — David W. Neumann, Balaji Rajagopalan, and Edith A. Zagona; 129(7), 667-74 (2003).

Data Requirements for Load Estimation in Well-Mixed Tidal Channels. —Allyson K. Chu and Brett F. Sanders; 129(8), 765-73 (2003).

Canada

Integrated Subsurface Modeling and Risk Assessment of Petroleum-Contaminated Sites in Western Canada. —Z. Chen and G. H. Huang; 129(9), 858-72 (2003).

Carbon

Combined System for Biological Removal of Nitrogen and Carbon from a Fish Cannery Wastewater. — A. Mosquera-Corral, J. L. Campos, M. Sánchez, R. Méndez, and J. M. Lema; 129(9), 826-33 (2003).

Carbonation

Carbonation of Municipal Solid Waste Incineration Fly Ash and the Impact on Metal Mobility. —Holger Ecke, Nourreddine Menad, and Anders Lagerkvist; 129(5), 435-40 (2003).

Chelating agents

Chemical Control of Struvite Precipitation. —James D. Doyle, Kath Oldring, John Churchley, Colin Price, and Simon A. Parsons; 129(5), 419-26 (2003).

Chemical oxygen demand

Sodium Inhibition of Thermophilic Methanogens. —Wen-Hsing Chen, Sun-Kee Han, and Shihwu Sung; 129(6), 506-12 (2003).

Production of Soluble Microbial Products (SMP) in Anaerobic Chemostats Under Nutrient Deficiency. — Sérgio F. Aquino and David C. Stuckey; 129(11), 1007-14 (2003).

Chemical treatment

Removal of Mercury from Low-Concentration Aqueous Streams Using Chemical Reduction and Air Stripping. —Brian B. Looney, Miles E. Denham, Jr., Karen M. Vangelas, and Nicolas S. Bloom; 129(9), 819-25 (2003).

Chemicals

Chemical Control of Struvite Precipitation. —James D. Doyle, Kath Oldring, John Churchley, Colin Price, and Simon A. Parsons; 129(5), 419-26 (2003).

Counterflow Method for Measurement of Henry's Law Constants. — Julie P. Caires, Michiya Suzuki, and Tohren C. G. Kibbey; 129(12), 1169-75 (2003).

Chlorides

Thermal Treatment for Incinerator Ash: Evaporation and Leaching Rates of Metals. — Zhen-Shu Liu, Ming-Yen Wey, and Shu-Jen Lu; 129(3), 258-66 (2003).

Floc Characteristics and Removal of Turbidity and Humic Acid from High-Turbidity Storm Water. — G. Annadurai, S. S. Sung, and D. J. Lee; 129(6), 571-5 (2003).

Simulation of Municipal Solid Waste Incinerator Ash/Cement Systems by Means of Factorial Experiments. — Alessandra Polettini, Raffaella Pomi, and Gemma Morelli; 129(11), 1051-60 (2003).

Chlorination

Secondary Benefits of Aquifer Storage and Recovery: Disinfection By-Product Control. — James P. McQuarrie and Kenneth Carlson; 129(5), 412-8 (2003).

Chromium

Bacterial Leaching of Metals from Tannery Sludge by Indigenous Sulphur-Oxidizing Bacteria—Effect of Sludge Solids Concentration. —S. B. Shen, R. D. Tyagi, J. F. Blais, and R. Y. Surampalli; 129(6), 513-9 (2003).

Leaching Behavior of Lead, Chromium (III), and Zinc in Cement/Metal Oxides Systems. —Ignacio Fernández Olmo, Emilio Chacón, and Angel Irabien; 129(6), 532-8 (2003).

Cisterns

Integrated Modeling of Anaerobic Fluidized Bed Bioreactor for Deicing Waste Treatment. I: Model Derivation. —Jonghyuk Seok and Simeon J. Komisar; 129(2), 100-9 (2003).

Integrated Modeling of Anaerobic Fluidized Bed Bioreactor for Deicing Waste Treatment. II: Simulation and Experimental Studies. —Jonghyuk Seok and Simeon J. Komisar; 129(2), 110-22 (2003).

Modeling Tetrachloroethylene Decomposition in Photosonolysis Reactor. —Chikashi Sato and Steve M. Ogle; 129(2), 136-46 (2003).

Atmospheric Oxygen Transfer During In Situ Oxygen Uptake Rate Measurements. —Manuel Quintela and Kyoung S. Ro; 129(2), 183-6 (2003).

Electrochemical Reduction of 2,4-Dinitrotoluene in a Continuous Flow Laboratory Scale Reactor. —Rajesh B. Doppalapudi, George A. Sorial, and Stephen W. Maloney; 129(3), 192-201 (2003).

Excess Sludge Production in Membrane Bioreactors: A Theoretical Investigation. —Chuan-Hong Xing, Wei-Zhong Wu, Yi Qian, and Eric Tardieu; 129(4), 291-7 (2003).

Dynamic Mathematical Modeling of an Isothermal Three-Phase Reactor: Model Development and Validation. —J. Yang, D. W. Hand, J. C. Crittenden, D. R. Hokanson, E. J. Oman, and D. Audeves; 129(7), 586-94 (2003).

Biodegradation of Mixtures of Phenolic Compounds in an Upward-Flow Anaerobic Sludge Blanket Reactor. —Elías Razo-Flores, Margarita Iniestra-González, Jim A. Field, Patricia Olguín-Lora, and Laura Puig-Grajales; 129(11), 999-1006 (2003).

Granular Bed Baffled Reactor (Grabbr): Solution to a Two-Phase Anaerobic Digestion System. — M. I. Baloch and J. C. Akunna; 129(11), 1015-21 (2003).

Clays

Effect of Soil Type on Electrokinetic Removal of Phenanthrene Using Surfactants and Cosolvents. — Krishna R. Reddy and Richard E. Saichek; 129(4), 336-46 (2003).

Clogging

Biogeochemical Evaluation of Mechanisms Controlling $CaCO_{3(s)}$ Precipitation in Landfill Leachate-Collection Systems. — Bruce E. Rittmann, James E. Banaszak, Andrew Cooke, and R. Kerry Rowe; 129(8), 723-30 (2003).

Coagulation

Reduction of Fulvic Acid in Drinking Water by Ferrate. — Jiu-Hui Qu, Hui-Juan Liu, Suo-Xiang Liu, and Peng Ju Lei; 129(1), 17-24 (2003).

Development of Optimal Poly-Alumino–Iron Sulphate Coagulant. — Jia-Qian Jiang and Nigel J. D. Graham; 129(8), 699-708 (2003).

Coal fired powerplants

Kinetic Study on Absorption of SO_2 and NO_X with Acidic $NaClO_2$ Solutions Using the Spraying Column. — T. W. Chien, H. Chu, and H. T. Hsueh; 129(11), 967-74 (2003).

Coastal environment

Sensitivity Analysis and Comparative Performance of Outfalls with Single Buoyant Plumes. —Maria A. Economopoulou, Alexia A. Economopoulou, and Alexander P. Economopoulos; 129(2), 169-78 (2003).

Coefficients

Dispersion Coefficient of Streams from Tracer Experiment Data. —Sushil K. Singh and M. B. Beck; 129(6), 539-46 (2003).

Color

Electrochemical Pretreatment of Wastewater from Color Photograph Processing Unit. —Rajesh S. Bejankiwar, K. S. Lokesh, and T. P. Halappa Gowda; 129(11), 1061-3 (2003).

Activated Carbon Addition to an Activated Sludge Model Reactor for Color Removal from a Cotton Textile Processing Wastewater. —Aysegul Pala and Enis Tokat; 129(11), 1064-8 (2003).

Combined sewers

Bed Shear Stress Boundary Condition for Storage Tank Sedimentation. —Åsa Adamsson, Virginia Stovin, and Lars Bergdahl; 129(7), 651-8 (2003).

Combustion

Kinetic Study on Absorption of SO_2 and NO_X with Acidic $NaClO_2$ Solutions Using the Spraying Column. — T. W. Chien, H. Chu, and H. T. Hsueh; 129(11), 967-74 (2003).

Composts

Modeling Temperature Effects on Decomposition. —David M. Crohn and Cesar Valenzuela-Solano; 129(12), 1149-56 (2003).

Compressive strength

Influence of Portland Cement Type on Unconfined Compressive Strength and Linear Expansion of Cement-Stabilized Phosphogypsum. —A. B. Parreira, A. R. K. Kobayashi, and O. B. Silvestre, Jr.; 129(10), 956-60 (2003).

Construction equipment

Probabilistic Nonroad Mobile Source Emission Factors. — H. Christopher Frey and Sachin Bammi; 129(2), 162-8 (2003).

Construction materials
Framework for Recycling of Wastes in Construction. — Hilary I. Inyang; 129(10), 887-98 (2003).
Use of Residential Construction Waste and Residues from Red Ceramic Industry in Alternative Mortars. — L. V. Amorim, H. L. Lira, and H. C. Ferreira; 129(10), 916-20 (2003).
Physical and Chemical Properties of Recycled Tire Shreds for Use in Construction. — Horace Moo-Young, Kassahun Sellasie, Daniel Zeroka, and Gajanan Sabnis; 129(10), 921-9 (2003).
Contaminants
Plasma-Assisted Process for Removing NO/NO_x from Gas Streams with C_2H_4 as Additive. — How Ming Lee, Moo Been Chang, and Shyh Chaur Yang; 129(9), 800-10 (2003).
Contamination
Bacteriophages MS2 and PRD1 in Turfgrass by Subsurface Drip Irrigation. — Carlos Enriquez, Absar Alum, Elisa M. Suarez-Rey, Christopher Y. Choi, Gideon Oron, and Charles P. Gerba; 129(9), 852-7 (2003).
Relating Batch and Column Diffusion Coefficients for Leachable Contaminants in Particulate Waste Materials. —Vincent O. Ogunro and Hilary I. Inyang; 129(10), 930-42 (2003).
Control
Chemical Control of Struvite Precipitation. —James D. Doyle, Kath Oldring, John Churchley, Colin Price, and Simon A. Parsons; 129(5), 419-26 (2003).
Creosote
Field and Laboratory Evaluation of the Impact of Tall Fescue on Polyaromatic Hydrocarbon Degradation in an Aged Creosote-Contaminated Surface Soil. —Sandra L. Robinson, John T. Novak, Mark A. Widdowson, Scott B. Crosswell, and Glendon J. Fetterolf; 129(3), 232-40 (2003).
Data analysis
Sustainability Indices of Thermal Electrical Power Production in Greece. —Ioannis E. Tsolas and Odysseus G. Manoliadis; 129(2), 179-82 (2003).
Data collection
Data Requirements for Load Estimation in Well-Mixed Tidal Channels. —Allyson K. Chu and Brett F. Sanders; 129(8), 765-73 (2003).
Decision support systems
Regression Model for Daily Maximum Stream Temperature. — David W. Neumann, Balaji Rajagopalan, and Edith A. Zagona; 129(7), 667-74 (2003).
Decomposition
Modeling Temperature Effects on Decomposition. —David M. Crohn and Cesar Valenzuela-Solano; 129(12), 1149-56 (2003).
Denitrification
Nitrogen Removal Using Combined Ultracompact Biofilm Reactor-Packed Bed System. —S. L. Ong, L. Y. Lee, J. Y. Hu, and W. J. Ng; 129(1), 43-51 (2003).
Oxidation-Reduction Potential as a Monitoring Tool in a Low Dissolved Oxygen Wastewater Treatment Process. —J. B. Holman and D. G. Wareham; 129(1), 52-8 (2003).
Influence of COD:N:P Ratio on Nitrogen and Phosphorus Removal in Fixed-Bed Filter. —Joo-Hwa Tay, Peng-Cheong Chui, and Huihua Li; 129(4), 285-90 (2003).
Four-Substrate Design Model for Single Sludge Predenitrification System. — Giovanni Esposito, Massimiliano Fabbricino, and Francesco Pirozzi; 129(5), 394-401 (2003).
Design
Systematic Reliability-Based Environmental Design of Erosion for Efficient Engineered Landscape Profiling. — E. K. H. Goh and B. White; 129(7), 620-8 (2003).
Desorption
Investigation of Cadmium Desorption from Different-Sized Sediments. — Sui Liang Huang; 129(3), 241-7 (2003).
Detention basins
Effects of Stormwater Infiltration on Quality of Groundwater Beneath Retention and Detention Basins. — David Fischer, Emmanuel G. Charles, and Arthur L. Baehr; 129(5), 464-71 (2003).
Diffusion
Periodic Diffusional Mass Transfer near Sediment/Water Interface: Theory. — Makoto Higashino, Heinz G. Stefan, and Charles J. Gantzer; 129(5), 447-55 (2003).
Rate Parameters for Methyl *tert*-Butyl Ether Biodegradation via a Radial Diffusion Model. —Hakan Başağaoğlu, Esther E. Chung, Deepa Gandhi, Kate M. Scow, Benjamin J. McCoy, and Timothy R. Ginn; 129(6), 565-70 (2003).
Diffusion coefficient
Relating Batch and Column Diffusion Coefficients for Leachable Contaminants in Particulate Waste Materials. —Vincent O. Ogunro and Hilary I. Inyang; 129(10), 930-42 (2003).
Disinfection
Secondary Benefits of Aquifer Storage and Recovery: Disinfection By-Product Control. —James P. McQuarrie and Kenneth Carlson; 129(5), 412-8 (2003).
Standardized Collimated Beam Testing Protocol for Water/Wastewater Ultraviolet Disinfection. —Jeff Kuo, Ching-lin Chen, and Margaret Nellor; 129(8), 774-9 (2003).
Dispersion
Dispersion Coefficient of Streams from Tracer Experiment Data. —Sushil K. Singh and M. B. Beck; 129(6), 539-46 (2003).
Dissolved organic carbon
Development of Optimal Poly-Alumino–Iron Sulphate Coagulant. —Jia-Qian Jiang and Nigel J. D. Graham; 129(8), 699-708 (2003).
Dissolved oxygen
Periodic Diffusional Mass Transfer near Sediment/Water Interface: Theory. —Makoto Higashino, Heinz G. Stefan, and Charles J. Gantzer; 129(5), 447-55 (2003).
Dissolved Oxygen-Stat Titration Respirometry: Principle of Operation and Validation. —Alberto Rozzi, Elena Ficara, and Andrea Rocco; 129(7), 602-9 (2003).
Wind and Stream Flow Induced Reaeration. —Chia R. Chu and Gerhard H. Jirka; 129(12), 1129-36 (2003).
Drag
Sphere Drag and Settling Velocity Revisited. —Phillip P. Brown and Desmond F. Lawler; 129(3), 222-31 (2003).
Dust
Stabilization of Electrical Arc Furnace Dust with Low-Grade MgO Prior to Landfill. — Ana I. Fernández, Josep M. Chimenos, Neus Raventós, Lourdes Miralles, and Ferran Espiell; 129(3), 275-9 (2003).
Dyes
Effects of Humic Materials on Photodegradation of Chlorinated Aromatic Dye in Surfactant Solution. — W. Chu and C. W. Ma; 129(6), 500-5 (2003).
Anaerobic Treatment of Synthetic Textile Wastewater Containing a Reactive Azo Dye. — S. Sen and G. N. Demirer; 129(7), 595-601 (2003).
Adsorption of Negatively Charged Azo Dyes onto Surfactant-Modified Sepiolite. — Bulent Armagan, Orhan Ozdemir, Mustafa Turan, and Mehmet S. Çelik; 129(8), 709-15 (2003).
Investigation of Fluorescent Dyes as Partitioning Tracers for Subsurface Nonaqueous Phase Liquid (NAPL) Characterization. — Ana Ghanem, Thomas S. Soerens, M. M. Adel, and G. J. Thoma; 129(8), 740-4 (2003).
Earthwork
By-Products in Earth Construction: Environmental Assessments. —Jaana Sorvari; 129(10), 899-909 (2003).
Ecosystems
Modeling Approach to Periphyton and Nutrient Interaction in a Stream. —Duong Hong Son and Takeshi Fujino; 129(9), 834-43 (2003).
Effluents
Lead Removal from Acidic Solutions by Sorption on Cocoa Shells: Effect of Some Parameters. —Nathalie Meunier, Jérôme Laroulandie, Jean-François Blais, and Rajeshwar Dayal Tyagi; 129(8), 693-8 (2003).
Production of Soluble Microbial Products (SMP) in Anaerobic Chemostats Under Nutrient Deficiency. — Sérgio F. Aquino and David C. Stuckey; 129(11), 1007-14 (2003).
Lagoon Effluent Treatment Using Grass Filtration. —F. Ibrahimi, B. J. C. Perera, P. Lechte, and A. K. Takyi; 129(11), 1022-9 (2003).
Electrokinetics
Effect of Soil Type on Electrokinetic Removal of Phenanthrene Using Surfactants and Cosolvents. — Krishna R. Reddy and Richard E. Saichek; 129(4), 336-46 (2003).
Iodide-Enhanced Electrokinetic Remediation of Mercury-Contaminated Soils. —Krishna R. Reddy, Carlos Chaparro, and Richard E. Saichek; 129(12), 1137-48 (2003).
Electronic equipment
Hydrofluoric Acid Recovery from Waste Semiconductor Acid Solution by Ion Exchange. —Sheng H. Lin and Jin M. Liu; 129(5), 472-8 (2003).
Embankments
Physical and Chemical Properties of Recycled Tire Shreds for Use in Construction. —Horace Moo-Young, Kassahun Sellasie, Daniel Zeroka, and Gajanan Sabnis; 129(10), 921-9 (2003).
Emission control
Influence of Different Cleaning Conditions on Cleaning Performance of Pilot-Scale Pulse-Jet Baghouse. — Hsin-Chung Lu and Chuen-Jinn Tsai; 129(9), 811-8 (2003).

Emissions
Probabilistic Nonroad Mobile Source Emission Factors. — H. Christopher Frey and Sachin Bammi; 129(2), 162-8 (2003).
Modeling Storm Water Mass Emissions to the Southern California Bight. — Drew Ackerman and Kenneth Schiff; 129(4), 308-17 (2003).

Entropy
Uncertainty of Weekly Nitrate-Nitrogen Forecasts Using Artificial Neural Networks. — Momcilo Markus, Christina W.-S. Tsai, and Misganaw Demissie; 129(3), 267-74 (2003).

Environmental issues
Sustainability Indices of Thermal Electrical Power Production in Greece. — Ioannis E. Tsolas and Odysseus G. Manoliadis; 129(2), 179-82 (2003).
By-Products in Earth Construction: Environmental Assessments. — Jaana Sorvari; 129(10), 899-909 (2003).

Enzymes
Retention and Distribution of 1-Naphthol and Naphthol Polymerization Products on Surface Soils. — Fangxiang Xu and Alok Bhandari; 129(11), 1041-50 (2003).

Equilibrium methods
Nonequilibrium Nonaqueous Phase Liquid Mass Transfer Model for Soil Vapor Extraction Systems. — B. M. Harper, W. H. Stiver, and R. G. Zytner; 129(8), 745-54 (2003).

Erosion
Systematic Reliability-Based Environmental Design of Erosion for Efficient Engineered Landscape Profiling. —E. K. H. Goh and B. White; 129(7), 620-8 (2003).

Estuaries
Eutrophication and Pathogen Abatement in the San Juan Bay Estuary. —Carl Cerco, Barry Bunch, Mark Dortch, Billy Johnson, and Keu Kim; 129(4), 318-27 (2003).
Wind and Stream Flow Induced Reaeration. —Chia R. Chu and Gerhard H. Jirka; 129(12), 1129-36 (2003).

Eutrophication
Eutrophication and Pathogen Abatement in the San Juan Bay Estuary. —Carl Cerco, Barry Bunch, Mark Dortch, Billy Johnson, and Keu Kim; 129(4), 318-27 (2003).

Evaporation
Measurement of Evaporation on Bare Soil and Estimating Surface Resistance. —Shriyangi Aluwihare and Kunio Watanabe; 129(12), 1157-68 (2003).

Extraction procedures
Estimation of Operation Time for Soil Vapor Extraction Systems. —David L. Barnes; 129(9), 873-8 (2003).

Ferrates
Reduction of Fulvic Acid in Drinking Water by Ferrate. — Jiu-Hui Qu, Hui-Juan Liu, Suo-Xiang Liu, and Peng Ju Lei; 129(1), 17-24 (2003).

Fiber reinforced materials
Engineering Properties of Fiber Reinforced Cold Asphalt Mixes. —Benedito de S. Bueno, Wander R. da Silva, Dario C. de Lima, and Enivaldo Minete; 129(10), 952-5 (2003).

Filters
Arsenic Removal from Groundwater by Iron Impregnated Sand. —Rakesh Chandra Vaishya and Sudhir Kumar Gupta; 129(1), 89-92 (2003).
Influence of COD:N:P Ratio on Nitrogen and Phosphorus Removal in Fixed-Bed Filter. — Joo-Hwa Tay, Peng-Cheong Chui, and Huihua Li; 129(4), 285-90 (2003).
Biotrickling Filtration for Control of Volatile Organic Compounds from Microelectronics Industry. — Walter Den, Chihpin Huang, and Chi-Han Li; 129(7), 610-9 (2003).
Field Measurements and Modeling of Two-Stage Biofilter that Treats Odorous Sulfur Air Emissions. — Hebi Li, James R. Mihelcic, John C. Crittenden, and Keith A. Anderson; 129(8), 684-92 (2003).

Filtration
Modeling Formation of Natural Organic Matter Fouling Layers on Ultrafiltration Membranes. — Yu-Jung Chang and Mark M. Benjamin; 129(1), 25-32 (2003).
Modeling Uncoupled Solute Transport in Natural Organic Matter Size Fractionation by Ultrafiltration. — Christopher J. Tadanier, Duane F. Berry, and William R. Knocke; 129(1), 33-42 (2003).
Lagoon Effluent Treatment Using Grass Filtration. —F. Ibrahimi, B. J. C. Perera, P. Lechte, and A. K. Takyi; 129(11), 1022-9 (2003).

Finland
By-Products in Earth Construction: Environmental Assessments. —Jaana Sorvari; 129(10), 899-909 (2003).

Fluid dynamics
Bed Shear Stress Boundary Condition for Storage Tank Sedimentation. —Åsa Adamsson, Virginia Stovin, and Lars Bergdahl; 129(7), 651-8 (2003).

Fluidized beds
Integrated Modeling of Anaerobic Fluidized Bed Bioreactor for Deicing Waste Treatment. I: Model Derivation. —Jonghyuk Seok and Simeon J. Komisar; 129(2), 100-9 (2003).
Integrated Modeling of Anaerobic Fluidized Bed Bioreactor for Deicing Waste Treatment. II: Simulation and Experimental Studies. —Jonghyuk Seok and Simeon J. Komisar; 129(2), 110-22 (2003).
Propylene Glycol Deicer Biodegradation Kinetics: Anaerobic Complete-Mix Stirred Tank Reactors, Filter, and Fluidized Bed. —Daniel Harris Zitomer and Gulseven Ubay Tonuk; 129(2), 123-9 (2003).

Fluorides
Numerical Simulation of Rain Scavenging on Large Release of Water-Soluble Gases. —Wei Zheng, Ronaldo Luna, and Laura J. Steinberg; 129(1), 59-67 (2003).

Fly ash
Carbonation of Municipal Solid Waste Incineration Fly Ash and the Impact on Metal Mobility. —Holger Ecke, Nourreddine Menad, and Anders Lagerkvist; 129(5), 435-40 (2003).
Use of Waste Materials for Control of Acid Mine Drainage and Subsidence. —Hema J. Siriwardane, R. S. S. Kannan, and Paul F. Ziemkiewicz; 129(10), 910-5 (2003).
Mechanical Stabilization of Cemented Soil–Fly Ash Mixtures with Recycled Plastic Strips. —Khaled Sobhan and Mehedy Mashnad; 129(10), 943-7 (2003).

Forecasting
Uncertainty of Weekly Nitrate-Nitrogen Forecasts Using Artificial Neural Networks. — Momcilo Markus, Christina W.-S. Tsai, and Misganaw Demissie; 129(3), 267-74 (2003).

Fouling
Modeling Formation of Natural Organic Matter Fouling Layers on Ultrafiltration Membranes. — Yu-Jung Chang and Mark M. Benjamin; 129(1), 25-32 (2003).
Chemical Control of Struvite Precipitation. — James D. Doyle, Kath Oldring, John Churchley, Colin Price, and Simon A. Parsons; 129(5), 419-26 (2003).

Fractals
Floc Characteristics and Removal of Turbidity and Humic Acid from High-Turbidity Storm Water. — G. Annadurai, S. S. Sung, and D. J. Lee; 129(6), 571-5 (2003).

Fuzzy sets
Hybrid Approach for Addressing Uncertainty in Risk Assessments. — Dominique Guyonnet, Bernard Bourgine, Didier Dubois, Hélène Fargier, Bernard Côme, and Jean-Paul Chilès; 129(1), 68-78 (2003).
Hybrid Fuzzy-Stochastic Modeling Approach for Assessing Environmental Risks at Contaminated Groundwater Systems. —Z. Chen, G. H. Huang, and A. Chakma; 129(1), 79-88 (2003).
Evaluation of Solid Waste Management System Using Fuzzy Composition. —Seongwon Seo, Toshiya Aramaki, Yongwoo Hwang, and Keisuke Hanaki; 129(6), 520-31 (2003).

Gasoline
Aerobic Biodegradation of Methyl Tert-Butyl Ether in Gasoline-Contaminated Aquifer Sediments. —Jeff R. Zoeckler, Mark A. Widdowson, and John T. Novak; 129(7), 642-50 (2003).

Gaussian process
Numerical Simulation of Rain Scavenging on Large Release of Water-Soluble Gases. —Wei Zheng, Ronaldo Luna, and Laura J. Steinberg; 129(1), 59-67 (2003).

Grain size
Investigation of Cadmium Desorption from Different-Sized Sediments. —Sui Liang Huang; 129(3), 241-7 (2003).

Granular materials
Granular Bed Baffled Reactor (Grabbr): Solution to a Two-Phase Anaerobic Digestion System. —M. I. Baloch and J. C. Akunna; 129(11), 1015-21 (2003).

Granular media
Arsenic Removal from Groundwater by Iron Impregnated Sand. —Rakesh Chandra Vaishya and Sudhir Kumar Gupta; 129(1), 89-92 (2003).

Grasses
Field and Laboratory Evaluation of the Impact of Tall Fescue on Polyaromatic Hydrocarbon Degradation in an Aged Creosote-Contaminated Surface Soil. —Sandra L. Robinson, John T. Novak, Mark A. Widdowson, Scott B. Crosswell, and Glendon J. Fetterolf; 129(3), 232-40 (2003).
Bacteriophages MS2 and PRD1 in Turfgrass by Subsurface Drip Irrigation. —Carlos Enriquez, Absar Alum, Elisa M. Suarez-Rey, Christopher Y. Choi, Gideon Oron, and Charles P. Gerba; 129(9), 852-7 (2003).

Greece
Sustainability Indices of Thermal Electrical Power Production in Greece. — Ioannis E. Tsolas and Odysseus G. Manoliadis; 129(2), 179-82 (2003).

Ground water
Hybrid Fuzzy-Stochastic Modeling Approach for Assessing Environmental Risks at Contaminated Groundwater Systems. — Z. Chen, G. H. Huang, and A. Chakma; 129(1), 79-88 (2003).
Arsenic Removal from Groundwater by Iron Impregnated Sand. — Rakesh Chandra Vaishya and Sudhir Kumar Gupta; 129(1), 89-92 (2003).
Effects of Stormwater Infiltration on Quality of Groundwater Beneath Retention and Detention Basins. — David Fischer, Emmanuel G. Charles, and Arthur L. Baehr; 129(5), 464-71 (2003).
Investigation of Fluorescent Dyes as Partitioning Tracers for Subsurface Nonaqueous Phase Liquid (NAPL) Characterization. — Ana Ghanem, Thomas S. Soerens, M. M. Adel, and G. J. Thoma; 129(8), 740-4 (2003).
Nonaqueous Phase Liquid Pool Dissolution as a Function of Average Pore Water Velocity. —Eric A. Seagren and Tim O. Moore, II; 129(9), 786-99 (2003).

Ground-water pollution
Modeling Pd-Catalyzed Destruction of Chlorinated Ethenes in Groundwater. —Chris M. Stoppel and Mark N. Goltz; 129(2), 147-54 (2003).
Integrated Subsurface Modeling and Risk Assessment of Petroleum-Contaminated Sites in Western Canada. —Z. Chen and G. H. Huang; 129(9), 858-72 (2003).

Gypsum
Influence of Portland Cement Type on Unconfined Compressive Strength and Linear Expansion of Cement-Stabilized Phosphogypsum. —A. B. Parreira, A. R. K. Kobayashi, and O. B. Silvestre, Jr.; 129(10), 956-60 (2003).

Hazardous waste
Solidification/Stabilization of Hazardous Wastes Containing Metals and Organic Contaminants. —Olcay Yilmaz, Kahraman Ünlü, and Erdal Cokca; 129(4), 366-76 (2003).

Heat balance
Modeling the Effect of Water Diversion on the Temperature of Mountain Streams. —Werner Meier, Cyrill Bonjour, Alfred Wüest, and Peter Reichert; 129(8), 755-64 (2003).

Heating
Thermal Behavior of Activated Carbon Cloths Heated by Joule Effect. —Albert Subrenat and Pierre Le Cloirec; 129(12), 1077-84 (2003).

Heavy metals
Preliminary Evaluation of Microbially Mediated Precipitation of Cadmium, Chromium, and Nickel by Rhizosphere Consortium. —Hong Chen and Teresa J. Cutright; 129(1), 4-9 (2003).
Investigation of Cadmium Desorption from Different-Sized Sediments. —Sui Liang Huang; 129(3), 241-7 (2003).
Thermal Treatment for Incinerator Ash: Evaporation and Leaching Rates of Metals. —Zhen-Shu Liu, Ming-Yen Wey, and Shu-Jen Lu; 129(3), 258-66 (2003).

Highways
Impact of Annual Average Daily Traffic on Highway Runoff Pollutant Concentrations. — Masoud Kayhanian, Amardeep Singh, Claus Suverkropp, and Steve Borroum; 129(11), 975-90 (2003).

History
Reconstructing Contaminant Deposition in a San Francisco Bay Marina, California. — Adam H. Love, Bradley K. Esser, and James R. Hunt; 129(7), 659-66 (2003).

Humic substances
Effects of Humic Materials on Photodegradation of Chlorinated Aromatic Dye in Surfactant Solution. — W. Chu and C. W. Ma; 129(6), 500-5 (2003).

Hybrid methods
Hybrid Approach for Addressing Uncertainty in Risk Assessments. — Dominique Guyonnet, Bernard Bourgine, Didier Dubois, Hélène Fargier, Bernard Côme, and Jean-Paul Chilès; 129(1), 68-78 (2003).
Hybrid Fuzzy-Stochastic Modeling Approach for Assessing Environmental Risks at Contaminated Groundwater Systems. — Z. Chen, G. H. Huang, and A. Chakma; 129(1), 79-88 (2003).

Hydraulic performance
Hydraulic Analysis of Orlando Easterly Wetland. —Christopher J. Martinez and William R. Wise; 129(6), 553-60 (2003).

Hydraulic transients
Parameter Estimation of the Transient Storage Model for Stream–Subsurface Exchange. —Andrea Marion, Mattia Zaramella, and Aaron I. Packman; 129(5), 456-63 (2003).

Hydrocarbons
Reconstructing Contaminant Deposition in a San Francisco Bay Marina, California. —Adam H. Love, Bradley K. Esser, and James R. Hunt; 129(7), 659-66 (2003).
Instability of Hydrocarbon Films over Mineral Surfaces: Microscale Experimental Studies. —Franco M. Francisca, Victor A. Rinaldi, and Juan C. Santamarina; 129(12), 1120-8 (2003).

Hydroelectric power
Modeling the Effect of Water Diversion on the Temperature of Mountain Streams. —Werner Meier, Cyrill Bonjour, Alfred Wüest, and Peter Reichert; 129(8), 755-64 (2003).

Hydrogen sulfide
Field Measurements and Modeling of Two-Stage Biofilter that Treats Odorous Sulfur Air Emissions. — Hebi Li, James R. Mihelcic, John C. Crittenden, and Keith A. Anderson; 129(8), 684-92 (2003).

Ice control
Propylene Glycol Deicer Biodegradation Kinetics: Anaerobic Complete-Mix Stirred Tank Reactors, Filter, and Fluidized Bed. —Daniel Harris Zitomer and Gulseven Ubay Tonuk; 129(2), 123-9 (2003).

Impoundments
Natural Stabilization of Stored Industrial Sludges. —Hazim Tugun, Raymond C. Loehr, and Xuijin Qui; 129(3), 248-57 (2003).

Industrial wastes
Natural Stabilization of Stored Industrial Sludges. —Hazim Tugun, Raymond C. Loehr, and Xuijin Qui; 129(3), 248-57 (2003).
Biotrickling Filtration for Control of Volatile Organic Compounds from Microelectronics Industry. — Walter Den, Chihpin Huang, and Chi-Han Li; 129(7), 610-9 (2003).
Combined System for Biological Removal of Nitrogen and Carbon from a Fish Cannery Wastewater. — A. Mosquera-Corral, J. L. Campos, M. Sánchez, R. Méndez, and J. M. Lema; 129(9), 826-33 (2003).
Influence of Portland Cement Type on Unconfined Compressive Strength and Linear Expansion of Cement-Stabilized Phosphogypsum. — A. B. Parreira, A. R. K. Kobayashi, and O. B. Silvestre, Jr.; 129(10), 956-60 (2003).

Industrial water
Activated Carbon Addition to an Activated Sludge Model Reactor for Color Removal from a Cotton Textile Processing Wastewater. — Aysegul Pala and Enis Tokat; 129(11), 1064-8 (2003).

Ion exchange
Hydrofluoric Acid Recovery from Waste Semiconductor Acid Solution by Ion Exchange. — Sheng H. Lin and Jin M. Liu; 129(5), 472-8 (2003).

Kinematic wave theory
Kinematic Wave Model of Urban Pavement Rainfall-Runoff Subject to Traffic Loadings. —Chad M. Cristina and John J. Sansalone; 129(7), 629-36 (2003).

Kinetics
Propylene Glycol Deicer Biodegradation Kinetics: Anaerobic Complete-Mix Stirred Tank Reactors, Filter, and Fluidized Bed. —Daniel Harris Zitomer and Gulseven Ubay Tonuk; 129(2), 123-9 (2003).
Modeling Tetrachloroethylene Decomposition in Photosonolysis Reactor. —Chikashi Sato and Steve M. Ogle; 129(2), 136-46 (2003).
Effects of Oxygen on Pyrolysis Kinetics of Tetra Pack. — Chao-Hsiung Wu, Ching-Yuan Chang, Yu-Fen Liu, and Yeou-Lih Yan; 129(4), 382-6 (2003).
Dynamic Mathematical Modeling of an Isothermal Three-Phase Reactor: Model Development and Validation. —J. Yang, D. W. Hand, J. C. Crittenden, D. R. Hokanson, E. J. Oman, and D. Audeves; 129(7), 586-94 (2003).
Biotrickling Filtration for Control of Volatile Organic Compounds from Microelectronics Industry. — Walter Den, Chihpin Huang, and Chi-Han Li; 129(7), 610-9 (2003).
Kinetic Study on Absorption of SO_2 and NO_X with Acidic $NaClO_2$ Solutions Using the Spraying Column. — T. W. Chien, H. Chu, and H. T. Hsueh; 129(11), 967-74 (2003).

Laboratory tests
Electrochemical Reduction of 2,4-Dinitrotoluene in a Continuous Flow Laboratory Scale Reactor. —Rajesh B. Doppalapudi, George A. Sorial, and Stephen W. Maloney; 129(3), 192-201 (2003).
Bed Shear Stress Boundary Condition for Storage Tank Sedimentation. —Åsa Adamsson, Virginia Stovin, and Lars Bergdahl; 129(7), 651-8 (2003).

Lagoons
Lagoon Effluent Treatment Using Grass Filtration. —F. Ibrahimi, B. J. C. Perera, P. Lechte, and A. K. Takyi; 129(11), 1022-9 (2003).

Land usage
"First Flush," Power Law and Particle Separation Diagrams for Urban Storm-Water Suspended Particulates. — Chad M. Cristina and John J. Sansalone; 129(4), 298-307 (2003).

Landfills
Biogeochemical Evaluation of Mechanisms Controlling $CaCO_{3(s)}$ Precipitation in Landfill Leachate-Collection Systems. — Bruce E. Rittmann, James E. Banaszak, Andrew Cooke, and R. Kerry Rowe; 129(8), 723-30 (2003).

Landscaping
Systematic Reliability-Based Environmental Design of Erosion for Efficient Engineered Landscape Profiling. — E. K. H. Goh and B. White; 129(7), 620-8 (2003).

Leachates
Biogeochemical Evaluation of Mechanisms Controlling $CaCO_{3(s)}$ Precipitation in Landfill Leachate-Collection Systems. — Bruce E. Rittmann, James E. Banaszak, Andrew Cooke, and R. Kerry Rowe; 129(8), 723-30 (2003).

Framework for Recycling of Wastes in Construction. — Hilary I. Inyang; 129(10), 887-98 (2003).

By-Products in Earth Construction: Environmental Assessments. —Jaana Sorvari; 129(10), 899-909 (2003).

Physical and Chemical Properties of Recycled Tire Shreds for Use in Construction. —Horace Moo-Young, Kassahun Sellasie, Daniel Zeroka, and Gajanan Sabnis; 129(10), 921-9 (2003).

Relating Batch and Column Diffusion Coefficients for Leachable Contaminants in Particulate Waste Materials. —Vincent O. Ogunro and Hilary I. Inyang; 129(10), 930-42 (2003).

Leaching
Carbonation of Municipal Solid Waste Incineration Fly Ash and the Impact on Metal Mobility. —Holger Ecke, Nourreddine Menad, and Anders Lagerkvist; 129(5), 435-40 (2003).

Bacterial Leaching of Metals from Tannery Sludge by Indigenous Sulphur-Oxidizing Bacteria—Effect of Sludge Solids Concentration. —S. B. Shen, R. D. Tyagi, J. F. Blais, and R. Y. Surampalli; 129(6), 513-9 (2003).

Leaching Behavior of Lead, Chromium (III), and Zinc in Cement/Metal Oxides Systems. —Ignacio Fernández Olmo, Emilio Chacón, and Angel Irabien; 129(6), 532-8 (2003).

Evaluation of Leaching Tests for Cement Based Immobilization of Hazardous Compounds. —M. Leist, R. J. Casey, and D. Caridi; 129(7), 637-41 (2003).

Lead
Leaching Behavior of Lead, Chromium (III), and Zinc in Cement/Metal Oxides Systems. —Ignacio Fernández Olmo, Emilio Chacón, and Angel Irabien; 129(6), 532-8 (2003).

Evaluation of Leaching Tests for Cement Based Immobilization of Hazardous Compounds. —M. Leist, R. J. Casey, and D. Caridi; 129(7), 637-41 (2003).

Lead Removal from Acidic Solutions by Sorption on Cocoa Shells: Effect of Some Parameters. —Nathalie Meunier, Jérôme Laroulandie, Jean-François Blais, and Rajeshwar Dayal Tyagi; 129(8), 693-8 (2003).

Lime
Stabilization of Electrical Arc Furnace Dust with Low-Grade MgO Prior to Landfill. — Ana I. Fernández, Josep M. Chimenos, Neus Raventós, Lourdes Miralles, and Ferran Espiell; 129(3), 275-9 (2003).

Loads
Data Requirements for Load Estimation in Well-Mixed Tidal Channels. — Allyson K. Chu and Brett F. Sanders; 129(8), 765-73 (2003).

Mass transfer
Periodic Diffusional Mass Transfer near Sediment/Water Interface: Theory. — Makoto Higashino, Heinz G. Stefan, and Charles J. Gantzer; 129(5), 447-55 (2003).

Synchrotron Radiation for Detecting Movement of a Volatile Soil Liquid. — Lyle Prunty, Joel Bell, and Mark Rivers; 129(5), 479-82 (2003).

Nonequilibrium Nonaqueous Phase Liquid Mass Transfer Model for Soil Vapor Extraction Systems. — B. M. Harper, W. H. Stiver, and R. G. Zytner; 129(8), 745-54 (2003).

Nonaqueous Phase Liquid Pool Dissolution as a Function of Average Pore Water Velocity. —Eric A. Seagren and Tim O. Moore, II; 129(9), 786-99 (2003).

Massachusetts
Incorporating Reservoir Transfer into Treatment Optimization Decisions. —Windsor Sung; 129(4), 377-81 (2003).

Mathematical models
Integrated Modeling of Anaerobic Fluidized Bed Bioreactor for Deicing Waste Treatment. I: Model Derivation. —Jonghyuk Seok and Simeon J. Komisar; 129(2), 100-9 (2003).

Integrated Modeling of Anaerobic Fluidized Bed Bioreactor for Deicing Waste Treatment. II: Simulation and Experimental Studies. —Jonghyuk Seok and Simeon J. Komisar; 129(2), 110-22 (2003).

Modeling Tetrachloroethylene Decomposition in Photosonolysis Reactor. —Chikashi Sato and Steve M. Ogle; 129(2), 136-46 (2003).

Modeling and Control of Oxygen Transfer in High Purity Oxygen Activated Sludge Process. —Chwen-Jeng Tzeng, Reza Iranpour, and Michael K. Stenstrom; 129(5), 402-11 (2003).

Fractionation and Segregation of Suspended Particles Using Acoustic and Flow Fields. —N. Aboobaker, J. N. Meegoda, and D. Blackmore; 129(5), 427-34 (2003).

Dynamic Mathematical Modeling of an Isothermal Three-Phase Reactor: Model Development and Validation. —J. Yang, D. W. Hand, J. C. Crittenden, D. R. Hokanson, E. J. Oman, and D. Audeves; 129(7), 586-94 (2003).

Modeling Nitrogen Transport in Duckweed Pond for Secondary Treatment of Swine Wastewater. —Sumate Chaiprapat, Jiayang Cheng, John J. Classen, Joel J. Ducoste, and Sarah K. Liehr; 129(8), 731-9 (2003).

Modeling Approach to Periphyton and Nutrient Interaction in a Stream. —Duong Hong Son and Takeshi Fujino; 129(9), 834-43 (2003).

Measurement
Atmospheric Oxygen Transfer During In Situ Oxygen Uptake Rate Measurements. —Manuel Quintela and Kyoung S. Ro; 129(2), 183-6 (2003).

Field Measurements and Modeling of Two-Stage Biofilter that Treats Odorous Sulfur Air Emissions. — Hebi Li, James R. Mihelcic, John C. Crittenden, and Keith A. Anderson; 129(8), 684-92 (2003).

Measurement of Evaporation on Bare Soil and Estimating Surface Resistance. — Shriyangi Aluwihare and Kunio Watanabe; 129(12), 1157-68 (2003).

Mechanical properties
Mechanical Stabilization of Cemented Soil–Fly Ash Mixtures with Recycled Plastic Strips. — Khaled Sobhan and Mehedy Mashnad; 129(10), 943-7 (2003).

Mercury
Mercury-Contaminated Soil Remediation by Iodide and Electroreclamation. — Pascal Suèr and Thomas Lifvergren; 129(5), 441-6 (2003).

Removal of Mercury from Low-Concentration Aqueous Streams Using Chemical Reduction and Air Stripping. — Brian B. Looney, Miles E. Denham, Jr., Karen M. Vangelas, and Nicolas S. Bloom; 129(9), 819-25 (2003).

Iodide-Enhanced Electrokinetic Remediation of Mercury-Contaminated Soils. —Krishna R. Reddy, Carlos Chaparro, and Richard E. Saichek; 129(12), 1137-48 (2003).

Metals
Solidification/Stabilization of Hazardous Wastes Containing Metals and Organic Contaminants. —Olcay Yilmaz, Kahraman Ünlü, and Erdal Cokca; 129(4), 366-76 (2003).

Carbonation of Municipal Solid Waste Incineration Fly Ash and the Impact on Metal Mobility. —Holger Ecke, Nourreddine Menad, and Anders Lagerkvist; 129(5), 435-40 (2003).

Removal of Metals and Radionuclides Using Apatite and Other Natural Sorbents. —Bruce M. Thomson, Christy L. Smith, Robert D. Busch, Malcolm D. Siegel, and Charles Baldwin; 129(6), 492-9 (2003).

Bacterial Leaching of Metals from Tannery Sludge by Indigenous Sulphur-Oxidizing Bacteria—Effect of Sludge Solids Concentration. —S. B. Shen, R. D. Tyagi, J. F. Blais, and R. Y. Surampalli; 129(6), 513-9 (2003).

Leaching Behavior of Lead, Chromium (III), and Zinc in Cement/Metal Oxides Systems. —Ignacio Fernández Olmo, Emilio Chacón, and Angel Irabien; 129(6), 532-8 (2003).

Reconstructing Contaminant Deposition in a San Francisco Bay Marina, California. —Adam H. Love, Bradley K. Esser, and James R. Hunt; 129(7), 659-66 (2003).

Lead Removal from Acidic Solutions by Sorption on Cocoa Shells: Effect of Some Parameters. —Nathalie Meunier, Jérôme Laroulandie, Jean-François Blais, and Rajeshwar Dayal Tyagi; 129(8), 693-8 (2003).

Iodide-Enhanced Electrokinetic Remediation of Mercury-Contaminated Soils. —Krishna R. Reddy, Carlos Chaparro, and Richard E. Saichek; 129(12), 1137-48 (2003).

Methane
Biogeochemical Evaluation of Mechanisms Controlling $CaCO_{3(s)}$ Precipitation in Landfill Leachate-Collection Systems. —Bruce E. Rittmann, James E. Banaszak, Andrew Cooke, and R. Kerry Rowe; 129(8), 723-30 (2003).

Biodegradation of Mixtures of Phenolic Compounds in an Upward-Flow Anaerobic Sludge

Blanket Reactor. — Elías Razo-Flores, Margarita Iniestra-González, Jim A. Field, Patricia Olguín-Lora, and Laura Puig-Grajales; 129(11), 999-1006 (2003).
Production of Soluble Microbial Products (SMP) in Anaerobic Chemostats Under Nutrient Deficiency. — Sérgio F. Aquino and David C. Stuckey; 129(11), 1007-14 (2003).

Microbes
Production of Soluble Microbial Products (SMP) in Anaerobic Chemostats Under Nutrient Deficiency. — Sérgio F. Aquino and David C. Stuckey; 129(11), 1007-14 (2003).

Mineral deposits
Instability of Hydrocarbon Films over Mineral Surfaces: Microscale Experimental Studies. — Franco M. Francisca, Victor A. Rinaldi, and Juan C. Santamarina; 129(12), 1120-8 (2003).

Mixtures
Complex Dielectric Permittivity of Soil–Organic Mixtures (20 MHz–1.3 GHz). — Franco M. Francisca and Víctor A. Rinaldi; 129(4), 347-57 (2003).
Mechanical Stabilization of Cemented Soil–Fly Ash Mixtures with Recycled Plastic Strips. —Khaled Sobhan and Mehedy Mashnad; 129(10), 943-7 (2003).
Engineering Properties of Fiber Reinforced Cold Asphalt Mixes. —Benedito de S. Bueno, Wander R. da Silva, Dario C. de Lima, and Enivaldo Minete; 129(10), 952-5 (2003).

Models
Modeling Pd-Catalyzed Destruction of Chlorinated Ethenes in Groundwater. —Chris M. Stoppel and Mark N. Goltz; 129(2), 147-54 (2003).
Sustainability Indices of Thermal Electrical Power Production in Greece. —Ioannis E. Tsolas and Odysseus G. Manoliadis; 129(2), 179-82 (2003).
Toxicity Estimation of Phenolic Compounds by Bioluminescent Bacterium. —S. Ren and P. D. Frymier; 129(4), 328-35 (2003).
Four-Substrate Design Model for Single Sludge Predenitrification System. —Giovanni Esposito, Massimiliano Fabbricino, and Francesco Pirozzi; 129(5), 394-401 (2003).
Parameter Estimation of the Transient Storage Model for Stream–Subsurface Exchange. —Andrea Marion, Mattia Zaramella, and Aaron I. Packman; 129(5), 456-63 (2003).
Rate Parameters for Methyl *tert*-Butyl Ether Biodegradation via a Radial Diffusion Model. —Hakan Başağaoğlu, Esther E. Chung, Deepa Gandhi, Kate M. Scow, Benjamin J. McCoy, and Timothy R. Ginn; 129(6), 565-70 (2003).
Efficacy of Biofilms under Toxic Conditions. —Shabbir H. Gheewala and Ajit P. Annachhatre; 129(6), 576-9 (2003).
Kinematic Wave Model of Urban Pavement Rainfall-Runoff Subject to Traffic Loadings. —Chad M. Cristina and John J. Sansalone; 129(7), 629-36 (2003).
Nonaqueous Phase Liquid Pool Dissolution as a Function of Average Pore Water Velocity. —Eric A. Seagren and Tim O. Moore, II; 129(9), 786-99 (2003).
Modeling and Control of Vinyl Chloride in Drinking Water Distribution Systems. —Michael Beardsley and Craig D. Adams; 129(9), 844-51 (2003).
Numerical Simulation of Bromate Formation during Ozonation of Bromide. — Kazi Z. A. Hassan, Kevin C. Bower, and Christopher M. Miller; 129(11), 991-8 (2003).

Monitoring
Comparative Study of Two Bioassays for Applications in Influent Wastewater Toxicity Monitoring. — S. Ren and P. D. Frymier; 129(3), 216-21 (2003).

Mortars
Use of Residential Construction Waste and Residues from Red Ceramic Industry in Alternative Mortars. — L. V. Amorim, H. L. Lira, and H. C. Ferreira; 129(10), 916-20 (2003).

Mountain streams
Modeling the Effect of Water Diversion on the Temperature of Mountain Streams. — Werner Meier, Cyrill Bonjour, Alfred Wüest, and Peter Reichert; 129(8), 755-64 (2003).

Municipal wastes
Excess Sludge Production in Membrane Bioreactors: A Theoretical Investigation. — Chuan-Hong Xing, Wei-Zhong Wu, Yi Qian, and Eric Tardieu; 129(4), 291-7 (2003).

Neural networks
Uncertainty of Weekly Nitrate-Nitrogen Forecasts Using Artificial Neural Networks. —Momcilo Markus, Christina W.-S. Tsai, and Misganaw Demissie; 129(3), 267-74 (2003).

Nevada
Regression Model for Daily Maximum Stream Temperature. — David W. Neumann, Balaji Rajagopalan, and Edith A. Zagona; 129(7), 667-74 (2003).

Nitrates
Reduction of Nitrate, Bromate, and Chlorate by Zero Valent Iron (Fe^0). —Paul Westerhoff; 129(1), 10-6 (2003).
Uncertainty of Weekly Nitrate-Nitrogen Forecasts Using Artificial Neural Networks. —Momcilo Markus, Christina W.-S. Tsai, and Misganaw Demissie; 129(3), 267-74 (2003).

Nitrification
Nitrogen Removal Using Combined Ultracompact Biofilm Reactor-Packed Bed System. —S. L. Ong, L. Y. Lee, J. Y. Hu, and W. J. Ng; 129(1), 43-51 (2003).
Nitrification in Pure Oxygen Activated Sludge Systems. — K. Sears, J. A. Oleszkiewicz, and P. Lagasse; 129(2), 130-5 (2003).
Influence of COD:N:P Ratio on Nitrogen and Phosphorus Removal in Fixed-Bed Filter. —Joo-Hwa Tay, Peng-Cheong Chui, and Huihua Li; 129(4), 285-90 (2003).

Nitrogen
Four-Substrate Design Model for Single Sludge Predenitrification System. —Giovanni Esposito, Massimiliano Fabbricino, and Francesco Pirozzi; 129(5), 394-401 (2003).
Combined System for Biological Removal of Nitrogen and Carbon from a Fish Cannery Wastewater. — A. Mosquera-Corral, J. L. Campos, M. Sánchez, R. Méndez, and J. M. Lema; 129(9), 826-33 (2003).

Nitrogen oxide
Probabilistic Nonroad Mobile Source Emission Factors. — H. Christopher Frey and Sachin Bammi; 129(2), 162-8 (2003).

Nonaqueous phase liquids
Nonaqueous Phase Liquid Pool Dissolution as a Function of Average Pore Water Velocity. — Eric A. Seagren and Tim O. Moore, II; 129(9), 786-99 (2003).

Nonpoint pollution
Uncertainty of Weekly Nitrate-Nitrogen Forecasts Using Artificial Neural Networks. — Momcilo Markus, Christina W.-S. Tsai, and Misganaw Demissie; 129(3), 267-74 (2003).

North Carolina
Modeling Nitrogen Transport in Duckweed Pond for Secondary Treatment of Swine Wastewater. — Sumate Chaiprapat, Jiayang Cheng, John J. Classen, Joel J. Ducoste, and Sarah K. Liehr; 129(8), 731-9 (2003).

Numerical models
Numerical Simulation of Rain Scavenging on Large Release of Water-Soluble Gases. — Wei Zheng, Ronaldo Luna, and Laura J. Steinberg; 129(1), 59-67 (2003).

Nutrients
Oxidation-Reduction Potential as a Monitoring Tool in a Low Dissolved Oxygen Wastewater Treatment Process. —J. B. Holman and D. G. Wareham; 129(1), 52-8 (2003).
Modeling Approach to Periphyton and Nutrient Interaction in a Stream. —Duong Hong Son and Takeshi Fujino; 129(9), 834-43 (2003).
Production of Soluble Microbial Products (SMP) in Anaerobic Chemostats Under Nutrient Deficiency. — Sérgio F. Aquino and David C. Stuckey; 129(11), 1007-14 (2003).

Odor control
Field Measurements and Modeling of Two-Stage Biofilter that Treats Odorous Sulfur Air Emissions. — Hebi Li, James R. Mihelcic, John C. Crittenden, and Keith A. Anderson; 129(8), 684-92 (2003).

Odors
Field Measurements and Modeling of Two-Stage Biofilter that Treats Odorous Sulfur Air Emissions. — Hebi Li, James R. Mihelcic, John C. Crittenden, and Keith A. Anderson; 129(8), 684-92 (2003).

Oil
Multivariate Study on Phenanthrene Sorption in Soils. — Cheikh Fall, Jamal Chaouki, Claude Chavarie, and Rosa Elena-Ortega; 129(11), 1030-40 (2003).

Oil recovery
Instability of Hydrocarbon Films over Mineral Surfaces: Microscale Experimental Studies. —Franco M. Francisca, Victor A. Rinaldi, and Juan C. Santamarina; 129(12), 1120-8 (2003).

Optimization
Incorporating Reservoir Transfer into Treatment Optimization Decisions. —Windsor Sung; 129(4), 377-81 (2003).
Dispersion Coefficient of Streams from Tracer Experiment Data. —Sushil K. Singh and M. B. Beck; 129(6), 539-46 (2003).

Organic compounds
Electrochemical Pretreatment of Wastewater from Color Photograph Processing Unit. —Rajesh S. Bejankiwar, K. S. Lokesh, and T. P. Halappa Gowda; 129(11), 1061-3 (2003).
Regional Analysis of Nonmethane Volatile Organic Compounds in the Lower Troposphere of the

Southeast United States. — Mita Das and Viney P. Aneja; 129(12), 1085-103 (2003).

Organic mathers

Production of Soluble Microbial Products (SMP) in Anaerobic Chemostats Under Nutrient Deficiency. — Sérgio F. Aquino and David C. Stuckey; 129(11), 1007-14 (2003).

Organic matter

Modeling Formation of Natural Organic Matter Fouling Layers on Ultrafiltration Membranes. — Yu-Jung Chang and Mark M. Benjamin; 129(1), 25-32 (2003).

Complex Dielectric Permittivity of Soil–Organic Mixtures (20 MHz–1.3 GHz). — Franco M. Francisca and Víctor A. Rinaldi; 129(4), 347-57 (2003).

Solidification/Stabilization of Hazardous Wastes Containing Metals and Organic Contaminants. — Olcay Yilmaz, Kahraman Ünlü, and Erdal Cokca; 129(4), 366-76 (2003).

Modeling Temperature Effects on Decomposition. — David M. Crohn and Cesar Valenzuela-Solano; 129(12), 1149-56 (2003).

Organic matters

Modeling Uncoupled Solute Transport in Natural Organic Matter Size Fractionation by Ultrafiltration. — Christopher J. Tadanier, Duane F. Berry, and William R. Knocke; 129(1), 33-42 (2003).

Oxidation

Reduction of Fulvic Acid in Drinking Water by Ferrate. — Jiu-Hui Qu, Hui-Juan Liu, Suo-Xiang Liu, and Peng Ju Lei; 129(1), 17-24 (2003).

One-Step Ambient Temperature Ferrite Process for Treatment of Acid Mine Drainage Waters. —Ori Lahav, Barak E. Morgan, Giovanni Hearne, and Richard E. Loewenthal; 129(2), 155-61 (2003).

Oxygen

Atmospheric Oxygen Transfer During In Situ Oxygen Uptake Rate Measurements. —Manuel Quintela and Kyoung S. Ro; 129(2), 183-6 (2003).

Effects of Oxygen on Pyrolysis Kinetics of Tetra Pack. — Chao-Hsiung Wu, Ching-Yuan Chang, Yu-Fen Liu, and Yeou-Lih Yan; 129(4), 382-6 (2003).

Modeling and Control of Oxygen Transfer in High Purity Oxygen Activated Sludge Process. —Chwen-Jeng Tzeng, Reza Iranpour, and Michael K. Stenstrom; 129(5), 402-11 (2003).

Dissolved Oxygen-Stat Titration Respirometry: Principle of Operation and Validation. —Alberto Rozzi, Elena Ficara, and Andrea Rocco; 129(7), 602-9 (2003).

Oxygen demand

Periodic Diffusional Mass Transfer near Sediment/Water Interface: Theory. —Makoto Higashino, Heinz G. Stefan, and Charles J. Gantzer; 129(5), 447-55 (2003).

Oxygen transfer

Modeling and Control of Oxygen Transfer in High Purity Oxygen Activated Sludge Process. —Chwen-Jeng Tzeng, Reza Iranpour, and Michael K. Stenstrom; 129(5), 402-11 (2003).

Oxygenation

Anaerobic Treatment of High Sulfate Wastewater with Oxygenation to Control Sulfide Toxicity. —Samir Kumar Khanal and Ju-Chang Huang; 129(12), 1104-11 (2003).

Ozonation

Secondary Benefits of Aquifer Storage and Recovery: Disinfection By-Product Control. — James P. McQuarrie and Kenneth Carlson; 129(5), 412-8 (2003).

Ozone

Regional Analysis of Nonmethane Volatile Organic Compounds in the Lower Troposphere of the Southeast United States. — Mita Das and Viney P. Aneja; 129(12), 1085-103 (2003).

Ozonization

Numerical Simulation of Bromate Formation during Ozonation of Bromide. — Kazi Z. A. Hassan, Kevin C. Bower, and Christopher M. Miller; 129(11), 991-8 (2003).

Particle motion

Sphere Drag and Settling Velocity Revisited. — Phillip P. Brown and Desmond F. Lawler; 129(3), 222-31 (2003).

Particle size distribution

Modeling Uncoupled Solute Transport in Natural Organic Matter Size Fractionation by Ultrafiltration. — Christopher J. Tadanier, Duane F. Berry, and William R. Knocke; 129(1), 33-42 (2003).

Particles

Fractionation and Segregation of Suspended Particles Using Acoustic and Flow Fields. —N. Aboobaker, J. N. Meegoda, and D. Blackmore; 129(5), 427-34 (2003).

Pathogens

Eutrophication and Pathogen Abatement in the San Juan Bay Estuary. —Carl Cerco, Barry Bunch, Mark Dortch, Billy Johnson, and Keu Kim; 129(4), 318-27 (2003).

Bacteriophages MS2 and PRD1 in Turfgrass by Subsurface Drip Irrigation. —Carlos Enriquez, Absar Alum, Elisa M. Suarez-Rey, Christopher Y. Choi, Gideon Oron, and Charles P. Gerba; 129(9), 852-7 (2003).

Pavements

Influence of Portland Cement Type on Unconfined Compressive Strength and Linear Expansion of Cement-Stabilized Phosphogypsum. —A. B. Parreira, A. R. K. Kobayashi, and O. B. Silvestre, Jr.; 129(10), 956-60 (2003).

PCB

Solidification/Stabilization of Hazardous Wastes Containing Metals and Organic Contaminants. —Olcay Yilmaz, Kahraman Ünlü, and Erdal Cokca; 129(4), 366-76 (2003).

Amphoteric Effect of Humic Acids in Surfactant-Aided Photolysis of Polychlorobiphenyls. —W. Chu and C. Y. Kwan; 129(8), 716-22 (2003).

PCE

Modeling Tetrachloroethylene Decomposition in Photosonolysis Reactor. —Chikashi Sato and Steve M. Ogle; 129(2), 136-46 (2003).

Investigation of Fluorescent Dyes as Partitioning Tracers for Subsurface Nonaqueous Phase Liquid (NAPL) Characterization. —Ana Ghanem, Thomas S. Soerens, M. M. Adel, and G. J. Thoma; 129(8), 740-4 (2003).

PCP

Use of an Anaerobic Sludge Digestion Process to Treat Pentachlorophenol-(PCP-) Contaminated Soil. — Shyi-Tien Chen and P. M. Berthouex; 129(12), 1112-9 (2003).

Petroleum

Aerobic Biodegradation of Methyl Tert-Butyl Ether in Gasoline-Contaminated Aquifer Sediments. — Jeff R. Zoeckler, Mark A. Widdowson, and John T. Novak; 129(7), 642-50 (2003).

Integrated Subsurface Modeling and Risk Assessment of Petroleum-Contaminated Sites in Western Canada. — Z. Chen and G. H. Huang; 129(9), 858-72 (2003).

Phenol

Biodegradation of Mixtures of Phenolic Compounds in an Upward-Flow Anaerobic Sludge Blanket Reactor. — Elías Razo-Flores, Margarita Iniestra-González, Jim A. Field, Patricia Olguín-Lora, and Laura Puig-Grajales; 129(11), 999-1006 (2003).

Phosphate

Removal of Metals and Radionuclides Using Apatite and Other Natural Sorbents. — Bruce M. Thomson, Christy L. Smith, Robert D. Busch, Malcolm D. Siegel, and Charles Baldwin; 129(6), 492-9 (2003).

Phosphoric acid

Determination of Optimum Ingredients for Phosphogypsum Composite Stability under Marine Conditions-Response Surface Analysis with Process Variables. —Tingzong Guo, James P. Geaghan, and Kelly A. Rusch; 129(4), 358-65 (2003).

Phosphorus

Influence of COD:N:P Ratio on Nitrogen and Phosphorus Removal in Fixed-Bed Filter. —Joo-Hwa Tay, Peng-Cheong Chui, and Huihua Li; 129(4), 285-90 (2003).

Plumes

Sensitivity Analysis and Comparative Performance of Outfalls with Single Buoyant Plumes. —Maria A. Economopoulou, Alexia A. Economopoulou, and Alexander P. Economopoulos; 129(2), 169-78 (2003).

Pollutants

Hybrid Approach for Addressing Uncertainty in Risk Assessments. —Dominique Guyonnet, Bernard Bourgine, Didier Dubois, Hélène Fargier, Bernard Côme, and Jean-Paul Chilès; 129(1), 68-78 (2003).

Impact of Annual Average Daily Traffic on Highway Runoff Pollutant Concentrations. —Masoud Kayhanian, Amardeep Singh, Claus Suverkropp, and Steve Borroum; 129(11), 975-90 (2003).

Pollution sources

Sources of Fecal Pollution in Virginia's Blackwater River. —Amy M. Booth, Charles Hagedorn, Alexandria K. Graves, Sarah C. Hagedorn, and Karen H. Mentz; 129(6), 547-52 (2003).

Polymers

Production of Soluble Microbial Products (SMP) in Anaerobic Chemostats Under Nutrient Deficiency. — Sérgio F. Aquino and David C. Stuckey; 129(11), 1007-14 (2003).

Polyvinyl chloride

Modeling and Control of Vinyl Chloride in Drinking Water Distribution Systems. —Michael Beardsley and Craig D. Adams; 129(9), 844-51 (2003).

Ponds
Modeling Nitrogen Transport in Duckweed Pond for Secondary Treatment of Swine Wastewater. — Sumate Chaiprapat, Jiayang Cheng, John J. Classen, Joel J. Ducoste, and Sarah K. Liehr; 129(8), 731-9 (2003).

Pools
Nonaqueous Phase Liquid Pool Dissolution as a Function of Average Pore Water Velocity. — Eric A. Seagren and Tim O. Moore, II; 129(9), 786-99 (2003).

Porous materials
Synchrotron Radiation for Detecting Movement of a Volatile Soil Liquid. — Lyle Prunty, Joel Bell, and Mark Rivers; 129(5), 479-82 (2003).

Porous media
Instability of Hydrocarbon Films over Mineral Surfaces: Microscale Experimental Studies. — Franco M. Francisca, Victor A. Rinaldi, and Juan C. Santamarina; 129(12), 1120-8 (2003).

Portland cements
Stabilization of Electrical Arc Furnace Dust with Low-Grade MgO Prior to Landfill. — Ana I. Fernández, Josep M. Chimenos, Neus Raventós, Lourdes Miralles, and Ferran Espiell; 129(3), 275-9 (2003).

Solidification/Stabilization of Hazardous Wastes Containing Metals and Organic Contaminants. —Olcay Yilmaz, Kahraman Ünlü, and Erdal Cokca; 129(4), 366-76 (2003).

Leaching Behavior of Lead, Chromium (III), and Zinc in Cement/Metal Oxides Systems. —Ignacio Fernández Olmo, Emilio Chacón, and Angel Irabien; 129(6), 532-8 (2003).

Influence of Portland Cement Type on Unconfined Compressive Strength and Linear Expansion of Cement-Stabilized Phosphogypsum. —A. B. Parreira, A. R. K. Kobayashi, and O. B. Silvestre, Jr.; 129(10), 956-60 (2003).

Simulation of Municipal Solid Waste Incinerator Ash/Cement Systems by Means of Factorial Experiments. — Alessandra Polettini, Raffaella Pomi, and Gemma Morelli; 129(11), 1051-60 (2003).

Potable water
Reduction of Nitrate, Bromate, and Chlorate by Zero Valent Iron (Fe^0). —Paul Westerhoff; 129(1), 10-6 (2003).

Reduction of Fulvic Acid in Drinking Water by Ferrate. — Jiu-Hui Qu, Hui-Juan Liu, Suo-Xiang Liu, and Peng Ju Lei; 129(1), 17-24 (2003).

Secondary Benefits of Aquifer Storage and Recovery: Disinfection By-Product Control. —James P. McQuarrie and Kenneth Carlson; 129(5), 412-8 (2003).

Design and Operation of Point-of-Use Treatment System for Arsenic Removal. —Bruce M. Thomson, T. Jeffrey Cotter, and Joseph D. Chwirka; 129(6), 561-4 (2003).

Development of Optimal Poly-Alumino–Iron Sulphate Coagulant. —Jia-Qian Jiang and Nigel J. D. Graham; 129(8), 699-708 (2003).

Modeling and Control of Vinyl Chloride in Drinking Water Distribution Systems. —Michael Beardsley and Craig D. Adams; 129(9), 844-51 (2003).

Pressures
Influence of Different Cleaning Conditions on Cleaning Performance of Pilot-Scale Pulse-Jet Baghouse. — Hsin-Chung Lu and Chuen-Jinn Tsai; 129(9), 811-8 (2003).

Puerto Rico
Eutrophication and Pathogen Abatement in the San Juan Bay Estuary. — Carl Cerco, Barry Bunch, Mark Dortch, Billy Johnson, and Keu Kim; 129(4), 318-27 (2003).

Pyrolysis
Effects of Oxygen on Pyrolysis Kinetics of Tetra Pack. — Chao-Hsiung Wu, Ching-Yuan Chang, Yu-Fen Liu, and Yeou-Lih Yan; 129(4), 382-6 (2003).

Radioactive materials
Removal of Metals and Radionuclides Using Apatite and Other Natural Sorbents. — Bruce M. Thomson, Christy L. Smith, Robert D. Busch, Malcolm D. Siegel, and Charles Baldwin; 129(6), 492-9 (2003).

Rainfall
Numerical Simulation of Rain Scavenging on Large Release of Water-Soluble Gases. — Wei Zheng, Ronaldo Luna, and Laura J. Steinberg; 129(1), 59-67 (2003).

Reaeration
Wind and Stream Flow Induced Reaeration. —Chia R. Chu and Gerhard H. Jirka; 129(12), 1129-36 (2003).

Recycling
Hydrofluoric Acid Recovery from Waste Semiconductor Acid Solution by Ion Exchange. —Sheng H. Lin and Jin M. Liu; 129(5), 472-8 (2003).

Leaching Behavior of Lead, Chromium (III), and Zinc in Cement/Metal Oxides Systems. —Ignacio Fernández Olmo, Emilio Chacón, and Angel Irabien; 129(6), 532-8 (2003).

Framework for Recycling of Wastes in Construction. — Hilary I. Inyang; 129(10), 887-98 (2003).

By-Products in Earth Construction: Environmental Assessments. —Jaana Sorvari; 129(10), 899-909 (2003).

Use of Waste Materials for Control of Acid Mine Drainage and Subsidence. —Hema J. Siriwardane, R. S. S. Kannan, and Paul F. Ziemkiewicz; 129(10), 910-5 (2003).

Use of Residential Construction Waste and Residues from Red Ceramic Industry in Alternative Mortars. —L. V. Amorim, H. L. Lira, and H. C. Ferreira; 129(10), 916-20 (2003).

Physical and Chemical Properties of Recycled Tire Shreds for Use in Construction. —Horace Moo-Young, Kassahun Sellasie, Daniel Zeroka, and Gajanan Sabnis; 129(10), 921-9 (2003).

Mechanical Stabilization of Cemented Soil–Fly Ash Mixtures with Recycled Plastic Strips. —Khaled Sobhan and Mehedy Mashnad; 129(10), 943-7 (2003).

Effects of Kiln Ash on the Compressibility of Residual Lateritic Soils. —T. C. de Brito Galvão, A. A. de Mendonça, and G. F. Simões; 129(10), 948-51 (2003).

Regression models
Regression Model for Daily Maximum Stream Temperature. — David W. Neumann, Balaji Rajagopalan, and Edith A. Zagona; 129(7), 667-74 (2003).

Reliability
Systematic Reliability-Based Environmental Design of Erosion for Efficient Engineered Landscape Profiling. — E. K. H. Goh and B. White; 129(7), 620-8 (2003).

Remedial action
Field and Laboratory Evaluation of the Impact of Tall Fescue on Polyaromatic Hydrocarbon Degradation in an Aged Creosote-Contaminated Surface Soil. — Sandra L. Robinson, John T. Novak, Mark A. Widdowson, Scott B. Crosswell, and Glendon J. Fetterolf; 129(3), 232-40 (2003).

Mercury-Contaminated Soil Remediation by Iodide and Electroreclamation. — Pascal Suèr and Thomas Lifvergren; 129(5), 441-6 (2003).

Use of an Anaerobic Sludge Digestion Process to Treat Pentachlorophenol-(PCP-) Contaminated Soil. — Shyi-Tien Chen and P. M. Berthouex; 129(12), 1112-9 (2003).

Iodide-Enhanced Electrokinetic Remediation of Mercury-Contaminated Soils. — Krishna R. Reddy, Carlos Chaparro, and Richard E. Saichek; 129(12), 1137-48 (2003).

Reservoirs
Incorporating Reservoir Transfer into Treatment Optimization Decisions. —Windsor Sung; 129(4), 377-81 (2003).

Residence time
Hydraulic Analysis of Orlando Easterly Wetland. —Christopher J. Martinez and William R. Wise; 129(6), 553-60 (2003).

Residential locations
Airborne Bacteria Control Under Chamber and Test-Home Conditions. —Meng-Hui Lai, Demetrios J. Moschandreas, and Krishna R. Pagilla; 129(3), 202-8 (2003).

Risk analysis
Hybrid Approach for Addressing Uncertainty in Risk Assessments. —Dominique Guyonnet, Bernard Bourgine, Didier Dubois, Hélène Fargier, Bernard Côme, and Jean-Paul Chilès; 129(1), 68-78 (2003).

Hybrid Fuzzy-Stochastic Modeling Approach for Assessing Environmental Risks at Contaminated Groundwater Systems. —Z. Chen, G. H. Huang, and A. Chakma; 129(1), 79-88 (2003).

Risk management
Integrated Subsurface Modeling and Risk Assessment of Petroleum-Contaminated Sites in Western Canada. —Z. Chen and G. H. Huang; 129(9), 858-72 (2003).

River flow
Wind and Stream Flow Induced Reaeration. —Chia R. Chu and Gerhard H. Jirka; 129(12), 1129-36 (2003).

Rivers
Sources of Fecal Pollution in Virginia's Blackwater River. —Amy M. Booth, Charles Hagedorn, Alexandria K. Graves, Sarah C. Hagedorn, and Karen H. Mentz; 129(6), 547-52 (2003).

Routing
Dispersion Coefficient of Streams from Tracer Experiment Data. —Sushil K. Singh and M. B. Beck; 129(6), 539-46 (2003).

Rubber
Physical and Chemical Properties of Recycled Tire Shreds for Use in Construction. —Horace Moo-Young, Kassahun Sellasie, Daniel Zeroka, and Gajanan Sabnis; 129(10), 921-9 (2003).

Runoff coefficient
Kinematic Wave Model of Urban Pavement Rainfall-Runoff Subject to Traffic Loadings. — Chad M. Cristina and John J. Sansalone; 129(7), 629-36 (2003).

Rural areas
Regional Analysis of Nonmethane Volatile Organic Compounds in the Lower Troposphere of the Southeast United States. — Mita Das and Viney P. Aneja; 129(12), 1085-103 (2003).

San Francisco
Reconstructing Contaminant Deposition in a San Francisco Bay Marina, California. — Adam H. Love, Bradley K. Esser, and James R. Hunt; 129(7), 659-66 (2003).

Sediment
Investigation of Cadmium Desorption from Different-Sized Sediments. — Sui Liang Huang; 129(3), 241-7 (2003).
Fractionation and Segregation of Suspended Particles Using Acoustic and Flow Fields. — N. Aboobaker, J. N. Meegoda, and D. Blackmore; 129(5), 427-34 (2003).
Periodic Diffusional Mass Transfer near Sediment/Water Interface: Theory. —Makoto Higashino, Heinz G. Stefan, and Charles J. Gantzer; 129(5), 447-55 (2003).
Reconstructing Contaminant Deposition in a San Francisco Bay Marina, California. —Adam H. Love, Bradley K. Esser, and James R. Hunt; 129(7), 659-66 (2003).

Sedimentation
Sphere Drag and Settling Velocity Revisited. —Phillip P. Brown and Desmond F. Lawler; 129(3), 222-31 (2003).
Bed Shear Stress Boundary Condition for Storage Tank Sedimentation. —Åsa Adamsson, Virginia Stovin, and Lars Bergdahl; 129(7), 651-8 (2003).

Sensitivity analysis
Sensitivity Analysis and Comparative Performance of Outfalls with Single Buoyant Plumes. —Maria A. Economopoulou, Alexia A. Economopoulou, and Alexander P. Economopoulos; 129(2), 169-78 (2003).

Sequencing batch reactor
Sodium Inhibition of Thermophilic Methanogens. —Wen-Hsing Chen, Sun-Kee Han, and Shihwu Sung; 129(6), 506-12 (2003).

Settling velocity
Sphere Drag and Settling Velocity Revisited. —Phillip P. Brown and Desmond F. Lawler; 129(3), 222-31 (2003).

Sewage treatment plants
Lagoon Effluent Treatment Using Grass Filtration. —F. Ibrahimi, B. J. C. Perera, P. Lechte, and A. K. Takyi; 129(11), 1022-9 (2003).
Electrochemical Pretreatment of Wastewater from Color Photograph Processing Unit. —Rajesh S. Bejankiwar, K. S. Lokesh, and T. P. Halappa Gowda; 129(11), 1061-3 (2003).

Shear stress
Bed Shear Stress Boundary Condition for Storage Tank Sedimentation. —Åsa Adamsson, Virginia Stovin, and Lars Bergdahl; 129(7), 651-8 (2003).

Shells
Lead Removal from Acidic Solutions by Sorption on Cocoa Shells: Effect of Some Parameters. — Nathalie Meunier, Jérôme Laroulandie, Jean-François Blais, and Rajeshwar Dayal Tyagi; 129(8), 693-8 (2003).

Simulation
Hybrid Fuzzy-Stochastic Modeling Approach for Assessing Environmental Risks at Contaminated Groundwater Systems. — Z. Chen, G. H. Huang, and A. Chakma; 129(1), 79-88 (2003).
Integrated Modeling of Anaerobic Fluidized Bed Bioreactor for Deicing Waste Treatment. II: Simulation and Experimental Studies. — Jonghyuk Seok and Simeon J. Komisar; 129(2), 110-22 (2003).
Modeling and Control of Oxygen Transfer in High Purity Oxygen Activated Sludge Process. — Chwen-Jeng Tzeng, Reza Iranpour, and Michael K. Stenstrom; 129(5), 402-11 (2003).
Integrated Subsurface Modeling and Risk Assessment of Petroleum-Contaminated Sites in Western Canada. — Z. Chen and G. H. Huang; 129(9), 858-72 (2003).

Sludge
Excess Sludge Production in Membrane Bioreactors: A Theoretical Investigation. —Chuan-Hong Xing, Wei-Zhong Wu, Yi Qian, and Eric Tardieu; 129(4), 291-7 (2003).
Biodegradation of Mixtures of Phenolic Compounds in an Upward-Flow Anaerobic Sludge Blanket Reactor. —Elías Razo-Flores, Margarita Iniestra-González, Jim A. Field, Patricia Olguín-Lora, and Laura Puig-Grajales; 129(11), 999-1006 (2003).

Sludge digestion
Use of an Anaerobic Sludge Digestion Process to Treat Pentachlorophenol-(PCP-) Contaminated Soil. — Shyi-Tien Chen and P. M. Berthouex; 129(12), 1112-9 (2003).

Sludge disposal
Natural Stabilization of Stored Industrial Sludges. —Hazim Tugun, Raymond C. Loehr, and Xuijin Qui; 129(3), 248-57 (2003).

Sludge treatment
Nitrification in Pure Oxygen Activated Sludge Systems. — K. Sears, J. A. Oleszkiewicz, and P. Lagasse; 129(2), 130-5 (2003).
Bacterial Leaching of Metals from Tannery Sludge by Indigenous Sulphur-Oxidizing Bacteria—Effect of Sludge Solids Concentration. —S. B. Shen, R. D. Tyagi, J. F. Blais, and R. Y. Surampalli; 129(6), 513-9 (2003).

Sodium
Sodium Inhibition of Thermophilic Methanogens. —Wen-Hsing Chen, Sun-Kee Han, and Shihwu Sung; 129(6), 506-12 (2003).
Simulation of Municipal Solid Waste Incinerator Ash/Cement Systems by Means of Factorial Experiments. — Alessandra Polettini, Raffaella Pomi, and Gemma Morelli; 129(11), 1051-60 (2003).

Soil compressibility
Effects of Kiln Ash on the Compressibility of Residual Lateritic Soils. —T. C. de Brito Galvão, A. A. de Mendonça, and G. F. Simões; 129(10), 948-51 (2003).

Soil gas
Nonequilibrium Nonaqueous Phase Liquid Mass Transfer Model for Soil Vapor Extraction Systems. — B. M. Harper, W. H. Stiver, and R. G. Zytner; 129(8), 745-54 (2003).
Estimation of Operation Time for Soil Vapor Extraction Systems. — David L. Barnes; 129(9), 873-8 (2003).

Soil improvement
Effects of Kiln Ash on the Compressibility of Residual Lateritic Soils. — T. C. de Brito Galvão, A. A. de Mendonça, and G. F. Simões; 129(10), 948-51 (2003).

Soil pollution
Preliminary Evaluation of Microbially Mediated Precipitation of Cadmium, Chromium, and Nickel by Rhizosphere Consortium. — Hong Chen and Teresa J. Cutright; 129(1), 4-9 (2003).
Field and Laboratory Evaluation of the Impact of Tall Fescue on Polyaromatic Hydrocarbon Degradation in an Aged Creosote-Contaminated Surface Soil. — Sandra L. Robinson, John T. Novak, Mark A. Widdowson, Scott B. Crosswell, and Glendon J. Fetterolf; 129(3), 232-40 (2003).
Complex Dielectric Permittivity of Soil–Organic Mixtures (20 MHz–1.3 GHz). —Franco M. Francisca and Víctor A. Rinaldi; 129(4), 347-57 (2003).
Mercury-Contaminated Soil Remediation by Iodide and Electroreclamation. —Pascal Suèr and Thomas Lifvergren; 129(5), 441-6 (2003).
Amphoteric Effect of Humic Acids in Surfactant-Aided Photolysis of Polychlorobiphenyls. —W. Chu and C. Y. Kwan; 129(8), 716-22 (2003).
Nonequilibrium Nonaqueous Phase Liquid Mass Transfer Model for Soil Vapor Extraction Systems. — B. M. Harper, W. H. Stiver, and R. G. Zytner; 129(8), 745-54 (2003).
Iodide-Enhanced Electrokinetic Remediation of Mercury-Contaminated Soils. —Krishna R. Reddy, Carlos Chaparro, and Richard E. Saichek; 129(12), 1137-48 (2003).

Soil resistance
Measurement of Evaporation on Bare Soil and Estimating Surface Resistance. —Shriyangi Aluwihare and Kunio Watanabe; 129(12), 1157-68 (2003).

Soil treatment
Estimation of Operation Time for Soil Vapor Extraction Systems. —David L. Barnes; 129(9), 873-8 (2003).
Retention and Distribution of 1-Naphthol and Naphthol Polymerization Products on Surface Soils. — Fangxiang Xu and Alok Bhandari; 129(11), 1041-50 (2003).
Use of an Anaerobic Sludge Digestion Process to Treat Pentachlorophenol-(PCP-) Contaminated Soil. — Shyi-Tien Chen and P. M. Berthouex; 129(12), 1112-9 (2003).
Iodide-Enhanced Electrokinetic Remediation of Mercury-Contaminated Soils. —Krishna R. Reddy, Carlos Chaparro, and Richard E. Saichek; 129(12), 1137-48 (2003).

Soil water
Synchrotron Radiation for Detecting Movement of a Volatile Soil Liquid. —Lyle Prunty, Joel Bell, and Mark Rivers; 129(5), 479-82 (2003).
Measurement of Evaporation on Bare Soil and Esti-

mating Surface Resistance. — Shriyangi Aluwihare and Kunio Watanabe; 129(12), 1157-68 (2003).

Soils

Effect of Soil Type on Electrokinetic Removal of Phenanthrene Using Surfactants and Cosolvents. — Krishna R. Reddy and Richard E. Saichek; 129(4), 336-46 (2003).

Multivariate Study on Phenanthrene Sorption in Soils. — Cheikh Fall, Jamal Chaouki, Claude Chavarie, and Rosa Elena-Ortega; 129(11), 1030-40 (2003).

Solid waste management

Evaluation of Solid Waste Management System Using Fuzzy Composition. — Seongwon Seo, Toshiya Aramaki, Yongwoo Hwang, and Keisuke Hanaki; 129(6), 520-31 (2003).

Solid wastes

Effects of Oxygen on Pyrolysis Kinetics of Tetra Pack. — Chao-Hsiung Wu, Ching-Yuan Chang, Yu-Fen Liu, and Yeou-Lih Yan; 129(4), 382-6 (2003).

Carbonation of Municipal Solid Waste Incineration Fly Ash and the Impact on Metal Mobility. —Holger Ecke, Nourreddine Menad, and Anders Lagerkvist; 129(5), 435-40 (2003).

Modeling Temperature Effects on Decomposition. —David M. Crohn and Cesar Valenzuela-Solano; 129(12), 1149-56 (2003).

Solidification

Solidification/Stabilization of Hazardous Wastes Containing Metals and Organic Contaminants. —Olcay Yilmaz, Kahraman Ünlü, and Erdal Cokca; 129(4), 366-76 (2003).

Leaching Behavior of Lead, Chromium (III), and Zinc in Cement/Metal Oxides Systems. —Ignacio Fernández Olmo, Emilio Chacón, and Angel Irabien; 129(6), 532-8 (2003).

Simulation of Municipal Solid Waste Incinerator Ash/Cement Systems by Means of Factorial Experiments. — Alessandra Polettini, Raffaella Pomi, and Gemma Morelli; 129(11), 1051-60 (2003).

Solutes

Modeling Uncoupled Solute Transport in Natural Organic Matter Size Fractionation by Ultrafiltration. — Christopher J. Tadanier, Duane F. Berry, and William R. Knocke; 129(1), 33-42 (2003).

Parameter Estimation of the Transient Storage Model for Stream–Subsurface Exchange. —Andrea Marion, Mattia Zaramella, and Aaron I. Packman; 129(5), 456-63 (2003).

Solutions

Effects of Humic Materials on Photodegradation of Chlorinated Aromatic Dye in Surfactant Solution. — W. Chu and C. W. Ma; 129(6), 500-5 (2003).

Sorption

Effect of Soil Type on Electrokinetic Removal of Phenanthrene Using Surfactants and Cosolvents. — Krishna R. Reddy and Richard E. Saichek; 129(4), 336-46 (2003).

Southeastern United States

Regional Analysis of Nonmethane Volatile Organic Compounds in the Lower Troposphere of the Southeast United States. —Mita Das and Viney P. Aneja; 129(12), 1085-103 (2003).

Spain

Stabilization of Electrical Arc Furnace Dust with Low-Grade MgO Prior to Landfill. — Ana I. Fernández, Josep M. Chimenos, Neus Raventós, Lourdes Miralles, and Ferran Espiell; 129(3), 275-9 (2003).

Spheres

Sphere Drag and Settling Velocity Revisited. — Phillip P. Brown and Desmond F. Lawler; 129(3), 222-31 (2003).

Stability

Determination of Optimum Ingredients for Phosphogypsum Composite Stability under Marine Conditions-Response Surface Analysis with Process Variables. — Tingzong Guo, James P. Geaghan, and Kelly A. Rusch; 129(4), 358-65 (2003).

Stabilization

Natural Stabilization of Stored Industrial Sludges. — Hazim Tugun, Raymond C. Loehr, and Xuijin Qui; 129(3), 248-57 (2003).

Stabilization of Electrical Arc Furnace Dust with Low-Grade MgO Prior to Landfill. — Ana I. Fernández, Josep M. Chimenos, Neus Raventós, Lourdes Miralles, and Ferran Espiell; 129(3), 275-9 (2003).

Solidification/Stabilization of Hazardous Wastes Containing Metals and Organic Contaminants. —Olcay Yilmaz, Kahraman Ünlü, and Erdal Cokca; 129(4), 366-76 (2003).

Carbonation of Municipal Solid Waste Incineration Fly Ash and the Impact on Metal Mobility. —Holger Ecke, Nourreddine Menad, and Anders Lagerkvist; 129(5), 435-40 (2003).

Leaching Behavior of Lead, Chromium (III), and Zinc in Cement/Metal Oxides Systems. —Ignacio Fernández Olmo, Emilio Chacón, and Angel Irabien; 129(6), 532-8 (2003).

Mechanical Stabilization of Cemented Soil–Fly Ash Mixtures with Recycled Plastic Strips. —Khaled Sobhan and Mehedy Mashnad; 129(10), 943-7 (2003).

Simulation of Municipal Solid Waste Incinerator Ash/Cement Systems by Means of Factorial Experiments. — Alessandra Polettini, Raffaella Pomi, and Gemma Morelli; 129(11), 1051-60 (2003).

Standardization

Standardization of Methods for Fluence (UV Dose) Determination in Bench-Scale UV Experiments. —James R. Bolton and Karl G. Linden; 129(3), 209-15 (2003).

Standing waves

Fractionation and Segregation of Suspended Particles Using Acoustic and Flow Fields. —N. Aboobaker, J. N. Meegoda, and D. Blackmore; 129(5), 427-34 (2003).

Storage tanks

Bed Shear Stress Boundary Condition for Storage Tank Sedimentation. —Åsa Adamsson, Virginia Stovin, and Lars Bergdahl; 129(7), 651-8 (2003).

Storm runoff

"First Flush," Power Law and Particle Separation Diagrams for Urban Storm-Water Suspended Particulates. — Chad M. Cristina and John J. Sansalone; 129(4), 298-307 (2003).

Modeling Storm Water Mass Emissions to the Southern California Bight. —Drew Ackerman and Kenneth Schiff; 129(4), 308-17 (2003).

Kinematic Wave Model of Urban Pavement Rainfall-Runoff Subject to Traffic Loadings. — Chad M. Cristina and John J. Sansalone; 129(7), 629-36 (2003).

Stormwater

Modeling Storm Water Mass Emissions to the Southern California Bight. — Drew Ackerman and Kenneth Schiff; 129(4), 308-17 (2003).

Kinematic Wave Model of Urban Pavement Rainfall-Runoff Subject to Traffic Loadings. — Chad M. Cristina and John J. Sansalone; 129(7), 629-36 (2003).

Stormwater management

"First Flush," Power Law and Particle Separation Diagrams for Urban Storm-Water Suspended Particulates. — Chad M. Cristina and John J. Sansalone; 129(4), 298-307 (2003).

Effects of Stormwater Infiltration on Quality of Groundwater Beneath Retention and Detention Basins. — David Fischer, Emmanuel G. Charles, and Arthur L. Baehr; 129(5), 464-71 (2003).

Stormwater treatment

Floc Characteristics and Removal of Turbidity and Humic Acid from High-Turbidity Storm Water. —G. Annadurai, S. S. Sung, and D. J. Lee; 129(6), 571-5 (2003).

Streams

Parameter Estimation of the Transient Storage Model for Stream–Subsurface Exchange. —Andrea Marion, Mattia Zaramella, and Aaron I. Packman; 129(5), 456-63 (2003).

Dispersion Coefficient of Streams from Tracer Experiment Data. —Sushil K. Singh and M. B. Beck; 129(6), 539-46 (2003).

Regression Model for Daily Maximum Stream Temperature. — David W. Neumann, Balaji Rajagopalan, and Edith A. Zagona; 129(7), 667-74 (2003).

Removal of Mercury from Low-Concentration Aqueous Streams Using Chemical Reduction and Air Stripping. —Brian B. Looney, Miles E. Denham, Jr., Karen M. Vangelas, and Nicolas S. Bloom; 129(9), 819-25 (2003).

Modeling Approach to Periphyton and Nutrient Interaction in a Stream. —Duong Hong Son and Takeshi Fujino; 129(9), 834-43 (2003).

Subsurface environment

Parameter Estimation of the Transient Storage Model for Stream–Subsurface Exchange. —Andrea Marion, Mattia Zaramella, and Aaron I. Packman; 129(5), 456-63 (2003).

Sulfates

Anaerobic Treatment of High Sulfate Wastewater with Oxygenation to Control Sulfide Toxicity. —Samir Kumar Khanal and Ju-Chang Huang; 129(12), 1104-11 (2003).

Surface runoff

Impact of Annual Average Daily Traffic on Highway Runoff Pollutant Concentrations. —Masoud Kayhanian, Amardeep Singh, Claus Suverkropp, and Steve Borroum; 129(11), 975-90 (2003).

Surface-active agents

Effect of Soil Type on Electrokinetic Removal of Phenanthrene Using Surfactants and Cosolvents. — Krishna R. Reddy and Richard E. Saichek; 129(4), 336-46 (2003).

Amphoteric Effect of Humic Acids in Surfactant-Aided Photolysis of Polychlorobiphenyls. —W. Chu and C. Y. Kwan; 129(8), 716-22 (2003).

Multivariate Study on Phenanthrene Sorption in Soils. — Cheikh Fall, Jamal Chaouki, Claude Chavarie, and Rosa Elena-Ortega; 129(11), 1030-40 (2003).

TCE

Modeling Tetrachloroethylene Decomposition in Photosonolysis Reactor. — Chikashi Sato and Steve M. Ogle; 129(2), 136-46 (2003).

Temperature

Synchrotron Radiation for Detecting Movement of a Volatile Soil Liquid. — Lyle Prunty, Joel Bell, and Mark Rivers; 129(5), 479-82 (2003).

Rate Parameters for Methyl *tert*-Butyl Ether Biodegradation via a Radial Diffusion Model. — Hakan Başağaoğlu, Esther E. Chung, Deepa Gandhi, Kate M. Scow, Benjamin J. McCoy, and Timothy R. Ginn; 129(6), 565-70 (2003).

Modeling Temperature Effects on Decomposition. — David M. Crohn and Cesar Valenzuela-Solano; 129(12), 1149-56 (2003).

Temperature distribution

Thermal Behavior of Activated Carbon Cloths Heated by Joule Effect. —Albert Subrenat and Pierre Le Cloirec; 129(12), 1077-84 (2003).

Tests

Standardized Collimated Beam Testing Protocol for Water/Wastewater Ultraviolet Disinfection. —Jeff Kuo, Ching-lin Chen, and Margaret Nellor; 129(8), 774-9 (2003).

Textiles

Anaerobic Treatment of Synthetic Textile Wastewater Containing a Reactive Azo Dye. —S. Sen and G. N. Demirer; 129(7), 595-601 (2003).

Activated Carbon Addition to an Activated Sludge Model Reactor for Color Removal from a Cotton Textile Processing Wastewater. —Aysegul Pala and Enis Tokat; 129(11), 1064-8 (2003).

Thermal analysis

Carbonation of Municipal Solid Waste Incineration Fly Ash and the Impact on Metal Mobility. —Holger Ecke, Nourreddine Menad, and Anders Lagerkvist; 129(5), 435-40 (2003).

Thermal factors

Thermal Treatment for Incinerator Ash: Evaporation and Leaching Rates of Metals. —Zhen-Shu Liu, Ming-Yen Wey, and Shu-Jen Lu; 129(3), 258-66 (2003).

Thermal gradient

Synchrotron Radiation for Detecting Movement of a Volatile Soil Liquid. —Lyle Prunty, Joel Bell, and Mark Rivers; 129(5), 479-82 (2003).

Thermal power plants

Sustainability Indices of Thermal Electrical Power Production in Greece. —Ioannis E. Tsolas and Odysseus G. Manoliadis; 129(2), 179-82 (2003).

Tidal waters

Data Requirements for Load Estimation in Well-Mixed Tidal Channels. —Allyson K. Chu and Brett F. Sanders; 129(8), 765-73 (2003).

Tides

Wind and Stream Flow Induced Reaeration. —Chia R. Chu and Gerhard H. Jirka; 129(12), 1129-36 (2003).

Toxic wastes

Retention and Distribution of 1-Naphthol and Naphthol Polymerization Products on Surface Soils. — Fangxiang Xu and Alok Bhandari; 129(11), 1041-50 (2003).

Toxicity

Comparative Study of Two Bioassays for Applications in Influent Wastewater Toxicity Monitoring. — S. Ren and P. D. Frymier; 129(3), 216-21 (2003).

Toxicity Estimation of Phenolic Compounds by Bioluminescent Bacterium. — S. Ren and P. D. Frymier; 129(4), 328-35 (2003).

Efficacy of Biofilms under Toxic Conditions. — Shabbir H. Gheewala and Ajit P. Annachhatre; 129(6), 576-9 (2003).

Evaluation of Leaching Tests for Cement Based Immobilization of Hazardous Compounds. — M. Leist, R. J. Casey, and D. Caridi; 129(7), 637-41 (2003).

Comparison of Bacterial Bioluminescence with Activated Sludge Oxygen Uptake Rates during Zinc Toxic Shock Loads in a Wastewater Treatment System. — C. A. Lajoie, S.-C. Lin, and C. J. Kelly; 129(9), 879-83 (2003).

Tracers

Dispersion Coefficient of Streams from Tracer Experiment Data. — Sushil K. Singh and M. B. Beck; 129(6), 539-46 (2003).

Hydraulic Analysis of Orlando Easterly Wetland. —Christopher J. Martinez and William R. Wise; 129(6), 553-60 (2003).

Investigation of Fluorescent Dyes as Partitioning Tracers for Subsurface Nonaqueous Phase Liquid (NAPL) Characterization. —Ana Ghanem, Thomas S. Soerens, M. M. Adel, and G. J. Thoma; 129(8), 740-4 (2003).

Traffic

Kinematic Wave Model of Urban Pavement Rainfall-Runoff Subject to Traffic Loadings. —Chad M. Cristina and John J. Sansalone; 129(7), 629-36 (2003).

Traffic generated pollution

Impact of Annual Average Daily Traffic on Highway Runoff Pollutant Concentrations. —Masoud Kayhanian, Amardeep Singh, Claus Suverkropp, and Steve Borroum; 129(11), 975-90 (2003).

Triaxial tests

Engineering Properties of Fiber Reinforced Cold Asphalt Mixes. —Benedito de S. Bueno, Wander R. da Silva, Dario C. de Lima, and Enivaldo Minete; 129(10), 952-5 (2003).

Trickle irrigation

Bacteriophages MS2 and PRD1 in Turfgrass by Subsurface Drip Irrigation. —Carlos Enriquez, Absar Alum, Elisa M. Suarez-Rey, Christopher Y. Choi, Gideon Oron, and Charles P. Gerba; 129(9), 852-7 (2003).

Turbidity

Floc Characteristics and Removal of Turbidity and Humic Acid from High-Turbidity Storm Water. —G. Annadurai, S. S. Sung, and D. J. Lee; 129(6), 571-5 (2003).

Turbulence

Periodic Diffusional Mass Transfer near Sediment/Water Interface: Theory. —Makoto Higashino, Heinz G. Stefan, and Charles J. Gantzer; 129(5), 447-55 (2003).

Ultraviolet radiation

Airborne Bacteria Control Under Chamber and Test-Home Conditions. —Meng-Hui Lai, Demetrios J. Moschandreas, and Krishna R. Pagilla; 129(3), 202-8 (2003).

Standardization of Methods for Fluence (UV Dose) Determination in Bench-Scale UV Experiments. — James R. Bolton and Karl G. Linden; 129(3), 209-15 (2003).

Standardized Collimated Beam Testing Protocol for Water/Wastewater Ultraviolet Disinfection. — Jeff Kuo, Ching-lin Chen, and Margaret Nellor; 129(8), 774-9 (2003).

Uncertainty

Probabilistic Nonroad Mobile Source Emission Factors. — H. Christopher Frey and Sachin Bammi; 129(2), 162-8 (2003).

Uncertainty of Weekly Nitrate-Nitrogen Forecasts Using Artificial Neural Networks. — Momcilo Markus, Christina W.-S. Tsai, and Misganaw Demissie; 129(3), 267-74 (2003).

Uncertainty principles

Hybrid Approach for Addressing Uncertainty in Risk Assessments. — Dominique Guyonnet, Bernard Bourgine, Didier Dubois, Hélène Fargier, Bernard Côme, and Jean-Paul Chilès; 129(1), 68-78 (2003).

Urban areas

"First Flush," Power Law and Particle Separation Diagrams for Urban Storm-Water Suspended Particulates. — Chad M. Cristina and John J. Sansalone; 129(4), 298-307 (2003).

Kinematic Wave Model of Urban Pavement Rainfall-Runoff Subject to Traffic Loadings. —Chad M. Cristina and John J. Sansalone; 129(7), 629-36 (2003).

Urban runoff

Effects of Stormwater Infiltration on Quality of Groundwater Beneath Retention and Detention Basins. —David Fischer, Emmanuel G. Charles, and Arthur L. Baehr; 129(5), 464-71 (2003).

Vapor

Plasma-Assisted Process for Removing NO/NO_x from Gas Streams with C_2H_4 as Additive. —How Ming Lee, Moo Been Chang, and Shyh Chaur Yang; 129(9), 800-10 (2003).

Variability

Probabilistic Nonroad Mobile Source Emission Factors. — H. Christopher Frey and Sachin Bammi; 129(2), 162-8 (2003).

Vegetation

Field and Laboratory Evaluation of the Impact of Tall Fescue on Polyaromatic Hydrocarbon Degradation in an Aged Creosote-Contaminated Surface Soil. —Sandra L. Robinson, John T. Novak, Mark A. Widdowson, Scott B. Crosswell, and Glendon J. Fetterolf; 129(3), 232-40 (2003).

Natural Stabilization of Stored Industrial Sludges. —Hazim Tugun, Raymond C. Loehr, and Xuijin Qui; 129(3), 248-57 (2003).

Bacteriophages MS2 and PRD1 in Turfgrass by Subsurface Drip Irrigation. —Carlos Enriquez, Absar Alum, Elisa M. Suarez-Rey, Christopher Y. Choi, Gideon Oron, and Charles P. Gerba; 129(9), 852-7 (2003).

Lagoon Effluent Treatment Using Grass Filtration. —F. Ibrahimi, B. J. C. Perera, P. Lechte, and A. K. Takyi; 129(11), 1022-9 (2003).

Velocity

Nonaqueous Phase Liquid Pool Dissolution as a Function of Average Pore Water Velocity. —Eric A. Seagren and Tim O. Moore, II; 129(9), 786-99 (2003).

Virginia
Sources of Fecal Pollution in Virginia's Blackwater River. — Amy M. Booth, Charles Hagedorn, Alexandria K. Graves, Sarah C. Hagedorn, and Karen H. Mentz; 129(6), 547-52 (2003).

Volatile organic chemicals
Biotrickling Filtration for Control of Volatile Organic Compounds from Microelectronics Industry. — Walter Den, Chihpin Huang, and Chi-Han Li; 129(7), 610-9 (2003).
Nonequilibrium Nonaqueous Phase Liquid Mass Transfer Model for Soil Vapor Extraction Systems. — B. M. Harper, W. H. Stiver, and R. G. Zytner; 129(8), 745-54 (2003).
Estimation of Operation Time for Soil Vapor Extraction Systems. — David L. Barnes; 129(9), 873-8 (2003).
Thermal Behavior of Activated Carbon Cloths Heated by Joule Effect. — Albert Subrenat and Pierre Le Cloirec; 129(12), 1077-84 (2003).

Waste management
Framework for Recycling of Wastes in Construction. — Hilary I. Inyang; 129(10), 887-98 (2003).

Waste treatment
Integrated Modeling of Anaerobic Fluidized Bed Bioreactor for Deicing Waste Treatment. I: Model Derivation. —Jonghyuk Seok and Simeon J. Komisar; 129(2), 100-9 (2003).
Integrated Modeling of Anaerobic Fluidized Bed Bioreactor for Deicing Waste Treatment. II: Simulation and Experimental Studies. —Jonghyuk Seok and Simeon J. Komisar; 129(2), 110-22 (2003).
Hydrofluoric Acid Recovery from Waste Semiconductor Acid Solution by Ion Exchange. —Sheng H. Lin and Jin M. Liu; 129(5), 472-8 (2003).

Wastewater
Comparative Study of Two Bioassays for Applications in Influent Wastewater Toxicity Monitoring. — S. Ren and P. D. Frymier; 129(3), 216-21 (2003).
Toxicity Estimation of Phenolic Compounds by Bioluminescent Bacterium. —S. Ren and P. D. Frymier; 129(4), 328-35 (2003).
Modeling and Control of Oxygen Transfer in High Purity Oxygen Activated Sludge Process. —Chwen-Jeng Tzeng, Reza Iranpour, and Michael K. Stenstrom; 129(5), 402-11 (2003).
Lagoon Effluent Treatment Using Grass Filtration. —F. Ibrahimi, B. J. C. Perera, P. Lechte, and A. K. Takyi; 129(11), 1022-9 (2003).
Activated Carbon Addition to an Activated Sludge Model Reactor for Color Removal from a Cotton Textile Processing Wastewater. —Aysegul Pala and Enis Tokat; 129(11), 1064-8 (2003).

Wastewater disposal
Sensitivity Analysis and Comparative Performance of Outfalls with Single Buoyant Plumes. —Maria A. Economopoulou, Alexia A. Economopoulou, and Alexander P. Economopoulos; 129(2), 169-78 (2003).

Wastewater treatment
Nitrogen Removal Using Combined Ultracompact Biofilm Reactor-Packed Bed System. —S. L. Ong, L. Y. Lee, J. Y. Hu, and W. J. Ng; 129(1), 43-51 (2003).
Oxidation-Reduction Potential as a Monitoring Tool in a Low Dissolved Oxygen Wastewater Treatment Process. — J. B. Holman and D. G. Wareham; 129(1), 52-8 (2003).
One-Step Ambient Temperature Ferrite Process for Treatment of Acid Mine Drainage Waters. — Ori Lahav, Barak E. Morgan, Giovanni Hearne, and Richard E. Loewenthal; 129(2), 155-61 (2003).
Electrochemical Reduction of 2,4-Dinitrotoluene in a Continuous Flow Laboratory Scale Reactor. — Rajesh B. Doppalapudi, George A. Sorial, and Stephen W. Maloney; 129(3), 192-201 (2003).
Excess Sludge Production in Membrane Bioreactors: A Theoretical Investigation. — Chuan-Hong Xing, Wei-Zhong Wu, Yi Qian, and Eric Tardieu; 129(4), 291-7 (2003).
Removal of Metals and Radionuclides Using Apatite and Other Natural Sorbents. — Bruce M. Thomson, Christy L. Smith, Robert D. Busch, Malcolm D. Siegel, and Charles Baldwin; 129(6), 492-9 (2003).
Anaerobic Treatment of Synthetic Textile Wastewater Containing a Reactive Azo Dye. — S. Sen and G. N. Demirer; 129(7), 595-601 (2003).
Adsorption of Negatively Charged Azo Dyes onto Surfactant-Modified Sepiolite. —Bulent Armagan, Orhan Ozdemir, Mustafa Turan, and Mehmet S. Çelik; 129(8), 709-15 (2003).
Modeling Nitrogen Transport in Duckweed Pond for Secondary Treatment of Swine Wastewater. —Sumate Chaiprapat, Jiayang Cheng, John J. Classen, Joel J. Ducoste, and Sarah K. Liehr; 129(8), 731-9 (2003).
Combined System for Biological Removal of Nitrogen and Carbon from a Fish Cannery Wastewater. — A. Mosquera-Corral, J. L. Campos, M. Sánchez, R. Méndez, and J. M. Lema; 129(9), 826-33 (2003).
Comparison of Bacterial Bioluminescence with Activated Sludge Oxygen Uptake Rates during Zinc Toxic Shock Loads in a Wastewater Treatment System. —C. A. Lajoie, S.-C. Lin, and C. J. Kelly; 129(9), 879-83 (2003).
Biodegradation of Mixtures of Phenolic Compounds in an Upward-Flow Anaerobic Sludge Blanket Reactor. —Elías Razo-Flores, Margarita Iniestra-González, Jim A. Field, Patricia Olguín-Lora, and Laura Puig-Grajales; 129(11), 999-1006 (2003).
Granular Bed Baffled Reactor (Grabbr): Solution to a Two-Phase Anaerobic Digestion System. —M. I. Baloch and J. C. Akunna; 129(11), 1015-21 (2003).
Electrochemical Pretreatment of Wastewater from Color Photograph Processing Unit. —Rajesh S. Bejankiwar, K. S. Lokesh, and T. P. Halappa Gowda; 129(11), 1061-3 (2003).
Anaerobic Treatment of High Sulfate Wastewater with Oxygenation to Control Sulfide Toxicity. —Samir Kumar Khanal and Ju-Chang Huang; 129(12), 1104-11 (2003).

Water distribution
Modeling and Control of Vinyl Chloride in Drinking Water Distribution Systems. —Michael Beardsley and Craig D. Adams; 129(9), 844-51 (2003).

Water infiltration
Effects of Stormwater Infiltration on Quality of Groundwater Beneath Retention and Detention Basins. — David Fischer, Emmanuel G. Charles, and Arthur L. Baehr; 129(5), 464-71 (2003).

Water pollution
Preliminary Evaluation of Microbially Mediated Precipitation of Cadmium, Chromium, and Nickel by Rhizosphere Consortium. — Hong Chen and Teresa J. Cutright; 129(1), 4-9 (2003).
Sensitivity Analysis and Comparative Performance of Outfalls with Single Buoyant Plumes. — Maria A. Economopoulou, Alexia A. Economopoulou, and Alexander P. Economopoulos; 129(2), 169-78 (2003).
Sources of Fecal Pollution in Virginia's Blackwater River. — Amy M. Booth, Charles Hagedorn, Alexandria K. Graves, Sarah C. Hagedorn, and Karen H. Mentz; 129(6), 547-52 (2003).
Aerobic Biodegradation of Methyl Tert-Butyl Ether in Gasoline-Contaminated Aquifer Sediments. — Jeff R. Zoeckler, Mark A. Widdowson, and John T. Novak; 129(7), 642-50 (2003).
Reconstructing Contaminant Deposition in a San Francisco Bay Marina, California. — Adam H. Love, Bradley K. Esser, and James R. Hunt; 129(7), 659-66 (2003).

Water quality
Effects of Stormwater Infiltration on Quality of Groundwater Beneath Retention and Detention Basins. —David Fischer, Emmanuel G. Charles, and Arthur L. Baehr; 129(5), 464-71 (2003).
Regression Model for Daily Maximum Stream Temperature. — David W. Neumann, Balaji Rajagopalan, and Edith A. Zagona; 129(7), 667-74 (2003).

Water temperature
Regression Model for Daily Maximum Stream Temperature. — David W. Neumann, Balaji Rajagopalan, and Edith A. Zagona; 129(7), 667-74 (2003).
Modeling the Effect of Water Diversion on the Temperature of Mountain Streams. —Werner Meier, Cyrill Bonjour, Alfred Wüest, and Peter Reichert; 129(8), 755-64 (2003).

Water treatment
Reduction of Nitrate, Bromate, and Chlorate by Zero Valent Iron (Fe^0). —Paul Westerhoff; 129(1), 10-6 (2003).
Reduction of Fulvic Acid in Drinking Water by Ferrate. — Jiu-Hui Qu, Hui-Juan Liu, Suo-Xiang Liu, and Peng Ju Lei; 129(1), 17-24 (2003).
Modeling Pd-Catalyzed Destruction of Chlorinated Ethenes in Groundwater. —Chris M. Stoppel and Mark N. Goltz; 129(2), 147-54 (2003).
Incorporating Reservoir Transfer into Treatment Optimization Decisions. —Windsor Sung; 129(4), 377-81 (2003).
Secondary Benefits of Aquifer Storage and Recovery: Disinfection By-Product Control. —James P. McQuarrie and Kenneth Carlson; 129(5), 412-8 (2003).
Design and Operation of Point-of-Use Treatment System for Arsenic Removal. —Bruce M. Thomson, T. Jeffrey Cotter, and Joseph D. Chwirka; 129(6), 561-4 (2003).
Dynamic Mathematical Modeling of an Isothermal Three-Phase Reactor: Model Development and

Validation. — J. Yang, D. W. Hand, J. C. Crittenden, D. R. Hokanson, E. J. Oman, and D. Audeves; 129(7), 586-94 (2003).
Development of Optimal Poly-Alumino–Iron Sulphate Coagulant. — Jia-Qian Jiang and Nigel J. D. Graham; 129(8), 699-708 (2003).
Numerical Simulation of Bromate Formation during Ozonation of Bromide. — Kazi Z. A. Hassan, Kevin C. Bower, and Christopher M. Miller; 129(11), 991-8 (2003).
Counterflow Method for Measurement of Henry's Law Constants. — Julie P. Caires, Michiya Suzuki, and Tohren C. G. Kibbey; 129(12), 1169-75 (2003).

Watershed management
Data Requirements for Load Estimation in Well-Mixed Tidal Channels. — Allyson K. Chu and Brett F. Sanders; 129(8), 765-73 (2003).

Watersheds
Uncertainty of Weekly Nitrate-Nitrogen Forecasts Using Artificial Neural Networks. — Momcilo Markus, Christina W.-S. Tsai, and Misganaw Demissie; 129(3), 267-74 (2003).
Modeling Storm Water Mass Emissions to the Southern California Bight. — Drew Ackerman and Kenneth Schiff; 129(4), 308-17 (2003).

Wetlands
Hydraulic Analysis of Orlando Easterly Wetland. — Christopher J. Martinez and William R. Wise; 129(6), 553-60 (2003).

Wind velocity
Wind and Stream Flow Induced Reaeration. — Chia R. Chu and Gerhard H. Jirka; 129(12), 1129-36 (2003).

Zinc
Simulation of Municipal Solid Waste Incinerator Ash/Cement Systems by Means of Factorial Experiments. — Alessandra Polettini, Raffaella Pomi, and Gemma Morelli; 129(11), 1051-60 (2003).

Author Index

Aboobaker, N.
Fractionation and Segregation of Suspended Particles Using Acoustic and Flow Fields. —N. Aboobaker, J. N. Meegoda, and D. Blackmore; 129(5), 427-34 (2003).

Ackerman, Drew
Modeling Storm Water Mass Emissions to the Southern California Bight. —Drew Ackerman and Kenneth Schiff; 129(4), 308-17 (2003).

Adams, Craig D.
Modeling and Control of Vinyl Chloride in Drinking Water Distribution Systems. —Michael Beardsley and Craig D. Adams; 129(9), 844-51 (2003).

Adamsson, Åsa
Bed Shear Stress Boundary Condition for Storage Tank Sedimentation. —Åsa Adamsson, Virginia Stovin, and Lars Bergdahl; 129(7), 651-8 (2003).

Adel, M. M.
Investigation of Fluorescent Dyes as Partitioning Tracers for Subsurface Nonaqueous Phase Liquid (NAPL) Characterization. —Ana Ghanem, Thomas S. Soerens, M. M. Adel, and G. J. Thoma; 129(8), 740-4 (2003).

Akunna, J. C.
Granular Bed Baffled Reactor (Grabbr): Solution to a Two-Phase Anaerobic Digestion System. —M. I. Baloch and J. C. Akunna; 129(11), 1015-21 (2003).

Alum, Absar
Bacteriophages MS2 and PRD1 in Turfgrass by Subsurface Drip Irrigation. —Carlos Enriquez, Absar Alum, Elisa M. Suarez-Rey, Christopher Y. Choi, Gideon Oron, and Charles P. Gerba; 129(9), 852-7 (2003).

Aluwihare, Shriyangi
Measurement of Evaporation on Bare Soil and Estimating Surface Resistance. —Shriyangi Aluwihare and Kunio Watanabe; 129(12), 1157-68 (2003).

Amorim, L. V.
Use of Residential Construction Waste and Residues from Red Ceramic Industry in Alternative Mortars. —L. V. Amorim, H. L. Lira, and H. C. Ferreira; 129(10), 916-20 (2003).

Anastasiou, Christos C.
Discussion of "Options for Centralized Management of Swine Waste" by Ross M. Tabachow, Chase Stock, and J. Jeffrey Peirce. —Christos C. Anastasiou; 129(4), 387-8 (2003).

Anderson, Keith A.
Field Measurements and Modeling of Two-Stage Biofilter that Treats Odorous Sulfur Air Emissions. — Hebi Li, James R. Mihelcic, John C. Crittenden, and Keith A. Anderson; 129(8), 684-92 (2003).

Aneja, Viney P.
Regional Analysis of Nonmethane Volatile Organic Compounds in the Lower Troposphere of the Southeast United States. — Mita Das and Viney P. Aneja; 129(12), 1085-103 (2003).

Annachhatre, Ajit P.
Efficacy of Biofilms under Toxic Conditions. — Shabbir H. Gheewala and Ajit P. Annachhatre; 129(6), 576-9 (2003).

Annadurai, G.
Floc Characteristics and Removal of Turbidity and Humic Acid from High-Turbidity Storm Water. — G. Annadurai, S. S. Sung, and D. J. Lee; 129(6), 571-5 (2003).

Aquino, Sérgio F.
Production of Soluble Microbial Products (SMP) in Anaerobic Chemostats Under Nutrient Deficiency. — Sérgio F. Aquino and David C. Stuckey; 129(11), 1007-14 (2003).

Aramaki, Toshiya
Evaluation of Solid Waste Management System Using Fuzzy Composition. — Seongwon Seo, Toshiya Aramaki, Yongwoo Hwang, and Keisuke Hanaki; 129(6), 520-31 (2003).

Armagan, Bulent
Adsorption of Negatively Charged Azo Dyes onto Surfactant-Modified Sepiolite. —Bulent Armagan, Orhan Ozdemir, Mustafa Turan, and Mehmet S. Çelik; 129(8), 709-15 (2003).

Audeves, D.
Dynamic Mathematical Modeling of an Isothermal Three-Phase Reactor: Model Development and Validation. —J. Yang, D. W. Hand, J. C. Crittenden, D. R. Hokanson, E. J. Oman, and D. Audeves; 129(7), 586-94 (2003).

Baehr, Arthur L.
Effects of Stormwater Infiltration on Quality of Groundwater Beneath Retention and Detention Basins. —David Fischer, Emmanuel G. Charles, and Arthur L. Baehr; 129(5), 464-71 (2003).

Baldwin, Charles
Removal of Metals and Radionuclides Using Apatite and Other Natural Sorbents. —Bruce M. Thomson, Christy L. Smith, Robert D. Busch, Malcolm D. Siegel, and Charles Baldwin; 129(6), 492-9 (2003).

Baloch, M. I.
Granular Bed Baffled Reactor (Grabbr): Solution to a Two-Phase Anaerobic Digestion System. —M. I. Baloch and J. C. Akunna; 129(11), 1015-21 (2003).

Bammi, Sachin
Probabilistic Nonroad Mobile Source Emission Factors. — H. Christopher Frey and Sachin Bammi; 129(2), 162-8 (2003).

Banaszak, James E.
Biogeochemical Evaluation of Mechanisms Controlling $CaCO_{3(s)}$ Precipitation in Landfill Leachate-Collection Systems. — Bruce E. Rittmann, James E. Banaszak, Andrew Cooke, and R. Kerry Rowe; 129(8), 723-30 (2003).

Banks, Kathy
Continuing Evolution of Environmental Engineering. — Kathy Banks; 129(2), 97-8 (2003).

Barlaz, Morton
Integrated Solid Waste Management in the United States. — Morton Barlaz, Gregory C. Cekander, and N. C. Vasuki; 129(7), 583-4 (2003).

Barnes, David L.
Estimation of Operation Time for Soil Vapor Extraction Systems. — David L. Barnes; 129(9), 873-8 (2003).

Başağaoğlu, Hakan
Rate Parameters for Methyl *tert*-Butyl Ether Biodegradation via a Radial Diffusion Model. — Hakan Başağaoğlu, Esther E. Chung, Deepa Gandhi, Kate M. Scow, Benjamin J. McCoy, and Timothy R. Ginn; 129(6), 565-70 (2003).

Beardsley, Michael
Modeling and Control of Vinyl Chloride in Drinking Water Distribution Systems. —Michael Beardsley and Craig D. Adams; 129(9), 844-51 (2003).

Beck, M. B.
Dispersion Coefficient of Streams from Tracer Experiment Data. —Sushil K. Singh and M. B. Beck; 129(6), 539-46 (2003).

Bejankiwar, Rajesh S.
Electrochemical Pretreatment of Wastewater from Color Photograph Processing Unit. —Rajesh S. Bejankiwar, K. S. Lokesh, and T. P. Halappa Gowda; 129(11), 1061-3 (2003).

Bell, Joel
Synchrotron Radiation for Detecting Movement of a Volatile Soil Liquid. —Lyle Prunty, Joel Bell, and Mark Rivers; 129(5), 479-82 (2003).

Benjamin, Mark M.
Modeling Formation of Natural Organic Matter Fouling Layers on Ultrafiltration Membranes. —Yu-Jung Chang and Mark M. Benjamin; 129(1), 25-32 (2003).

Bergdahl, Lars
Bed Shear Stress Boundary Condition for Storage Tank Sedimentation. —Åsa Adamsson, Virginia Stovin, and Lars Bergdahl; 129(7), 651-8 (2003).

Berry, Duane F.
Modeling Uncoupled Solute Transport in Natural Organic Matter Size Fractionation by Ultrafiltration. — Christopher J. Tadanier, Duane F. Berry, and William R. Knocke; 129(1), 33-42 (2003).

Berthouex, P. M.
Use of an Anaerobic Sludge Digestion Process to Treat Pentachlorophenol-(PCP-) Contaminated Soil. — Shyi-Tien Chen and P. M. Berthouex; 129(12), 1112-9 (2003).

Bhandari, Alok
Retention and Distribution of 1-Naphthol and Naphthol Polymerization Products on Surface Soils. — Fangxiang Xu and Alok Bhandari; 129(11), 1041-50 (2003).

Blackmore, D.
Fractionation and Segregation of Suspended Particles Using Acoustic and Flow Fields. — N. Aboobaker, J. N. Meegoda, and D. Blackmore; 129(5), 427-34 (2003).

Blais, J. F.
Bacterial Leaching of Metals from Tannery Sludge by Indigenous Sulphur-Oxidizing Bacteria—Effect of Sludge Solids Concentration. — S. B. Shen, R. D. Tyagi, J. F. Blais, and R. Y. Surampalli; 129(6), 513-9 (2003).

Blais, Jean-François
Lead Removal from Acidic Solutions by Sorption on Cocoa Shells: Effect of Some Parameters. —Nathalie Meunier, Jérôme Laroulandie, Jean-François Blais, and Rajeshwar Dayal Tyagi; 129(8), 693-8 (2003).

Bloom, Nicolas S.
Removal of Mercury from Low-Concentration Aqueous Streams Using Chemical Reduction and Air Stripping. —Brian B. Looney, Miles E. Denham, Jr., Karen M. Vangelas, and Nicolas S. Bloom; 129(9), 819-25 (2003).

Bolton, James R.
Standardization of Methods for Fluence (UV Dose) Determination in Bench-Scale UV Experiments. —James R. Bolton and Karl G. Linden; 129(3), 209-15 (2003).

Bonjour, Cyrill
Modeling the Effect of Water Diversion on the Temperature of Mountain Streams. —Werner Meier, Cyrill Bonjour, Alfred Wüest, and Peter Reichert; 129(8), 755-64 (2003).

Booth, Amy M.
Sources of Fecal Pollution in Virginia's Blackwater River. —Amy M. Booth, Charles Hagedorn, Alexandria K. Graves, Sarah C. Hagedorn, and Karen H. Mentz; 129(6), 547-52 (2003).

Borroum, Steve
Impact of Annual Average Daily Traffic on Highway Runoff Pollutant Concentrations. —Masoud Kayhanian, Amardeep Singh, Claus Suverkropp, and Steve Borroum; 129(11), 975-90 (2003).

Bourgine, Bernard
Hybrid Approach for Addressing Uncertainty in Risk Assessments. —Dominique Guyonnet, Bernard Bourgine, Didier Dubois, Hélène Fargier, Bernard Côme, and Jean-Paul Chilès; 129(1), 68-78 (2003).

Bower, Kevin C.
Numerical Simulation of Bromate Formation during Ozonation of Bromide. —Kazi Z. A. Hassan, Kevin C. Bower, and Christopher M. Miller; 129(11), 991-8 (2003).

Brakewood, Liv H.
Why is Environmental Engineering an Important Aspect of Environmental Education? — Liv H. Brakewood, Adrienne T. Cooper, and Joseph R. V. Flora; 129(4), 281-2 (2003).

Brown, Phillip P.
Sphere Drag and Settling Velocity Revisited. — Phillip P. Brown and Desmond F. Lawler; 129(3), 222-31 (2003).

Bunch, Barry
Eutrophication and Pathogen Abatement in the San Juan Bay Estuary. — Carl Cerco, Barry Bunch, Mark Dortch, Billy Johnson, and Keu Kim; 129(4), 318-27 (2003).

Busch, Robert D.
Removal of Metals and Radionuclides Using Apatite and Other Natural Sorbents. — Bruce M. Thomson, Christy L. Smith, Robert D. Busch, Malcolm D. Siegel, and Charles Baldwin; 129(6), 492-9 (2003).

Caires, Julie P.
Counterflow Method for Measurement of Henry's Law Constants. — Julie P. Caires, Michiya Suzuki, and Tohren C. G. Kibbey; 129(12), 1169-75 (2003).

Campos, J. L.
Combined System for Biological Removal of Nitrogen and Carbon from a Fish Cannery Wastewater. — A. Mosquera-Corral, J. L. Campos, M. Sánchez, R. Méndez, and J. M. Lema; 129(9), 826-33 (2003).

Caridi, D.
Evaluation of Leaching Tests for Cement Based Immobilization of Hazardous Compounds. —M. Leist, R. J. Casey, and D. Caridi; 129(7), 637-41 (2003).

Carlson, Kenneth
Secondary Benefits of Aquifer Storage and Recovery: Disinfection By-Product Control. —James P. McQuarrie and Kenneth Carlson; 129(5), 412-8 (2003).

Casey, R. J.
Evaluation of Leaching Tests for Cement Based Immobilization of Hazardous Compounds. —M. Leist, R. J. Casey, and D. Caridi; 129(7), 637-41 (2003).

Cekander, Gregory C.
Integrated Solid Waste Management in the United States. —Morton Barlaz, Gregory C. Cekander, and N. C. Vasuki; 129(7), 583-4 (2003).

Çelik, Mehmet S.
Adsorption of Negatively Charged Azo Dyes onto Surfactant-Modified Sepiolite. —Bulent Armagan, Orhan Ozdemir, Mustafa Turan, and Mehmet S. Çelik; 129(8), 709-15 (2003).

Cerco, Carl
Eutrophication and Pathogen Abatement in the San Juan Bay Estuary. —Carl Cerco, Barry Bunch, Mark Dortch, Billy Johnson, and Keu Kim; 129(4), 318-27 (2003).

Cerco, Carl F.
Scientific versus Engineering Modeling. —Carl F. Cerco; 129(8), 681-2 (2003).

Chacón, Emilio
Leaching Behavior of Lead, Chromium (III), and Zinc in Cement/Metal Oxides Systems. —Ignacio Fernández Olmo, Emilio Chacón, and Angel Irabien; 129(6), 532-8 (2003).

Chaiprapat, Sumate
Modeling Nitrogen Transport in Duckweed Pond for Secondary Treatment of Swine Wastewater. — Sumate Chaiprapat, Jiayang Cheng, John J. Classen, Joel J. Ducoste, and Sarah K. Liehr; 129(8), 731-9 (2003).

Chakma, A.
Hybrid Fuzzy-Stochastic Modeling Approach for Assessing Environmental Risks at Contaminated Groundwater Systems. — Z. Chen, G. H. Huang, and A. Chakma; 129(1), 79-88 (2003).

Chang, Ching-Yuan
Effects of Oxygen on Pyrolysis Kinetics of Tetra Pack. — Chao-Hsiung Wu, Ching-Yuan Chang, Yu-Fen Liu, and Yeou-Lih Yan; 129(4), 382-6 (2003).

Chang, Moo Been
Plasma-Assisted Process for Removing NO/NO_x from Gas Streams with C_2H_4 as Additive. — How Ming Lee, Moo Been Chang, and Shyh Chaur Yang; 129(9), 800-10 (2003).

Chang, Yu-Jung
Modeling Formation of Natural Organic Matter Fouling Layers on Ultrafiltration Membranes. —Yu-Jung Chang and Mark M. Benjamin; 129(1), 25-32 (2003).

Chaouki, Jamal
Multivariate Study on Phenanthrene Sorption in Soils. — Cheikh Fall, Jamal Chaouki, Claude Chavarie, and Rosa Elena-Ortega; 129(11), 1030-40 (2003).

Chaparro, Carlos
Iodide-Enhanced Electrokinetic Remediation of Mercury-Contaminated Soils. —Krishna R. Reddy, Carlos Chaparro, and Richard E. Saichek; 129(12), 1137-48 (2003).

Charles, Emmanuel G.
Effects of Stormwater Infiltration on Quality of Groundwater Beneath Retention and Detention Basins. —David Fischer, Emmanuel G. Charles, and Arthur L. Baehr; 129(5), 464-71 (2003).

Chavarie, Claude
Multivariate Study on Phenanthrene Sorption in Soils. — Cheikh Fall, Jamal Chaouki, Claude Chavarie, and Rosa Elena-Ortega; 129(11), 1030-40 (2003).

Chen, Ching-lin
Standardized Collimated Beam Testing Protocol for Water/Wastewater Ultraviolet Disinfection. —Jeff Kuo, Ching-lin Chen, and Margaret Nellor; 129(8), 774-9 (2003).

Chen, Hong
Preliminary Evaluation of Microbially Mediated Precipitation of Cadmium, Chromium, and Nickel by Rhizosphere Consortium. —Hong Chen and Teresa J. Cutright; 129(1), 4-9 (2003).

Chen, Shyi-Tien
Use of an Anaerobic Sludge Digestion Process to Treat Pentachlorophenol-(PCP-) Contaminated Soil. — Shyi-Tien Chen and P. M. Berthouex; 129(12), 1112-9 (2003).

Chen, Wen-Hsing
Sodium Inhibition of Thermophilic Methanogens. —Wen-Hsing Chen, Sun-Kee Han, and Shihwu Sung; 129(6), 506-12 (2003).

Chen, Z.
Hybrid Fuzzy-Stochastic Modeling Approach for Assessing Environmental Risks at Contaminated Groundwater Systems. — Z. Chen, G. H. Huang, and A. Chakma; 129(1), 79-88 (2003).
Integrated Subsurface Modeling and Risk Assessment of Petroleum-Contaminated Sites in Western Canada. — Z. Chen and G. H. Huang; 129(9), 858-72 (2003).

Cheng, Jiayang
Challenges of CAFO Waste Management. — Jiayang Cheng; 129(5), 391-2 (2003).
Modeling Nitrogen Transport in Duckweed Pond for Secondary Treatment of Swine Wastewater. — Sumate Chaiprapat, Jiayang Cheng, John J. Classen, Joel J. Ducoste, and Sarah K. Liehr; 129(8), 731-9 (2003).

Chien, T. W.
Kinetic Study on Absorption of SO_2 and NO_X with Acidic $NaClO_2$ Solutions Using the Spraying Column. — T. W. Chien, H. Chu, and H. T. Hsueh; 129(11), 967-74 (2003).

Chilès, Jean-Paul
Hybrid Approach for Addressing Uncertainty in Risk Assessments. —Dominique Guyonnet, Bernard Bourgine, Didier Dubois, Hélène Fargier, Bernard Côme, and Jean-Paul Chilès; 129(1), 68-78 (2003).

Chimenos, Josep M.
Stabilization of Electrical Arc Furnace Dust with Low-Grade MgO Prior to Landfill. —Ana I. Fernández, Josep M. Chimenos, Neus Raventós, Lourdes Miralles, and Ferran Espiell; 129(3), 275-9 (2003).

Choi, Christopher Y.
Bacteriophages MS2 and PRD1 in Turfgrass by Subsurface Drip Irrigation. —Carlos Enriquez, Absar Alum, Elisa M. Suarez-Rey, Christopher Y. Choi, Gideon Oron, and Charles P. Gerba; 129(9), 852-7 (2003).

Chu, Allyson K.
Data Requirements for Load Estimation in Well-Mixed Tidal Channels. —Allyson K. Chu and Brett F. Sanders; 129(8), 765-73 (2003).

Chu, Chia R.
Wind and Stream Flow Induced Reaeration. —Chia R. Chu and Gerhard H. Jirka; 129(12), 1129-36 (2003).

Chu, H.
Kinetic Study on Absorption of SO_2 and NO_X with Acidic $NaClO_2$ Solutions Using the Spraying Column. — T. W. Chien, H. Chu, and H. T. Hsueh; 129(11), 967-74 (2003).

Chu, W.
Effects of Humic Materials on Photodegradation of Chlorinated Aromatic Dye in Surfactant Solution. — W. Chu and C. W. Ma; 129(6), 500-5 (2003).
Amphoteric Effect of Humic Acids in Surfactant-Aided Photolysis of Polychlorobiphenyls. —W. Chu and C. Y. Kwan; 129(8), 716-22 (2003).

Chui, Peng-Cheong
Influence of COD:N:P Ratio on Nitrogen and Phosphorus Removal in Fixed-Bed Filter. —Joo-Hwa Tay, Peng-Cheong Chui, and Huihua Li; 129(4), 285-90 (2003).

Chung, Esther E.
Rate Parameters for Methyl *tert*-Butyl Ether Biodegradation via a Radial Diffusion Model. — Hakan Başağaoğlu, Esther E. Chung, Deepa Gandhi, Kate M. Scow, Benjamin J. McCoy, and Timothy R. Ginn; 129(6), 565-70 (2003).

Churchley, John
Chemical Control of Struvite Precipitation. — James D. Doyle, Kath Oldring, John Churchley, Colin Price, and Simon A. Parsons; 129(5), 419-26 (2003).

Chwirka, Joseph D.
Design and Operation of Point-of-Use Treatment System for Arsenic Removal. — Bruce M. Thomson, T. Jeffrey Cotter, and Joseph D. Chwirka; 129(6), 561-4 (2003).

Classen, John J.
Modeling Nitrogen Transport in Duckweed Pond for Secondary Treatment of Swine Wastewater. — Sumate Chaiprapat, Jiayang Cheng, John J. Classen, Joel J. Ducoste, and Sarah K. Liehr; 129(8), 731-9 (2003).

Cokca, Erdal
Solidification/Stabilization of Hazardous Wastes Containing Metals and Organic Contaminants. —Olcay Yilmaz, Kahraman Ünlü, and Erdal Cokca; 129(4), 366-76 (2003).

Côme, Bernard
Hybrid Approach for Addressing Uncertainty in Risk Assessments. —Dominique Guyonnet, Bernard Bourgine, Didier Dubois, Hélène Fargier, Bernard Côme, and Jean-Paul Chilès; 129(1), 68-78 (2003).

Conrads, Paul
Discussion of "Using Complex Permittivity and Artificial Neural Networks for Contaminant Prediction" by John B. Lindsay, Julie Q. Shang, and R. Kerry Rowe. —Ed Roehl, Paul Conrads, and John B. Cook; 129(11), 1069-71 (2003).

Cook, John B.
Discussion of "Using Complex Permittivity and Artificial Neural Networks for Contaminant Prediction" by John B. Lindsay, Julie Q. Shang, and R. Kerry Rowe. —Ed Roehl, Paul Conrads, and John B. Cook; 129(11), 1069-71 (2003).

Cooke, Andrew
Biogeochemical Evaluation of Mechanisms Controlling $CaCO_{3(s)}$ Precipitation in Landfill Leachate-Collection Systems. —Bruce E. Rittmann, James E. Banaszak, Andrew Cooke, and R. Kerry Rowe; 129(8), 723-30 (2003).

Cooper, Adrienne T.
Why is Environmental Engineering an Important Aspect of Environmental Education? —Liv H. Brakewood, Adrienne T. Cooper, and Joseph R. V. Flora; 129(4), 281-2 (2003).

Cotter, T. Jeffrey
Design and Operation of Point-of-Use Treatment System for Arsenic Removal. —Bruce M. Thomson, T. Jeffrey Cotter, and Joseph D. Chwirka; 129(6), 561-4 (2003).

Cristina, Chad M.
"First Flush," Power Law and Particle Separation Diagrams for Urban Storm-Water Suspended Particulates. — Chad M. Cristina and John J. Sansalone; 129(4), 298-307 (2003).
Kinematic Wave Model of Urban Pavement Rainfall-Runoff Subject to Traffic Loadings. — Chad M. Cristina and John J. Sansalone; 129(7), 629-36 (2003).

Crittenden, J. C.
Dynamic Mathematical Modeling of an Isothermal Three-Phase Reactor: Model Development and Validation. — J. Yang, D. W. Hand, J. C. Crittenden, D. R. Hokanson, E. J. Oman, and D. Audeves; 129(7), 586-94 (2003).

Crittenden, John C.
Field Measurements and Modeling of Two-Stage Biofilter that Treats Odorous Sulfur Air Emissions. — Hebi Li, James R. Mihelcic, John C. Crittenden, and Keith A. Anderson; 129(8), 684-92 (2003).

Crohn, David M.
Modeling Temperature Effects on Decomposition. — David M. Crohn and Cesar Valenzuela-Solano; 129(12), 1149-56 (2003).

Crosswell, Scott B.
Field and Laboratory Evaluation of the Impact of Tall Fescue on Polyaromatic Hydrocarbon Degradation in an Aged Creosote-Contaminated Surface Soil. —Sandra L. Robinson, John T. Novak, Mark A. Widdowson, Scott B. Crosswell, and Glendon J. Fetterolf; 129(3), 232-40 (2003).

Culver, Teresa B.
Clash of Engineering Scientists and Environmental Engineers. —Teresa B. Culver; 129(3), 189-90 (2003).

Cutright, Teresa J.
Preliminary Evaluation of Microbially Mediated Precipitation of Cadmium, Chromium, and Nickel by Rhizosphere Consortium. —Hong Chen and Teresa J. Cutright; 129(1), 4-9 (2003).

Das, Mita
Regional Analysis of Nonmethane Volatile Organic Compounds in the Lower Troposphere of the Southeast United States. —Mita Das and Viney P. Aneja; 129(12), 1085-103 (2003).

da Silva, Wander R.
Engineering Properties of Fiber Reinforced Cold Asphalt Mixes. —Benedito de S. Bueno, Wander R. da Silva, Dario C. de Lima, and Enivaldo Minete; 129(10), 952-5 (2003).

de Brito Galvão, T. C.
Effects of Kiln Ash on the Compressibility of Residual Lateritic Soils. —T. C. de Brito Galvão, A. A. de Mendonça, and G. F. Simões; 129(10), 948-51 (2003).

de Brito Galvão, Terezinha Cássia
Persistent Research Issues in Risk Assessment of Wastes in Full-Scale Systems. —Hilary I. Inyang and Terezinha Cássia de Brito Galvão; 129(10), 885 (2003).

de Lima, Dario C.
Engineering Properties of Fiber Reinforced Cold Asphalt Mixes. —Benedito de S. Bueno, Wander R. da Silva, Dario C. de Lima, and Enivaldo Minete; 129(10), 952-5 (2003).

de Mendonça, A. A.
Effects of Kiln Ash on the Compressibility of Residual Lateritic Soils. — T. C. de Brito Galvão, A. A. de Mendonça, and G. F. Simões; 129(10), 948-51 (2003).

Demirer, G. N.
Anaerobic Treatment of Synthetic Textile Wastewater Containing a Reactive Azo Dye. — S. Sen and G. N. Demirer; 129(7), 595-601 (2003).

Demissie, Misganaw
Uncertainty of Weekly Nitrate-Nitrogen Forecasts Using Artificial Neural Networks. — Momcilo Markus, Christina W.-S. Tsai, and Misganaw Demissie; 129(3), 267-74 (2003).

Den, Walter
Biotrickling Filtration for Control of Volatile Organic Compounds from Microelectronics Industry. — Walter Den, Chihpin Huang, and Chi-Han Li; 129(7), 610-9 (2003).

Denham, Miles E., Jr.
Removal of Mercury from Low-Concentration Aqueous Streams Using Chemical Reduction and Air Stripping. —Brian B. Looney, Miles E. Denham, Jr., Karen M. Vangelas, and Nicolas S. Bloom; 129(9), 819-25 (2003).

de S. Bueno, Benedito
Engineering Properties of Fiber Reinforced Cold Asphalt Mixes. —Benedito de S. Bueno, Wander R. da Silva, Dario C. de Lima, and Enivaldo Minete; 129(10), 952-5 (2003).

Dick, Richard I.
Discussion of "Effects of Solid Levels and Chemical Additives on Removal of Solids and Phosphorus in Swine Manure" by Pius M. Ndegwa, Jun Zhu, and Ancheng Luo. —Richard I. Dick; 129(5), 485-7 (2003).

Djebbar, Y.
Closure to "Neural Network Prediction of Air Stripping K_La" by Y. Djebbar and R. M. Narbaitz. — Y. Djebbar and R. M. Narbaitz; 129(8), 781 (2003).

Doppalapudi, Rajesh B.
Electrochemical Reduction of 2,4-Dinitrotoluene in a Continuous Flow Laboratory Scale Reactor. —Rajesh B. Doppalapudi, George A. Sorial, and Stephen W. Maloney; 129(3), 192-201 (2003).

Doria, Guelfo Pulci
Discussion of "Modeling Volatilization of MTBE from Standing Surface Waters" by Andrew J. Stocking and Michael C. Kavanaugh. —Carlo Gualtieri, Paola Gualtieri, and Guelfo Pulci Doria; 129(5), 483-4 (2003).
Closure to "Dimensional Analysis of Reaeration Rate in Streams" by Carlo Gualtieri, Paola Gualtieri, and Guelfo Pulci Doria. —Carlo Gualtieri, Paola Gualtieri, and Guelfo Pulci Doria; 129(7), 677-9 (2003).

Dortch, Mark
Eutrophication and Pathogen Abatement in the San Juan Bay Estuary. —Carl Cerco, Barry Bunch, Mark Dortch, Billy Johnson, and Keu Kim; 129(4), 318-27 (2003).

Doyle, James D.
Chemical Control of Struvite Precipitation. —James D. Doyle, Kath Oldring, John Churchley, Colin Price, and Simon A. Parsons; 129(5), 419-26 (2003).

Dubois, Didier
Hybrid Approach for Addressing Uncertainty in Risk Assessments. — Dominique Guyonnet, Bernard Bourgine, Didier Dubois, Hélène Fargier, Bernard Côme, and Jean-Paul Chilès; 129(1), 68-78 (2003).

Ducoste, Joel J.
Modeling Nitrogen Transport in Duckweed Pond for Secondary Treatment of Swine Wastewater. — Sumate Chaiprapat, Jiayang Cheng, John J. Classen, Joel J. Ducoste, and Sarah K. Liehr; 129(8), 731-9 (2003).

Ecke, Holger
Carbonation of Municipal Solid Waste Incineration Fly Ash and the Impact on Metal Mobility. — Holger Ecke, Nourreddine Menad, and Anders Lagerkvist; 129(5), 435-40 (2003).

Economopoulos, Alexander P.
Sensitivity Analysis and Comparative Performance of Outfalls with Single Buoyant Plumes. — Maria A. Economopoulou, Alexia A. Economopoulou, and Alexander P. Economopoulos; 129(2), 169-78 (2003).

Economopoulou, Alexia A.
Sensitivity Analysis and Comparative Performance of Outfalls with Single Buoyant Plumes. —Maria A. Economopoulou, Alexia A. Economopoulou, and Alexander P. Economopoulos; 129(2), 169-78 (2003).

Economopoulou, Maria A.
Sensitivity Analysis and Comparative Performance of Outfalls with Single Buoyant Plumes. —Maria A. Economopoulou, Alexia A. Economopoulou, and Alexander P. Economopoulos; 129(2), 169-78 (2003).

Edwards, Marc
Closure to "Prediction and Measurement of Bubble Formation in Water Treatment" by Paolo Scardina and Marc Edwards. —Paolo Scardina and Marc Edwards; 129(6), 581 (2003).

Ela, Wendell P.
Arsenic: The Catalyst. —Wendell P. Ela; 129(9), 783-4 (2003).

Elena-Ortega, Rosa
Multivariate Study on Phenanthrene Sorption in Soils. — Cheikh Fall, Jamal Chaouki, Claude Chavarie, and Rosa Elena-Ortega; 129(11), 1030-40 (2003).

Enriquez, Carlos
Bacteriophages MS2 and PRD1 in Turfgrass by Subsurface Drip Irrigation. —Carlos Enriquez, Absar Alum, Elisa M. Suarez-Rey, Christopher Y. Choi, Gideon Oron, and Charles P. Gerba; 129(9), 852-7 (2003).

Espiell, Ferran
Stabilization of Electrical Arc Furnace Dust with Low-Grade MgO Prior to Landfill. —Ana I. Fernández, Josep M. Chimenos, Neus Raventós, Lourdes Miralles, and Ferran Espiell; 129(3), 275-9 (2003).

Esposito, Giovanni
Four-Substrate Design Model for Single Sludge Predenitrification System. —Giovanni Esposito, Massimiliano Fabbricino, and Francesco Pirozzi; 129(5), 394-401 (2003).

Esser, Bradley K.
Reconstructing Contaminant Deposition in a San Francisco Bay Marina, California. — Adam H. Love, Bradley K. Esser, and James R. Hunt; 129(7), 659-66 (2003).

Fabbricino, Massimiliano
Four-Substrate Design Model for Single Sludge Predenitrification System. — Giovanni Esposito, Massimiliano Fabbricino, and Francesco Pirozzi; 129(5), 394-401 (2003).

Fall, Cheikh
Multivariate Study on Phenanthrene Sorption in Soils. — Cheikh Fall, Jamal Chaouki, Claude Chavarie, and Rosa Elena-Ortega; 129(11), 1030-40 (2003).

Fargier, Hélène
Hybrid Approach for Addressing Uncertainty in Risk Assessments. — Dominique Guyonnet, Bernard Bourgine, Didier Dubois, Hélène Fargier, Bernard Côme, and Jean-Paul Chilès; 129(1), 68-78 (2003).

Fernández, Ana I.
Stabilization of Electrical Arc Furnace Dust with Low-Grade MgO Prior to Landfill. — Ana I. Fernández, Josep M. Chimenos, Neus Raventós, Lourdes Miralles, and Ferran Espiell; 129(3), 275-9 (2003).

Ferreira, H. C.
Use of Residential Construction Waste and Residues from Red Ceramic Industry in Alternative Mortars. —L. V. Amorim, H. L. Lira, and H. C. Ferreira; 129(10), 916-20 (2003).

Fetterolf, Glendon J.
Field and Laboratory Evaluation of the Impact of Tall Fescue on Polyaromatic Hydrocarbon Degradation in an Aged Creosote-Contaminated Surface Soil. —Sandra L. Robinson, John T. Novak, Mark A. Widdowson, Scott B. Crosswell, and Glendon J. Fetterolf; 129(3), 232-40 (2003).

Ficara, Elena
Dissolved Oxygen-Stat Titration Respirometry: Principle of Operation and Validation. —Alberto Rozzi, Elena Ficara, and Andrea Rocco; 129(7), 602-9 (2003).

Field, Jim A.
Biodegradation of Mixtures of Phenolic Compounds in an Upward-Flow Anaerobic Sludge Blanket Reactor. —Elías Razo-Flores, Margarita Iniestra-González, Jim A. Field, Patricia Olguín-Lora, and Laura Puig-Grajales; 129(11), 999-1006 (2003).

Fischer, David
Effects of Stormwater Infiltration on Quality of Groundwater Beneath Retention and Detention Basins. —David Fischer, Emmanuel G. Charles, and Arthur L. Baehr; 129(5), 464-71 (2003).

Flora, Joseph R. V.
Why is Environmental Engineering an Important Aspect of Environmental Education? —Liv H. Brakewood, Adrienne T. Cooper, and Joseph R. V. Flora; 129(4), 281-2 (2003).

Francisca, Franco M.
Complex Dielectric Permittivity of Soil–Organic Mixtures (20 MHz–1.3 GHz). —Franco M. Francisca and Víctor A. Rinaldi; 129(4), 347-57 (2003).
Instability of Hydrocarbon Films over Mineral Surfaces: Microscale Experimental Studies.

—Franco M. Francisca, Victor A. Rinaldi, and Juan C. Santamarina; 129(12), 1120-8 (2003).

Frey, H. Christopher
Probabilistic Nonroad Mobile Source Emission Factors. — H. Christopher Frey and Sachin Bammi; 129(2), 162-8 (2003).

Frymier, P. D.
Comparative Study of Two Bioassays for Applications in Influent Wastewater Toxicity Monitoring. — S. Ren and P. D. Frymier; 129(3), 216-21 (2003).
Toxicity Estimation of Phenolic Compounds by Bioluminescent Bacterium. — S. Ren and P. D. Frymier; 129(4), 328-35 (2003).

Fujino, Takeshi
Modeling Approach to Periphyton and Nutrient Interaction in a Stream. — Duong Hong Son and Takeshi Fujino; 129(9), 834-43 (2003).

Gandhi, Deepa
Rate Parameters for Methyl *tert*-Butyl Ether Biodegradation via a Radial Diffusion Model. —Hakan Başağaoğlu, Esther E. Chung, Deepa Gandhi, Kate M. Scow, Benjamin J. McCoy, and Timothy R. Ginn; 129(6), 565-70 (2003).

Gantzer, Charles J.
Periodic Diffusional Mass Transfer near Sediment/Water Interface: Theory. —Makoto Higashino, Heinz G. Stefan, and Charles J. Gantzer; 129(5), 447-55 (2003).

Geaghan, James P.
Determination of Optimum Ingredients for Phosphogypsum Composite Stability under Marine Conditions-Response Surface Analysis with Process Variables. —Tingzong Guo, James P. Geaghan, and Kelly A. Rusch; 129(4), 358-65 (2003).

Gerba, Charles P.
Bacteriophages MS2 and PRD1 in Turfgrass by Subsurface Drip Irrigation. —Carlos Enriquez, Absar Alum, Elisa M. Suarez-Rey, Christopher Y. Choi, Gideon Oron, and Charles P. Gerba; 129(9), 852-7 (2003).

Ghanem, Ana
Investigation of Fluorescent Dyes as Partitioning Tracers for Subsurface Nonaqueous Phase Liquid (NAPL) Characterization. —Ana Ghanem, Thomas S. Soerens, M. M. Adel, and G. J. Thoma; 129(8), 740-4 (2003).

Gheewala, Shabbir H.
Efficacy of Biofilms under Toxic Conditions. —Shabbir H. Gheewala and Ajit P. Annachhatre; 129(6), 576-9 (2003).

Ginn, Timothy R.
Rate Parameters for Methyl *tert*-Butyl Ether Biodegradation via a Radial Diffusion Model. —Hakan Başağaoğlu, Esther E. Chung, Deepa Gandhi, Kate M. Scow, Benjamin J. McCoy, and Timothy R. Ginn; 129(6), 565-70 (2003).

Goh, E. K. H.
Systematic Reliability-Based Environmental Design of Erosion for Efficient Engineered Landscape Profiling. —E. K. H. Goh and B. White; 129(7), 620-8 (2003).

Goltz, Mark N.
Modeling Pd-Catalyzed Destruction of Chlorinated Ethenes in Groundwater. —Chris M. Stoppel and Mark N. Goltz; 129(2), 147-54 (2003).

Gowda, T. P. Halappa
Electrochemical Pretreatment of Wastewater from Color Photograph Processing Unit. — Rajesh S. Bejankiwar, K. S. Lokesh, and T. P. Halappa Gowda; 129(11), 1061-3 (2003).

Graham, Nigel J. D.
Development of Optimal Poly-Alumino–Iron Sulphate Coagulant. — Jia-Qian Jiang and Nigel J. D. Graham; 129(8), 699-708 (2003).

Graves, Alexandria K.
Sources of Fecal Pollution in Virginia's Blackwater River. — Amy M. Booth, Charles Hagedorn, Alexandria K. Graves, Sarah C. Hagedorn, and Karen H. Mentz; 129(6), 547-52 (2003).

Gualtieri, Carlo
Discussion of "Modeling Volatilization of MTBE from Standing Surface Waters" by Andrew J. Stocking and Michael C. Kavanaugh. — Carlo Gualtieri, Paola Gualtieri, and Guelfo Pulci Doria; 129(5), 483-4 (2003).
Closure to "Dimensional Analysis of Reaeration Rate in Streams" by Carlo Gualtieri, Paola Gualtieri, and Guelfo Pulci Doria. —Carlo Gualtieri, Paola Gualtieri, and Guelfo Pulci Doria; 129(7), 677-9 (2003).

Gualtieri, Paola
Discussion of "Modeling Volatilization of MTBE from Standing Surface Waters" by Andrew J. Stocking and Michael C. Kavanaugh. —Carlo Gualtieri, Paola Gualtieri, and Guelfo Pulci Doria; 129(5), 483-4 (2003).
Closure to "Dimensional Analysis of Reaeration Rate in Streams" by Carlo Gualtieri, Paola Gualtieri, and Guelfo Pulci Doria. —Carlo Gualtieri, Paola Gualtieri, and Guelfo Pulci Doria; 129(7), 677-9 (2003).

Guo, Tingzong
Determination of Optimum Ingredients for Phosphogypsum Composite Stability under Marine Conditions-Response Surface Analysis with Process Variables. —Tingzong Guo, James P. Geaghan, and Kelly A. Rusch; 129(4), 358-65 (2003).

Gupta, Sudhir Kumar
Arsenic Removal from Groundwater by Iron Impregnated Sand. —Rakesh Chandra Vaishya and Sudhir Kumar Gupta; 129(1), 89-92 (2003).

Guyonnet, Dominique
Hybrid Approach for Addressing Uncertainty in Risk Assessments. —Dominique Guyonnet, Bernard Bourgine, Didier Dubois, Hélène Fargier, Bernard Côme, and Jean-Paul Chilès; 129(1), 68-78 (2003).

Hagedorn, Charles
Sources of Fecal Pollution in Virginia's Blackwater River. —Amy M. Booth, Charles Hagedorn, Alexandria K. Graves, Sarah C. Hagedorn, and Karen H. Mentz; 129(6), 547-52 (2003).

Hagedorn, Sarah C.
Sources of Fecal Pollution in Virginia's Blackwater River. —Amy M. Booth, Charles Hagedorn, Alexandria K. Graves, Sarah C. Hagedorn, and Karen H. Mentz; 129(6), 547-52 (2003).

Han, Sun-Kee
Sodium Inhibition of Thermophilic Methanogens. —Wen-Hsing Chen, Sun-Kee Han, and Shihwu Sung; 129(6), 506-12 (2003).

Hanaki, Keisuke
Evaluation of Solid Waste Management System Using Fuzzy Composition. — Seongwon Seo, Toshiya Aramaki, Yongwoo Hwang, and Keisuke Hanaki; 129(6), 520-31 (2003).

Hand, D. W.
Dynamic Mathematical Modeling of an Isothermal Three-Phase Reactor: Model Development and Validation. — J. Yang, D. W. Hand, J. C. Crittenden, D. R. Hokanson, E. J. Oman, and D. Audeves; 129(7), 586-94 (2003).

Harper, B. M.
Nonequilibrium Nonaqueous Phase Liquid Mass Transfer Model for Soil Vapor Extraction Systems. — B. M. Harper, W. H. Stiver, and R. G. Zytner; 129(8), 745-54 (2003).

Hassan, Kazi Z. A.
Numerical Simulation of Bromate Formation during Ozonation of Bromide. — Kazi Z. A. Hassan, Kevin C. Bower, and Christopher M. Miller; 129(11), 991-8 (2003).

Hearne, Giovanni
One-Step Ambient Temperature Ferrite Process for Treatment of Acid Mine Drainage Waters. —Ori Lahav, Barak E. Morgan, Giovanni Hearne, and Richard E. Loewenthal; 129(2), 155-61 (2003).

Higashino, Makoto
Periodic Diffusional Mass Transfer near Sediment/Water Interface: Theory. —Makoto Higashino, Heinz G. Stefan, and Charles J. Gantzer; 129(5), 447-55 (2003).

Hokanson, D. R.
Dynamic Mathematical Modeling of an Isothermal Three-Phase Reactor: Model Development and Validation. —J. Yang, D. W. Hand, J. C. Crittenden, D. R. Hokanson, E. J. Oman, and D. Audeves; 129(7), 586-94 (2003).

Holman, J. B.
Oxidation-Reduction Potential as a Monitoring Tool in a Low Dissolved Oxygen Wastewater Treatment Process. —J. B. Holman and D. G. Wareham; 129(1), 52-8 (2003).

Hsueh, H. T.
Kinetic Study on Absorption of SO_2 and NO_X with Acidic $NaClO_2$ Solutions Using the Spraying Column. — T. W. Chien, H. Chu, and H. T. Hsueh; 129(11), 967-74 (2003).

Hu, J. Y.
Nitrogen Removal Using Combined Ultracompact Biofilm Reactor-Packed Bed System. —S. L. Ong, L. Y. Lee, J. Y. Hu, and W. J. Ng; 129(1), 43-51 (2003).

Huang, Chihpin
Biotrickling Filtration for Control of Volatile Organic Compounds from Microelectronics Industry. — Walter Den, Chihpin Huang, and Chi-Han Li; 129(7), 610-9 (2003).

Huang, G. H.
Hybrid Fuzzy-Stochastic Modeling Approach for Assessing Environmental Risks at Contaminated Groundwater Systems. —Z. Chen, G. H. Huang, and A. Chakma; 129(1), 79-88 (2003).
Integrated Subsurface Modeling and Risk Assessment of Petroleum-Contaminated Sites in Western Canada. —Z. Chen and G. H. Huang; 129(9), 858-72 (2003).

Huang, Ju-Chang
Anaerobic Treatment of High Sulfate Wastewater with Oxygenation to Control Sulfide Toxicity. — Samir Kumar Khanal and Ju-Chang Huang; 129(12), 1104-11 (2003).

Huang, Sui Liang
Investigation of Cadmium Desorption from Different-Sized Sediments. — Sui Liang Huang; 129(3), 241-7 (2003).

Hunt, James R.
Reconstructing Contaminant Deposition in a San Francisco Bay Marina, California. — Adam H. Love, Bradley K. Esser, and James R. Hunt; 129(7), 659-66 (2003).

Hwang, Yongwoo
Evaluation of Solid Waste Management System Using Fuzzy Composition. — Seongwon Seo, Toshiya Aramaki, Yongwoo Hwang, and Keisuke Hanaki; 129(6), 520-31 (2003).

Ibrahimi, F.
Lagoon Effluent Treatment Using Grass Filtration. — F. Ibrahimi, B. J. C. Perera, P. Lechte, and A. K. Takyi; 129(11), 1022-9 (2003).

Iniestra-González, Margarita
Biodegradation of Mixtures of Phenolic Compounds in an Upward-Flow Anaerobic Sludge Blanket Reactor. —Elías Razo-Flores, Margarita Iniestra-González, Jim A. Field, Patricia Olguín-Lora, and Laura Puig-Grajales; 129(11), 999-1006 (2003).

Inyang, Hilary I.
On Models, Modeling, and Modelers in the Environmental Arena. —Hilary I. Inyang; 129(6), 489-90 (2003).
Persistent Research Issues in Risk Assessment of Wastes in Full-Scale Systems. —Hilary I. Inyang and Terezinha Cássia de Brito Galvão; 129(10), 885 (2003).
Framework for Recycling of Wastes in Construction. — Hilary I. Inyang; 129(10), 887-98 (2003).
Relating Batch and Column Diffusion Coefficients for Leachable Contaminants in Particulate Waste Materials. —Vincent O. Ogunro and Hilary I. Inyang; 129(10), 930-42 (2003).

Irabien, Angel
Leaching Behavior of Lead, Chromium (III), and Zinc in Cement/Metal Oxides Systems. —Ignacio Fernández Olmo, Emilio Chacón, and Angel Irabien; 129(6), 532-8 (2003).

Iranpour, Reza
Modeling and Control of Oxygen Transfer in High Purity Oxygen Activated Sludge Process. —Chwen-Jeng Tzeng, Reza Iranpour, and Michael K. Stenstrom; 129(5), 402-11 (2003).

Jiang, Jia-Qian
Development of Optimal Poly-Alumino–Iron Sulphate Coagulant. —Jia-Qian Jiang and Nigel J. D. Graham; 129(8), 699-708 (2003).

Jirka, Gerhard H.
Wind and Stream Flow Induced Reaeration. —Chia R. Chu and Gerhard H. Jirka; 129(12), 1129-36 (2003).

Johnson, Billy
Eutrophication and Pathogen Abatement in the San Juan Bay Estuary. —Carl Cerco, Barry Bunch, Mark Dortch, Billy Johnson, and Keu Kim; 129(4), 318-27 (2003).

Kannan, R. S. S.
Use of Waste Materials for Control of Acid Mine Drainage and Subsidence. — Hema J. Siriwardane, R. S. S. Kannan, and Paul F. Ziemkiewicz; 129(10), 910-5 (2003).

Kargi, F.
Closure to "Rotating-Perforated-Tubes Biofilm Reactor for High-Strength Wastewater Treatment" by Fikret Kargi and Serkan Eker. — F. Kargi; 129(1), 94-6 (2003).

Kavanaugh, Michael C.
Closure to "Modeling Volatilization of MTBE from Standing Surface Waters" by Andrew J. Stocking and Michael C. Kavanaugh. — Andrew J. Stocking and Michael C. Kavanaugh; 129(5), 485 (2003).

Kayhanian, Masoud
Impact of Annual Average Daily Traffic on Highway Runoff Pollutant Concentrations. — Masoud Kayhanian, Amardeep Singh, Claus Suverkropp, and Steve Borroum; 129(11), 975-90 (2003).

Kelly, C. J.
Comparison of Bacterial Bioluminescence with Activated Sludge Oxygen Uptake Rates during Zinc Toxic Shock Loads in a Wastewater Treatment System. —C. A. Lajoie, S.-C. Lin, and C. J. Kelly; 129(9), 879-83 (2003).

Khanal, Samir Kumar
Anaerobic Treatment of High Sulfate Wastewater with Oxygenation to Control Sulfide Toxicity. —Samir Kumar Khanal and Ju-Chang Huang; 129(12), 1104-11 (2003).

Kibbey, Tohren C. G.
Counterflow Method for Measurement of Henry's Law Constants. —Julie P. Caires, Michiya Suzuki, and Tohren C. G. Kibbey; 129(12), 1169-75 (2003).

Kim, Keu
Eutrophication and Pathogen Abatement in the San Juan Bay Estuary. —Carl Cerco, Barry Bunch, Mark Dortch, Billy Johnson, and Keu Kim; 129(4), 318-27 (2003).

Knocke, William R.
Modeling Uncoupled Solute Transport in Natural Organic Matter Size Fractionation by Ultrafiltration. — Christopher J. Tadanier, Duane F. Berry, and William R. Knocke; 129(1), 33-42 (2003).

Kobayashi, A. R. K.
Influence of Portland Cement Type on Unconfined Compressive Strength and Linear Expansion of Cement-Stabilized Phosphogypsum. —A. B. Parreira, A. R. K. Kobayashi, and O. B. Silvestre, Jr.; 129(10), 956-60 (2003).

Komisar, Simeon J.
Integrated Modeling of Anaerobic Fluidized Bed Bioreactor for Deicing Waste Treatment. I: Model Derivation. —Jonghyuk Seok and Simeon J. Komisar; 129(2), 100-9 (2003).
Integrated Modeling of Anaerobic Fluidized Bed Bioreactor for Deicing Waste Treatment. II: Simulation and Experimental Studies. —Jonghyuk Seok and Simeon J. Komisar; 129(2), 110-22 (2003).

Kuo, Jeff
Standardized Collimated Beam Testing Protocol for Water/Wastewater Ultraviolet Disinfection. — Jeff Kuo, Ching-lin Chen, and Margaret Nellor; 129(8), 774-9 (2003).

Kwan, C. Y.
Amphoteric Effect of Humic Acids in Surfactant-Aided Photolysis of Polychlorobiphenyls. — W. Chu and C. Y. Kwan; 129(8), 716-22 (2003).

Lagasse, P.
Nitrification in Pure Oxygen Activated Sludge Systems. — K. Sears, J. A. Oleszkiewicz, and P. Lagasse; 129(2), 130-5 (2003).

Lagerkvist, Anders
Carbonation of Municipal Solid Waste Incineration Fly Ash and the Impact on Metal Mobility. — Holger Ecke, Nourreddine Menad, and Anders Lagerkvist; 129(5), 435-40 (2003).

Lahav, Ori
One-Step Ambient Temperature Ferrite Process for Treatment of Acid Mine Drainage Waters. — Ori Lahav, Barak E. Morgan, Giovanni Hearne, and Richard E. Loewenthal; 129(2), 155-61 (2003).

Lai, Meng-Hui
Airborne Bacteria Control Under Chamber and Test-Home Conditions. —Meng-Hui Lai, Demetrios J. Moschandreas, and Krishna R. Pagilla; 129(3), 202-8 (2003).

Lajoie, C. A.
Comparison of Bacterial Bioluminescence with Activated Sludge Oxygen Uptake Rates during Zinc Toxic Shock Loads in a Wastewater Treatment System. —C. A. Lajoie, S.-C. Lin, and C. J. Kelly; 129(9), 879-83 (2003).

Laroulandie, Jérôme
Lead Removal from Acidic Solutions by Sorption on Cocoa Shells: Effect of Some Parameters. —Nathalie Meunier, Jérôme Laroulandie, Jean-François Blais, and Rajeshwar Dayal Tyagi; 129(8), 693-8 (2003).

Lawler, Desmond F.
Sphere Drag and Settling Velocity Revisited. —Phillip P. Brown and Desmond F. Lawler; 129(3), 222-31 (2003).

Lechte, P.
Lagoon Effluent Treatment Using Grass Filtration. —F. Ibrahimi, B. J. C. Perera, P. Lechte, and A. K. Takyi; 129(11), 1022-9 (2003).

Le Cloirec, Pierre
Thermal Behavior of Activated Carbon Cloths Heated by Joule Effect. —Albert Subrenat and Pierre Le Cloirec; 129(12), 1077-84 (2003).

Lee, D. J.
Floc Characteristics and Removal of Turbidity and Humic Acid from High-Turbidity Storm Water. —G. Annadurai, S. S. Sung, and D. J. Lee; 129(6), 571-5 (2003).

Lee, How Ming
Plasma-Assisted Process for Removing NO/NO_x from Gas Streams with C_2H_4 as Additive. —How Ming Lee, Moo Been Chang, and Shyh Chaur Yang; 129(9), 800-10 (2003).

Lee, L. Y.
Nitrogen Removal Using Combined Ultracompact Biofilm Reactor-Packed Bed System. —S. L. Ong, L. Y. Lee, J. Y. Hu, and W. J. Ng; 129(1), 43-51 (2003).

Lei, Peng Ju
Reduction of Fulvic Acid in Drinking Water by Ferrate. — Jiu-Hui Qu, Hui-Juan Liu, Suo-Xiang Liu, and Peng Ju Lei; 129(1), 17-24 (2003).

Leist, M.
Evaluation of Leaching Tests for Cement Based Immobilization of Hazardous Compounds. — M. Leist, R. J. Casey, and D. Caridi; 129(7), 637-41 (2003).

Lema, J. M.
Combined System for Biological Removal of Nitrogen and Carbon from a Fish Cannery Wastewater. — A. Mosquera-Corral, J. L. Campos, M. Sánchez, R. Méndez, and J. M. Lema; 129(9), 826-33 (2003).

Li, Chi-Han
Biotrickling Filtration for Control of Volatile Organic Compounds from Microelectronics Industry. — Walter Den, Chihpin Huang, and Chi-Han Li; 129(7), 610-9 (2003).

Li, Hebi
Field Measurements and Modeling of Two-Stage Biofilter that Treats Odorous Sulfur Air Emissions. — Hebi Li, James R. Mihelcic, John C. Crittenden, and Keith A. Anderson; 129(8), 684-92 (2003).

Li, Huihua
Influence of COD:N:P Ratio on Nitrogen and Phosphorus Removal in Fixed-Bed Filter. —Joo-Hwa Tay, Peng-Cheong Chui, and Huihua Li; 129(4), 285-90 (2003).

Liehr, Sarah K.
Modeling Nitrogen Transport in Duckweed Pond for Secondary Treatment of Swine Wastewater. —Sumate Chaiprapat, Jiayang Cheng, John J. Classen, Joel J. Ducoste, and Sarah K. Liehr; 129(8), 731-9 (2003).

Lifvergren, Thomas
Mercury-Contaminated Soil Remediation by Iodide and Electroreclamation. —Pascal Suèr and Thomas Lifvergren; 129(5), 441-6 (2003).

Lin, S.-C.
Comparison of Bacterial Bioluminescence with Activated Sludge Oxygen Uptake Rates during Zinc Toxic Shock Loads in a Wastewater Treatment System. —C. A. Lajoie, S.-C. Lin, and C. J. Kelly; 129(9), 879-83 (2003).

Lin, Sheng H.
Hydrofluoric Acid Recovery from Waste Semiconductor Acid Solution by Ion Exchange. —Sheng H. Lin and Jin M. Liu; 129(5), 472-8 (2003).

Linden, Karl G.
Standardization of Methods for Fluence (UV Dose) Determination in Bench-Scale UV Experiments. —James R. Bolton and Karl G. Linden; 129(3), 209-15 (2003).

Lira, H. L.
Use of Residential Construction Waste and Residues from Red Ceramic Industry in Alternative Mortars. —L. V. Amorim, H. L. Lira, and H. C. Ferreira; 129(10), 916-20 (2003).

Liu, Hui-Juan
Reduction of Fulvic Acid in Drinking Water by Ferrate. — Jiu-Hui Qu, Hui-Juan Liu, Suo-Xiang Liu, and Peng Ju Lei; 129(1), 17-24 (2003).

Liu, Jin M.
Hydrofluoric Acid Recovery from Waste Semiconductor Acid Solution by Ion Exchange. — Sheng H. Lin and Jin M. Liu; 129(5), 472-8 (2003).

Liu, Suo-Xiang
Reduction of Fulvic Acid in Drinking Water by Ferrate. — Jiu-Hui Qu, Hui-Juan Liu, Suo-Xiang Liu, and Peng Ju Lei; 129(1), 17-24 (2003).

Liu, Yu-Fen
Effects of Oxygen on Pyrolysis Kinetics of Tetra Pack. — Chao-Hsiung Wu, Ching-Yuan Chang, Yu-Fen Liu, and Yeou-Lih Yan; 129(4), 382-6 (2003).

Liu, Zhen-Shu
Thermal Treatment for Incinerator Ash: Evaporation and Leaching Rates of Metals. — Zhen-Shu Liu, Ming-Yen Wey, and Shu-Jen Lu; 129(3), 258-66 (2003).

Loehr, Raymond C.
Natural Stabilization of Stored Industrial Sludges. — Hazim Tugun, Raymond C. Loehr, and Xuijin Qui; 129(3), 248-57 (2003).

Loewenthal, Richard E.
One-Step Ambient Temperature Ferrite Process for Treatment of Acid Mine Drainage Waters. —Ori Lahav, Barak E. Morgan, Giovanni Hearne, and Richard E. Loewenthal; 129(2), 155-61 (2003).

Lokesh, K. S.
Electrochemical Pretreatment of Wastewater from Color Photograph Processing Unit. —Rajesh S. Bejankiwar, K. S. Lokesh, and T. P. Halappa Gowda; 129(11), 1061-3 (2003).

Looney, Brian B.
Removal of Mercury from Low-Concentration Aqueous Streams Using Chemical Reduction and Air Stripping. —Brian B. Looney, Miles E. Denham, Jr., Karen M. Vangelas, and Nicolas S. Bloom; 129(9), 819-25 (2003).

Love, Adam H.
Reconstructing Contaminant Deposition in a San Francisco Bay Marina, California. —Adam H. Love, Bradley K. Esser, and James R. Hunt; 129(7), 659-66 (2003).

Lu, Hsin-Chung
Influence of Different Cleaning Conditions on Cleaning Performance of Pilot-Scale Pulse-Jet Baghouse. — Hsin-Chung Lu and Chuen-Jinn Tsai; 129(9), 811-8 (2003).

Lu, Shu-Jen
Thermal Treatment for Incinerator Ash: Evaporation and Leaching Rates of Metals. —Zhen-Shu Liu, Ming-Yen Wey, and Shu-Jen Lu; 129(3), 258-66 (2003).

Luna, Ronaldo
Numerical Simulation of Rain Scavenging on Large Release of Water-Soluble Gases. —Wei Zheng, Ronaldo Luna, and Laura J. Steinberg; 129(1), 59-67 (2003).

Luo, Ancheng
Closure to "Effects of Solid Levels and Chemical Additives on Removal of Solids and Phosphorus in Swine Manure" by Pius M. Ndegwa, Jun Zhu, and Ancheng Luo. —Pius M. Ndegwa, Jun Zhu, and Ancheng Luo; 129(5), 487 (2003).

Ma, C. W.
Effects of Humic Materials on Photodegradation of Chlorinated Aromatic Dye in Surfactant Solution. — W. Chu and C. W. Ma; 129(6), 500-5 (2003).

Magar, Victor S.
PCB Treatment Alternatives and Research Directions. — Victor S. Magar; 129(11), 961-5 (2003).

Maloney, Stephen W.
Electrochemical Reduction of 2,4-Dinitrotoluene in a Continuous Flow Laboratory Scale Reactor. — Rajesh B. Doppalapudi, George A. Sorial, and Stephen W. Maloney; 129(3), 192-201 (2003).

Manoliadis, Odysseus G.
Sustainability Indices of Thermal Electrical Power Production in Greece. — Ioannis E. Tsolas and Odysseus G. Manoliadis; 129(2), 179-82 (2003).

Marion, Andrea
Parameter Estimation of the Transient Storage Model for Stream–Subsurface Exchange. — Andrea Marion, Mattia Zaramella, and Aaron I. Packman; 129(5), 456-63 (2003).

Markus, Momcilo
Uncertainty of Weekly Nitrate-Nitrogen Forecasts Using Artificial Neural Networks. —Momcilo Markus, Christina W.-S. Tsai, and Misganaw Demissie; 129(3), 267-74 (2003).

Martinez, Christopher J.
Hydraulic Analysis of Orlando Easterly Wetland. —Christopher J. Martinez and William R. Wise; 129(6), 553-60 (2003).

Mashnad, Mehedy
Mechanical Stabilization of Cemented Soil–Fly Ash Mixtures with Recycled Plastic Strips. —Khaled Sobhan and Mehedy Mashnad; 129(10), 943-7 (2003).

McCoy, Benjamin J.
Rate Parameters for Methyl *tert*-Butyl Ether Biodegradation via a Radial Diffusion Model. —Hakan Başağaoğlu, Esther E. Chung, Deepa Gandhi, Kate M. Scow, Benjamin J. McCoy, and Timothy R. Ginn; 129(6), 565-70 (2003).

McQuarrie, James P.
Secondary Benefits of Aquifer Storage and Recovery: Disinfection By-Product Control. —James P. McQuarrie and Kenneth Carlson; 129(5), 412-8 (2003).

Meegoda, J. N.
Fractionation and Segregation of Suspended Particles Using Acoustic and Flow Fields. —N. Aboobaker, J. N. Meegoda, and D. Blackmore; 129(5), 427-34 (2003).

Meier, Werner
Modeling the Effect of Water Diversion on the Temperature of Mountain Streams. —Werner Meier, Cyrill Bonjour, Alfred Wüest, and Peter Reichert; 129(8), 755-64 (2003).

Menad, Nourreddine
Carbonation of Municipal Solid Waste Incineration Fly Ash and the Impact on Metal Mobility. —Holger Ecke, Nourreddine Menad, and Anders Lagerkvist; 129(5), 435-40 (2003).

Méndez, R.
Combined System for Biological Removal of Nitrogen and Carbon from a Fish Cannery Wastewater. — A. Mosquera-Corral, J. L. Campos, M. Sánchez, R. Méndez, and J. M. Lema; 129(9), 826-33 (2003).

Mentz, Karen H.
Sources of Fecal Pollution in Virginia's Blackwater River. — Amy M. Booth, Charles Hagedorn, Alexandria K. Graves, Sarah C. Hagedorn, and Karen H. Mentz; 129(6), 547-52 (2003).

Meunier, Nathalie
Lead Removal from Acidic Solutions by Sorption on Cocoa Shells: Effect of Some Parameters. — Nathalie Meunier, Jérôme Laroulandie, Jean-François Blais, and Rajeshwar Dayal Tyagi; 129(8), 693-8 (2003).

Mihelcic, James R.
Field Measurements and Modeling of Two-Stage Biofilter that Treats Odorous Sulfur Air Emissions. — Hebi Li, James R. Mihelcic, John C. Crittenden, and Keith A. Anderson; 129(8), 684-92 (2003).

Miller, Christopher M.
Numerical Simulation of Bromate Formation during Ozonation of Bromide. —Kazi Z. A. Hassan, Kevin C. Bower, and Christopher M. Miller; 129(11), 991-8 (2003).

Minete, Enivaldo
Engineering Properties of Fiber Reinforced Cold Asphalt Mixes. —Benedito de S. Bueno, Wander R. da Silva, Dario C. de Lima, and Enivaldo Minete; 129(10), 952-5 (2003).

Minocha, Vijay K.
Discussion of "Dimensional Analysis of Reaeration Rate in Streams" by Carlo Gualtieri, Paola Gualtieri, and Guelfo Pulci Doria. —Vijay K. Minocha; 129(7), 676-7 (2003).
Discussion of "Neural Network Prediction of Air Stripping K_La" by Y. Djebbar and R. M. Narbaitz. — Vijay K. Minocha; 129(8), 780-1 (2003).

Miralles, Lourdes
Stabilization of Electrical Arc Furnace Dust with Low-Grade MgO Prior to Landfill. —Ana I. Fernández, Josep M. Chimenos, Neus Raventós, Lourdes Miralles, and Ferran Espiell; 129(3), 275-9 (2003).

Moore, Tim O., II
Nonaqueous Phase Liquid Pool Dissolution as a Function of Average Pore Water Velocity. —Eric A. Seagren and Tim O. Moore, II; 129(9), 786-99 (2003).

Moo-Young, Horace
Physical and Chemical Properties of Recycled Tire Shreds for Use in Construction. —Horace Moo-Young, Kassahun Sellasie, Daniel Zeroka, and Gajanan Sabnis; 129(10), 921-9 (2003).

Morelli, Gemma
Simulation of Municipal Solid Waste Incinerator Ash/Cement Systems by Means of Factorial Experiments. — Alessandra Polettini, Raffaella Pomi, and Gemma Morelli; 129(11), 1051-60 (2003).

Morgan, Barak E.
One-Step Ambient Temperature Ferrite Process for Treatment of Acid Mine Drainage Waters. — Ori Lahav, Barak E. Morgan, Giovanni Hearne, and Richard E. Loewenthal; 129(2), 155-61 (2003).

Moschandreas, Demetrios J.
Airborne Bacteria Control Under Chamber and Test-Home Conditions. — Meng-Hui Lai, Demetrios J. Moschandreas, and Krishna R. Pagilla; 129(3), 202-8 (2003).

Mosquera-Corral, A.
Combined System for Biological Removal of Nitrogen and Carbon from a Fish Cannery Wastewater. — A. Mosquera-Corral, J. L. Campos, M. Sánchez, R. Méndez, and J. M. Lema; 129(9), 826-33 (2003).

Narbaitz, R. M.
Closure to "Neural Network Prediction of Air Stripping K_La" by Y. Djebbar and R. M. Narbaitz. — Y. Djebbar and R. M. Narbaitz; 129(8), 781 (2003).

Ndegwa, Pius M.
Closure to "Effects of Solid Levels and Chemical Additives on Removal of Solids and Phosphorus in Swine Manure" by Pius M. Ndegwa, Jun Zhu, and Ancheng Luo. —Pius M. Ndegwa, Jun Zhu, and Ancheng Luo; 129(5), 487 (2003).

Nellor, Margaret
Standardized Collimated Beam Testing Protocol for Water/Wastewater Ultraviolet Disinfection. —Jeff Kuo, Ching-lin Chen, and Margaret Nellor; 129(8), 774-9 (2003).

Neumann, David W.
Regression Model for Daily Maximum Stream Temperature. — David W. Neumann, Balaji Rajagopalan, and Edith A. Zagona; 129(7), 667-74 (2003).

Ng, W. J.
Nitrogen Removal Using Combined Ultracompact Biofilm Reactor-Packed Bed System. —S. L. Ong, L. Y. Lee, J. Y. Hu, and W. J. Ng; 129(1), 43-51 (2003).

Novak, John T.
Field and Laboratory Evaluation of the Impact of Tall Fescue on Polyaromatic Hydrocarbon Degradation in an Aged Creosote-Contaminated Surface Soil. —Sandra L. Robinson, John T. Novak, Mark A. Widdowson, Scott B. Crosswell, and Glendon J. Fetterolf; 129(3), 232-40 (2003).
Aerobic Biodegradation of Methyl Tert-Butyl Ether in Gasoline-Contaminated Aquifer Sediments. —Jeff R. Zoeckler, Mark A. Widdowson, and John T. Novak; 129(7), 642-50 (2003).

Novak, Pavel
Discussion of "Oxygen Transfer at Low Drop Weirs" by Jeongkon Kim and Richard W. Walters. — Pavel Novak; 129(2), 187-8 (2003).

Ogle, Steve M.
Modeling Tetrachloroethylene Decomposition in Photosonolysis Reactor. —Chikashi Sato and Steve M. Ogle; 129(2), 136-46 (2003).

Ogunro, Vincent O.
Relating Batch and Column Diffusion Coefficients for Leachable Contaminants in Particulate Waste Materials. —Vincent O. Ogunro and Hilary I. Inyang; 129(10), 930-42 (2003).

Oldring, Kath
Chemical Control of Struvite Precipitation. — James D. Doyle, Kath Oldring, John Churchley, Colin Price, and Simon A. Parsons; 129(5), 419-26 (2003).

Oleszkiewicz, J. A.
Nitrification in Pure Oxygen Activated Sludge Systems. — K. Sears, J. A. Oleszkiewicz, and P. Lagasse; 129(2), 130-5 (2003).

Olguín-Lora, Patricia
Biodegradation of Mixtures of Phenolic Compounds in an Upward-Flow Anaerobic Sludge Blanket Reactor. — Elías Razo-Flores, Margarita Iniestra-González, Jim A. Field, Patricia Olguín-Lora, and Laura Puig-Grajales; 129(11), 999-1006 (2003).

Olmo, Ignacio Fernández
Leaching Behavior of Lead, Chromium (III), and Zinc in Cement/Metal Oxides Systems. — Ignacio Fernández Olmo, Emilio Chacón, and Angel Irabien; 129(6), 532-8 (2003).

Oman, E. J.
Dynamic Mathematical Modeling of an Isothermal Three-Phase Reactor: Model Development and Validation. —J. Yang, D. W. Hand, J. C. Crittenden, D. R. Hokanson, E. J. Oman, and D. Audeves; 129(7), 586-94 (2003).

Ong, S. L.
Nitrogen Removal Using Combined Ultracompact Biofilm Reactor-Packed Bed System. —S. L. Ong, L. Y. Lee, J. Y. Hu, and W. J. Ng; 129(1), 43-51 (2003).

Oron, Gideon
Bacteriophages MS2 and PRD1 in Turfgrass by Subsurface Drip Irrigation. —Carlos Enriquez, Absar Alum, Elisa M. Suarez-Rey, Christopher Y. Choi, Gideon Oron, and Charles P. Gerba; 129(9), 852-7 (2003).

Ozdemir, Orhan
Adsorption of Negatively Charged Azo Dyes onto Surfactant-Modified Sepiolite. —Bulent Armagan, Orhan Ozdemir, Mustafa Turan, and Mehmet S. Çelik; 129(8), 709-15 (2003).

Packman, Aaron I.
Parameter Estimation of the Transient Storage Model for Stream–Subsurface Exchange. —Andrea Marion, Mattia Zaramella, and Aaron I. Packman; 129(5), 456-63 (2003).

Pagilla, Krishna R.
Airborne Bacteria Control Under Chamber and Test-Home Conditions. —Meng-Hui Lai, Demetrios J. Moschandreas, and Krishna R. Pagilla; 129(3), 202-8 (2003).

Pala, Aysegul
Activated Carbon Addition to an Activated Sludge Model Reactor for Color Removal from a Cotton Textile Processing Wastewater. —Aysegul Pala and Enis Tokat; 129(11), 1064-8 (2003).

Parreira, A. B.
Influence of Portland Cement Type on Unconfined Compressive Strength and Linear Expansion of Cement-Stabilized Phosphogypsum. —A. B. Parreira, A. R. K. Kobayashi, and O. B. Silvestre, Jr.; 129(10), 956-60 (2003).

Parsons, Simon A.
Chemical Control of Struvite Precipitation. — James D. Doyle, Kath Oldring, John Churchley, Colin Price, and Simon A. Parsons; 129(5), 419-26 (2003).

Perera, B. J. C.
Lagoon Effluent Treatment Using Grass Filtration. — F. Ibrahimi, B. J. C. Perera, P. Lechte, and A. K. Takyi; 129(11), 1022-9 (2003).

Pirozzi, Francesco
Four-Substrate Design Model for Single Sludge Predenitrification System. — Giovanni Esposito, Massimiliano Fabbricino, and Francesco Pirozzi; 129(5), 394-401 (2003).

Polettini, Alessandra
Simulation of Municipal Solid Waste Incinerator Ash/Cement Systems by Means of Factorial Experiments. — Alessandra Polettini, Raffaella Pomi, and Gemma Morelli; 129(11), 1051-60 (2003).

Pomi, Raffaella
Simulation of Municipal Solid Waste Incinerator Ash/Cement Systems by Means of Factorial Experiments. — Alessandra Polettini, Raffaella Pomi, and Gemma Morelli; 129(11), 1051-60 (2003).

Price, Colin
Chemical Control of Struvite Precipitation. —James D. Doyle, Kath Oldring, John Churchley, Colin Price, and Simon A. Parsons; 129(5), 419-26 (2003).

Prunty, Lyle
Synchrotron Radiation for Detecting Movement of a Volatile Soil Liquid. —Lyle Prunty, Joel Bell, and Mark Rivers; 129(5), 479-82 (2003).

Puig-Grajales, Laura
Biodegradation of Mixtures of Phenolic Compounds in an Upward-Flow Anaerobic Sludge Blanket Reactor. —Elías Razo-Flores, Margarita Iniestra-González, Jim A. Field, Patricia Olguín-Lora, and Laura Puig-Grajales; 129(11), 999-1006 (2003).

Qi, Shaoying
Discussion of "Rotating-Perforated-Tubes Biofilm Reactor for High-Strength Wastewater Treatment" by Fikret Kargi and Serkan Eker. —Shaoying Qi; 129(1), 93-4 (2003).
Discussion of "Prediction and Measurement of Bubble Formation in Water Treatment" by Paolo Scardina and Marc Edwards. —Shaoying Qi; 129(6), 580-1 (2003).

Qian, Yi
Excess Sludge Production in Membrane Bioreactors: A Theoretical Investigation. —Chuan-Hong Xing, Wei-Zhong Wu, Yi Qian, and Eric Tardieu; 129(4), 291-7 (2003).

Qu, Jiu-Hui
Reduction of Fulvic Acid in Drinking Water by Ferrate. — Jiu-Hui Qu, Hui-Juan Liu, Suo-Xiang Liu, and Peng Ju Lei; 129(1), 17-24 (2003).

Qui, Xuijin
Natural Stabilization of Stored Industrial Sludges. —Hazim Tugun, Raymond C. Loehr, and Xuijin Qui; 129(3), 248-57 (2003).

Quintela, Manuel
Atmospheric Oxygen Transfer During In Situ Oxygen Uptake Rate Measurements. — Manuel Quintela and Kyoung S. Ro; 129(2), 183-6 (2003).

Rajagopalan, Balaji
Regression Model for Daily Maximum Stream Temperature. — David W. Neumann, Balaji Rajagopalan, and Edith A. Zagona; 129(7), 667-74 (2003).

Raventós, Neus
Stabilization of Electrical Arc Furnace Dust with Low-Grade MgO Prior to Landfill. — Ana I. Fernández, Josep M. Chimenos, Neus Raventós, Lourdes Miralles, and Ferran Espiell; 129(3), 275-9 (2003).

Razo-Flores, Elías
Biodegradation of Mixtures of Phenolic Compounds in an Upward-Flow Anaerobic Sludge Blanket Reactor. — Elías Razo-Flores, Margarita Iniestra-González, Jim A. Field, Patricia Olguín-Lora, and Laura Puig-Grajales; 129(11), 999-1006 (2003).

Reddy, Krishna R.
Effect of Soil Type on Electrokinetic Removal of Phenanthrene Using Surfactants and Cosolvents. — Krishna R. Reddy and Richard E. Saichek; 129(4), 336-46 (2003).
Iodide-Enhanced Electrokinetic Remediation of Mercury-Contaminated Soils. —Krishna R. Reddy, Carlos Chaparro, and Richard E. Saichek; 129(12), 1137-48 (2003).

Reichert, Peter
Modeling the Effect of Water Diversion on the Temperature of Mountain Streams. —Werner Meier, Cyrill Bonjour, Alfred Wüest, and Peter Reichert; 129(8), 755-64 (2003).

Ren, S.
Comparative Study of Two Bioassays for Applications in Influent Wastewater Toxicity Monitoring. — S. Ren and P. D. Frymier; 129(3), 216-21 (2003).
Toxicity Estimation of Phenolic Compounds by Bioluminescent Bacterium. —S. Ren and P. D. Frymier; 129(4), 328-35 (2003).

Rinaldi, Víctor A.
Complex Dielectric Permittivity of Soil–Organic Mixtures (20 MHz–1.3 GHz). —Franco M. Francisca and Víctor A. Rinaldi; 129(4), 347-57 (2003).

Rinaldi, Victor A.
Instability of Hydrocarbon Films over Mineral Surfaces: Microscale Experimental Studies. —Franco M. Francisca, Victor A. Rinaldi, and Juan C. Santamarina; 129(12), 1120-8 (2003).

Rittmann, Bruce E.
Biogeochemical Evaluation of Mechanisms Controlling $CaCO_{3(s)}$ Precipitation in Landfill Leachate-Collection Systems. —Bruce E. Rittmann, James E. Banaszak, Andrew Cooke, and R. Kerry Rowe; 129(8), 723-30 (2003).

Rivers, Mark
Synchrotron Radiation for Detecting Movement of a Volatile Soil Liquid. —Lyle Prunty, Joel Bell, and Mark Rivers; 129(5), 479-82 (2003).

Ro, Kyoung S.
Atmospheric Oxygen Transfer During In Situ Oxygen Uptake Rate Measurements. — Manuel Quintela and Kyoung S. Ro; 129(2), 183-6 (2003).

Robinson, Sandra L.
Field and Laboratory Evaluation of the Impact of Tall Fescue on Polyaromatic Hydrocarbon Degradation in an Aged Creosote-Contaminated Surface Soil. — Sandra L. Robinson, John T. Novak, Mark A. Widdowson, Scott B. Crosswell, and Glendon J. Fetterolf; 129(3), 232-40 (2003).

Rocco, Andrea
Dissolved Oxygen-Stat Titration Respirometry: Principle of Operation and Validation. — Alberto Rozzi, Elena Ficara, and Andrea Rocco; 129(7), 602-9 (2003).

Roehl, Ed
Discussion of "Using Complex Permittivity and Artificial Neural Networks for Contaminant Prediction" by John B. Lindsay, Julie Q. Shang, and R. Kerry Rowe. — Ed Roehl, Paul Conrads, and John B. Cook; 129(11), 1069-71 (2003).

Rood, Mark
Editor's Note. —Mark Rood; 129(3), 191 (2003).
Editor's Note. —Mark Rood; 129(4), 283-4 (2003).
Editor's Note. —Mark Rood; 129(5), 393 (2003).
Editor's Note. —Mark Rood; 129(10), 886 (2003).

Rood, Mark J.
The Times, They Are Changing Again. —Mark J. Rood; 129(1), 1-2 (2003).
Editor's Note. —Mark J. Rood; 129(1), 3 (2003).
Editor's Note. —Mark J. Rood; 129(2), 99 (2003).
Editor's Note. —Mark J. Rood; 129(6), 491 (2003).
Editor's Note. —Mark J. Rood; 129(7), 585 (2003).
Editor's Note. —Mark J. Rood; 129(8), 683 (2003).
Editor's Note. —Mark J. Rood; 129(9), 785 (2003).
Editor's Note. —Mark J. Rood; 129(11), 966 (2003).
Editor's Note. —Mark J. Rood; 129(12), 1076 (2003).

Rowe, R. Kerry
Biogeochemical Evaluation of Mechanisms Controlling $CaCO_{3(s)}$ Precipitation in Landfill Leachate-Collection Systems. —Bruce E. Rittmann, James E. Banaszak, Andrew Cooke, and R. Kerry Rowe; 129(8), 723-30 (2003).

Rozzi, Alberto
Dissolved Oxygen-Stat Titration Respirometry: Principle of Operation and Validation. —Alberto Rozzi, Elena Ficara, and Andrea Rocco; 129(7), 602-9 (2003).

Rusch, Kelly A.
Determination of Optimum Ingredients for Phosphogypsum Composite Stability under Marine Conditions-Response Surface Analysis with Process Variables. —Tingzong Guo, James P. Geaghan, and Kelly A. Rusch; 129(4), 358-65 (2003).

Sabnis, Gajanan
Physical and Chemical Properties of Recycled Tire Shreds for Use in Construction. —Horace Moo-Young, Kassahun Sellasie, Daniel Zeroka, and Gajanan Sabnis; 129(10), 921-9 (2003).

Saichek, Richard E.
Effect of Soil Type on Electrokinetic Removal of Phenanthrene Using Surfactants and Cosolvents. — Krishna R. Reddy and Richard E. Saichek; 129(4), 336-46 (2003).
Iodide-Enhanced Electrokinetic Remediation of Mercury-Contaminated Soils. — Krishna R. Reddy, Carlos Chaparro, and Richard E. Saichek; 129(12), 1137-48 (2003).

Sánchez, M.
Combined System for Biological Removal of Nitrogen and Carbon from a Fish Cannery Wastewater. — A. Mosquera-Corral, J. L. Campos, M. Sánchez, R. Méndez, and J. M. Lema; 129(9), 826-33 (2003).

Sanders, Brett F.
Data Requirements for Load Estimation in Well-Mixed Tidal Channels. — Allyson K. Chu and Brett F. Sanders; 129(8), 765-73 (2003).

Sansalone, John J.
"First Flush," Power Law and Particle Separation Diagrams for Urban Storm-Water Suspended Particulates. — Chad M. Cristina and John J. Sansalone; 129(4), 298-307 (2003).
Kinematic Wave Model of Urban Pavement Rainfall-Runoff Subject to Traffic Loadings. —Chad M. Cristina and John J. Sansalone; 129(7), 629-36 (2003).

Santamarina, Juan C.
Instability of Hydrocarbon Films over Mineral Surfaces: Microscale Experimental Studies. —Franco M. Francisca, Victor A. Rinaldi, and Juan C. Santamarina; 129(12), 1120-8 (2003).

Sato, Chikashi
Modeling Tetrachloroethylene Decomposition in Photosonolysis Reactor. —Chikashi Sato and Steve M. Ogle; 129(2), 136-46 (2003).

Scardina, Paolo
Closure to "Prediction and Measurement of Bubble Formation in Water Treatment" by Paolo Scardina and Marc Edwards. —Paolo Scardina and Marc Edwards; 129(6), 581 (2003).

Schiff, Kenneth
Modeling Storm Water Mass Emissions to the Southern California Bight. —Drew Ackerman and Kenneth Schiff; 129(4), 308-17 (2003).

Scow, Kate M.
Rate Parameters for Methyl *tert*-Butyl Ether Biodegradation via a Radial Diffusion Model. —Hakan Başağaoğlu, Esther E. Chung, Deepa Gandhi, Kate M. Scow, Benjamin J. McCoy, and Timothy R. Ginn; 129(6), 565-70 (2003).

Seagren, Eric A.
Nonaqueous Phase Liquid Pool Dissolution as a Function of Average Pore Water Velocity. —Eric A. Seagren and Tim O. Moore, II; 129(9), 786-99 (2003).
Authors, Peer Review, and the Pursuit of Quality. —Eric A. Seagren; 129(12), 1073-5 (2003).

Sears, K.
Nitrification in Pure Oxygen Activated Sludge Systems. — K. Sears, J. A. Oleszkiewicz, and P. Lagasse; 129(2), 130-5 (2003).

Sellasie, Kassahun
Physical and Chemical Properties of Recycled Tire Shreds for Use in Construction. —Horace Moo-Young, Kassahun Sellasie, Daniel Zeroka, and Gajanan Sabnis; 129(10), 921-9 (2003).

Sen, S.
Anaerobic Treatment of Synthetic Textile Wastewater Containing a Reactive Azo Dye. — S. Sen and G. N. Demirer; 129(7), 595-601 (2003).

Seo, Seongwon
Evaluation of Solid Waste Management System Using Fuzzy Composition. — Seongwon Seo, Toshiya Aramaki, Yongwoo Hwang, and Keisuke Hanaki; 129(6), 520-31 (2003).

Seok, Jonghyuk
Integrated Modeling of Anaerobic Fluidized Bed Bioreactor for Deicing Waste Treatment. I: Model Derivation. — Jonghyuk Seok and Simeon J. Komisar; 129(2), 100-9 (2003).
Integrated Modeling of Anaerobic Fluidized Bed Bioreactor for Deicing Waste Treatment. II: Simulation and Experimental Studies. — Jonghyuk Seok and Simeon J. Komisar; 129(2), 110-22 (2003).

Shen, S. B.
Bacterial Leaching of Metals from Tannery Sludge by Indigenous Sulphur-Oxidizing Bacteria—Effect of Sludge Solids Concentration. —S. B. Shen, R. D. Tyagi, J. F. Blais, and R. Y. Surampalli; 129(6), 513-9 (2003).

Siegel, Malcolm D.
Removal of Metals and Radionuclides Using Apatite and Other Natural Sorbents. —Bruce M. Thomson, Christy L. Smith, Robert D. Busch, Malcolm D. Siegel, and Charles Baldwin; 129(6), 492-9 (2003).

Silvestre, O. B., Jr.
Influence of Portland Cement Type on Unconfined Compressive Strength and Linear Expansion of Cement-Stabilized Phosphogypsum. —A. B. Parreira, A. R. K. Kobayashi, and O. B. Silvestre, Jr.; 129(10), 956-60 (2003).

Simões, G. F.
Effects of Kiln Ash on the Compressibility of Residual Lateritic Soils. —T. C. de Brito Galvão, A. A. de Mendonça, and G. F. Simões; 129(10), 948-51 (2003).

Singh, Amardeep
Impact of Annual Average Daily Traffic on Highway Runoff Pollutant Concentrations. —Masoud Kayhanian, Amardeep Singh, Claus Suverkropp, and Steve Borroum; 129(11), 975-90 (2003).

Singh, Sushil K.
Errata for "Estimating Dispersion Coefficient and Porosity from Soil-Column Tests" by Sushil K. Singh. —Sushil K. Singh; 129(4), 389 (2003).
Dispersion Coefficient of Streams from Tracer Experiment Data. —Sushil K. Singh and M. B. Beck; 129(6), 539-46 (2003).

Siriwardane, Hema J.
Use of Waste Materials for Control of Acid Mine Drainage and Subsidence. —Hema J. Siriwardane, R. S. S. Kannan, and Paul F. Ziemkiewicz; 129(10), 910-5 (2003).

Smith, Christy L.
Removal of Metals and Radionuclides Using Apatite and Other Natural Sorbents. —Bruce M. Thomson, Christy L. Smith, Robert D. Busch, Malcolm D. Siegel, and Charles Baldwin; 129(6), 492-9 (2003).

Sobhan, Khaled
Mechanical Stabilization of Cemented Soil–Fly Ash Mixtures with Recycled Plastic Strips. — Khaled Sobhan and Mehedy Mashnad; 129(10), 943-7 (2003).

Soerens, Thomas S.
Investigation of Fluorescent Dyes as Partitioning Tracers for Subsurface Nonaqueous Phase Liquid (NAPL) Characterization. — Ana Ghanem, Thomas S. Soerens, M. M. Adel, and G. J. Thoma; 129(8), 740-4 (2003).

Son, Duong Hong
Modeling Approach to Periphyton and Nutrient Interaction in a Stream. — Duong Hong Son and Takeshi Fujino; 129(9), 834-43 (2003).

Sorial, George A.
Electrochemical Reduction of 2,4-Dinitrotoluene in a Continuous Flow Laboratory Scale Reactor. — Rajesh B. Doppalapudi, George A. Sorial, and Stephen W. Maloney; 129(3), 192-201 (2003).

Sorvari, Jaana
By-Products in Earth Construction: Environmental Assessments. — Jaana Sorvari; 129(10), 899-909 (2003).

Stefan, Heinz G.
Periodic Diffusional Mass Transfer near Sediment/Water Interface: Theory. —Makoto Higashino, Heinz G. Stefan, and Charles J. Gantzer; 129(5), 447-55 (2003).

Steinberg, Laura J.
Numerical Simulation of Rain Scavenging on Large Release of Water-Soluble Gases. —Wei Zheng, Ronaldo Luna, and Laura J. Steinberg; 129(1), 59-67 (2003).

Stenstrom, Michael K.
Modeling and Control of Oxygen Transfer in High Purity Oxygen Activated Sludge Process. —Chwen-Jeng Tzeng, Reza Iranpour, and Michael K. Stenstrom; 129(5), 402-11 (2003).

Stiver, W. H.
Nonequilibrium Nonaqueous Phase Liquid Mass Transfer Model for Soil Vapor Extraction Systems. — B. M. Harper, W. H. Stiver, and R. G. Zytner; 129(8), 745-54 (2003).

Stocking, Andrew J.
Closure to "Modeling Volatilization of MTBE from Standing Surface Waters" by Andrew J. Stocking and Michael C. Kavanaugh. —Andrew J. Stocking and Michael C. Kavanaugh; 129(5), 485 (2003).

Stoppel, Chris M.
Modeling Pd-Catalyzed Destruction of Chlorinated Ethenes in Groundwater. —Chris M. Stoppel and Mark N. Goltz; 129(2), 147-54 (2003).

Stovin, Virginia
Bed Shear Stress Boundary Condition for Storage Tank Sedimentation. —Åsa Adamsson, Virginia Stovin, and Lars Bergdahl; 129(7), 651-8 (2003).

Stuckey, David C.
Production of Soluble Microbial Products (SMP) in Anaerobic Chemostats Under Nutrient Deficiency. — Sérgio F. Aquino and David C. Stuckey; 129(11), 1007-14 (2003).

Suarez-Rey, Elisa M.
Bacteriophages MS2 and PRD1 in Turfgrass by Subsurface Drip Irrigation. — Carlos Enriquez, Absar Alum, Elisa M. Suarez-Rey, Christopher Y. Choi, Gideon Oron, and Charles P. Gerba; 129(9), 852-7 (2003).

Subrenat, Albert
Thermal Behavior of Activated Carbon Cloths Heated by Joule Effect. — Albert Subrenat and Pierre Le Cloirec; 129(12), 1077-84 (2003).

Suèr, Pascal
Mercury-Contaminated Soil Remediation by Iodide and Electroreclamation. — Pascal Suèr and Thomas Lifvergren; 129(5), 441-6 (2003).

Sung, S. S.
Floc Characteristics and Removal of Turbidity and Humic Acid from High-Turbidity Storm Water. — G. Annadurai, S. S. Sung, and D. J. Lee; 129(6), 571-5 (2003).

Sung, Shihwu
Sodium Inhibition of Thermophilic Methanogens. — Wen-Hsing Chen, Sun-Kee Han, and Shihwu Sung; 129(6), 506-12 (2003).

Sung, Windsor
Incorporating Reservoir Transfer into Treatment Optimization Decisions. —Windsor Sung; 129(4), 377-81 (2003).

Surampalli, R. Y.
Bacterial Leaching of Metals from Tannery Sludge by Indigenous Sulphur-Oxidizing Bacteria—Effect of Sludge Solids Concentration. —S. B. Shen, R. D. Tyagi, J. F. Blais, and R. Y. Surampalli; 129(6), 513-9 (2003).

Suverkropp, Claus
Impact of Annual Average Daily Traffic on Highway Runoff Pollutant Concentrations. —Masoud Kayhanian, Amardeep Singh, Claus Suverkropp, and Steve Borroum; 129(11), 975-90 (2003).

Suzuki, Michiya
Counterflow Method for Measurement of Henry's Law Constants. —Julie P. Caires, Michiya Suzuki, and Tohren C. G. Kibbey; 129(12), 1169-75 (2003).

Tadanier, Christopher J.
Modeling Uncoupled Solute Transport in Natural Organic Matter Size Fractionation by Ultrafiltration. — Christopher J. Tadanier, Duane F. Berry, and William R. Knocke; 129(1), 33-42 (2003).

Takyi, A. K.
Lagoon Effluent Treatment Using Grass Filtration. —F. Ibrahimi, B. J. C. Perera, P. Lechte, and A. K. Takyi; 129(11), 1022-9 (2003).

Tardieu, Eric
Excess Sludge Production in Membrane Bioreactors: A Theoretical Investigation. —Chuan-Hong Xing, Wei-Zhong Wu, Yi Qian, and Eric Tardieu; 129(4), 291-7 (2003).

Tay, Joo-Hwa
Influence of COD:N:P Ratio on Nitrogen and Phosphorus Removal in Fixed-Bed Filter. —Joo-Hwa Tay, Peng-Cheong Chui, and Huihua Li; 129(4), 285-90 (2003).

Thackston, Edward L.
Discussion of "Dimensional Analysis of Reaeration Rate in Streams" by Carlo Gualtieri, Paola Gualtieri, and Guelfo Pulci Doria. — Edward L. Thackston; 129(7), 675-6 (2003).

Thoma, G. J.
Investigation of Fluorescent Dyes as Partitioning Tracers for Subsurface Nonaqueous Phase Liquid (NAPL) Characterization. — Ana Ghanem, Thomas S. Soerens, M. M. Adel, and G. J. Thoma; 129(8), 740-4 (2003).

Thomson, Bruce M.
Removal of Metals and Radionuclides Using Apatite and Other Natural Sorbents. — Bruce M. Thomson, Christy L. Smith, Robert D. Busch, Malcolm D. Siegel, and Charles Baldwin; 129(6), 492-9 (2003).
Design and Operation of Point-of-Use Treatment System for Arsenic Removal. — Bruce M. Thomson, T. Jeffrey Cotter, and Joseph D. Chwirka; 129(6), 561-4 (2003).

Tokat, Enis
Activated Carbon Addition to an Activated Sludge Model Reactor for Color Removal from a Cotton Textile Processing Wastewater. — Aysegul Pala and Enis Tokat; 129(11), 1064-8 (2003).

Tonuk, Gulseven Ubay
Propylene Glycol Deicer Biodegradation Kinetics: Anaerobic Complete-Mix Stirred Tank Reactors, Filter, and Fluidized Bed. —Daniel Harris Zitomer and Gulseven Ubay Tonuk; 129(2), 123-9 (2003).

Tsai, Christina W.-S.
Uncertainty of Weekly Nitrate-Nitrogen Forecasts Using Artificial Neural Networks. —Momcilo Markus, Christina W.-S. Tsai, and Misganaw Demissie; 129(3), 267-74 (2003).

Tsai, Chuen-Jinn
Influence of Different Cleaning Conditions on Cleaning Performance of Pilot-Scale Pulse-Jet Baghouse. — Hsin-Chung Lu and Chuen-Jinn Tsai; 129(9), 811-8 (2003).

Tsolas, Ioannis E.
Sustainability Indices of Thermal Electrical Power Production in Greece. —Ioannis E. Tsolas and Odysseus G. Manoliadis; 129(2), 179-82 (2003).

Tugun, Hazim
Natural Stabilization of Stored Industrial Sludges. —Hazim Tugun, Raymond C. Loehr, and Xuijin Qui; 129(3), 248-57 (2003).

Turan, Mustafa
Adsorption of Negatively Charged Azo Dyes onto Surfactant-Modified Sepiolite. —Bulent Armagan, Orhan Ozdemir, Mustafa Turan, and Mehmet S. Çelik; 129(8), 709-15 (2003).

Tyagi, R. D.
Bacterial Leaching of Metals from Tannery Sludge by Indigenous Sulphur-Oxidizing Bacteria—Effect of Sludge Solids Concentration. —S. B. Shen, R. D. Tyagi, J. F. Blais, and R. Y. Surampalli; 129(6), 513-9 (2003).

Tyagi, Rajeshwar Dayal
Lead Removal from Acidic Solutions by Sorption on Cocoa Shells: Effect of Some Parameters. —Nathalie Meunier, Jérôme Laroulandie, Jean-François Blais, and Rajeshwar Dayal Tyagi; 129(8), 693-8 (2003).

Tzeng, Chwen-Jeng
Modeling and Control of Oxygen Transfer in High Purity Oxygen Activated Sludge Process. — Chwen-Jeng Tzeng, Reza Iranpour, and Michael K. Stenstrom; 129(5), 402-11 (2003).

Ünlü, Kahraman
Solidification/Stabilization of Hazardous Wastes Containing Metals and Organic Contaminants. — Olcay Yilmaz, Kahraman Ünlü, and Erdal Cokca; 129(4), 366-76 (2003).

Vaishya, Rakesh Chandra
Arsenic Removal from Groundwater by Iron Impregnated Sand. — Rakesh Chandra Vaishya and Sudhir Kumar Gupta; 129(1), 89-92 (2003).

Valenzuela-Solano, Cesar
Modeling Temperature Effects on Decomposition. — David M. Crohn and Cesar Valenzuela-Solano; 129(12), 1149-56 (2003).

Vangelas, Karen M.
Removal of Mercury from Low-Concentration Aqueous Streams Using Chemical Reduction and Air Stripping. — Brian B. Looney, Miles E. Denham, Jr., Karen M. Vangelas, and Nicolas S. Bloom; 129(9), 819-25 (2003).

Vasuki, N. C.
Integrated Solid Waste Management in the United States. —Morton Barlaz, Gregory C. Cekander, and N. C. Vasuki; 129(7), 583-4 (2003).

Wareham, D. G.
Oxidation-Reduction Potential as a Monitoring Tool in a Low Dissolved Oxygen Wastewater Treatment Process. —J. B. Holman and D. G. Wareham; 129(1), 52-8 (2003).

Watanabe, Kunio
Measurement of Evaporation on Bare Soil and Estimating Surface Resistance. —Shriyangi Aluwihare and Kunio Watanabe; 129(12), 1157-68 (2003).

Westerhoff, Paul
Reduction of Nitrate, Bromate, and Chlorate by Zero Valent Iron (Fe^0). —Paul Westerhoff; 129(1), 10-6 (2003).

Wey, Ming-Yen
Thermal Treatment for Incinerator Ash: Evaporation and Leaching Rates of Metals. —Zhen-Shu Liu, Ming-Yen Wey, and Shu-Jen Lu; 129(3), 258-66 (2003).

White, B.
Systematic Reliability-Based Environmental Design of Erosion for Efficient Engineered Landscape Profiling. —E. K. H. Goh and B. White; 129(7), 620-8 (2003).

Widdowson, Mark A.
Field and Laboratory Evaluation of the Impact of Tall Fescue on Polyaromatic Hydrocarbon Degradation in an Aged Creosote-Contaminated Surface Soil. —Sandra L. Robinson, John T. Novak, Mark A. Widdowson, Scott B. Crosswell, and Glendon J. Fetterolf; 129(3), 232-40 (2003).
Aerobic Biodegradation of Methyl Tert-Butyl Ether in Gasoline-Contaminated Aquifer Sediments. —Jeff R. Zoeckler, Mark A. Widdowson, and John T. Novak; 129(7), 642-50 (2003).

Wise, William R.
Hydraulic Analysis of Orlando Easterly Wetland. —Christopher J. Martinez and William R. Wise; 129(6), 553-60 (2003).

Wu, Chao-Hsiung
Effects of Oxygen on Pyrolysis Kinetics of Tetra Pack. — Chao-Hsiung Wu, Ching-Yuan Chang, Yu-Fen Liu, and Yeou-Lih Yan; 129(4), 382-6 (2003).

Wu, Wei-Zhong
Excess Sludge Production in Membrane Bioreactors: A Theoretical Investigation. — Chuan-Hong Xing, Wei-Zhong Wu, Yi Qian, and Eric Tardieu; 129(4), 291-7 (2003).

Wüest, Alfred
Modeling the Effect of Water Diversion on the Temperature of Mountain Streams. — Werner Meier, Cyrill Bonjour, Alfred Wüest, and Peter Reichert; 129(8), 755-64 (2003).

Xing, Chuan-Hong
Excess Sludge Production in Membrane Bioreactors: A Theoretical Investigation. — Chuan-Hong Xing, Wei-Zhong Wu, Yi Qian, and Eric Tardieu; 129(4), 291-7 (2003).

Xu, Fangxiang
Retention and Distribution of 1-Naphthol and Naphthol Polymerization Products on Surface Soils. — Fangxiang Xu and Alok Bhandari; 129(11), 1041-50 (2003).

Yan, Yeou-Lih
Effects of Oxygen on Pyrolysis Kinetics of Tetra Pack. — Chao-Hsiung Wu, Ching-Yuan Chang, Yu-Fen Liu, and Yeou-Lih Yan; 129(4), 382-6 (2003).

Yang, J.
Dynamic Mathematical Modeling of an Isothermal Three-Phase Reactor: Model Development and Validation. — J. Yang, D. W. Hand, J. C. Crittenden, D. R. Hokanson, E. J. Oman, and D. Audeves; 129(7), 586-94 (2003).

Yang, Shyh Chaur
Plasma-Assisted Process for Removing NO/NO_x from Gas Streams with C_2H_4 as Additive. — How Ming Lee, Moo Been Chang, and Shyh Chaur Yang; 129(9), 800-10 (2003).

Yilmaz, Olcay
Solidification/Stabilization of Hazardous Wastes Containing Metals and Organic Contaminants. — Olcay Yilmaz, Kahraman Ünlü, and Erdal Cokca; 129(4), 366-76 (2003).

Zagona, Edith A.
Regression Model for Daily Maximum Stream Temperature. — David W. Neumann, Balaji Rajagopalan, and Edith A. Zagona; 129(7), 667-74 (2003).

Zaramella, Mattia
Parameter Estimation of the Transient Storage Model for Stream–Subsurface Exchange. — Andrea Marion, Mattia Zaramella, and Aaron I. Packman; 129(5), 456-63 (2003).

Zeroka, Daniel
Physical and Chemical Properties of Recycled Tire Shreds for Use in Construction. — Horace Moo-Young, Kassahun Sellasie, Daniel Zeroka, and Gajanan Sabnis; 129(10), 921-9 (2003).

Zheng, Wei
Numerical Simulation of Rain Scavenging on Large Release of Water-Soluble Gases. — Wei Zheng, Ronaldo Luna, and Laura J. Steinberg; 129(1), 59-67 (2003).

Zhu, Jun
Closure to "Effects of Solid Levels and Chemical Additives on Removal of Solids and Phosphorus in Swine Manure" by Pius M. Ndegwa, Jun Zhu, and Ancheng Luo. — Pius M. Ndegwa, Jun Zhu, and Ancheng Luo; 129(5), 487 (2003).

Ziemkiewicz, Paul F.
Use of Waste Materials for Control of Acid Mine Drainage and Subsidence. — Hema J. Siriwardane, R. S. S. Kannan, and Paul F. Ziemkiewicz; 129(10), 910-5 (2003).

Zitomer, Daniel Harris
Propylene Glycol Deicer Biodegradation Kinetics: Anaerobic Complete-Mix Stirred Tank Reactors, Filter, and Fluidized Bed. — Daniel Harris Zitomer and Gulseven Ubay Tonuk; 129(2), 123-9 (2003).

Zoeckler, Jeff R.
Aerobic Biodegradation of Methyl Tert-Butyl Ether in Gasoline-Contaminated Aquifer Sediments. — Jeff R. Zoeckler, Mark A. Widdowson, and John T. Novak; 129(7), 642-50 (2003).

Zytner, R. G.
Nonequilibrium Nonaqueous Phase Liquid Mass Transfer Model for Soil Vapor Extraction Systems. — B. M. Harper, W. H. Stiver, and R. G. Zytner; 129(8), 745-54 (2003).
